SECTION I. .
Public Administration.

SECTION I.—PUBLIC ADMINISTRATION.

Sovereign.

His Exalted Highness, Rustom-i-Dowran, Arastu-i-Zaman, Lieut.-General, Asif Jah, Muzaffar-ul-Mulk Wal Mumalik, Nizam-ul-Mulk, Nizam-ud-Dowlah, Nawab SIR MIR OSMAN ALI KHAN Bahadur, Fateh Jung, Sipah Salar, Sultan-ul-Ulum, Faithful Ally of the British Empire, G.C.S.I., G.B.E., Nizam of Hyderabad and Berar.

(Ascended the throne on 25th Mehir 1320 F. 1st September 1911 A.D.)

Heir-Apparent and Commander-in-Chief of the Army.

His Highness Major-General Walashan Nawab Azam Jah Bahadur MIR HIMAYAT ALI KHAN, Prince of Berar.

(Assumed charge as Commander-in-Chief on.....)

In the administration of the State the Ruler is assisted by an Executive Council.

History of the Council in brief.—Till the year 1302 F. (1893) the administration of the Government was primarily under the direction and responsibility of the minister with certain exclusive subjects reserved for His Exalted Highness. But in 1302 F. a consultative body styled as the Cabinet Council was established to assist and advise the Minister in matters of State administration. Certain classes of business such as Budget, legislative matters of importance were declared fit for discussion in the Council reserved for consideration by the Cabinet and the right of overruling any decision rested intact with the President of the Council.

In 1324 F. (1916) a further step of increased responsibilities to ministers was inaugurated with the dissolution of the former Cabinet and by forming a new body entitled the Executive Council composed of a

President (Sadre-Azam) with charge of the Legislative portfolio and seven members (Sadrul-Mohams) with the following portfolios:—

First Executive Council.

1. SIR ALI IMAM, K.C.S.I.,
President and in charge of Legislative Council.
2. R. I. R. GLANCY, ESQ., C.I.E., I.C.S.,
Finance Member.
3. NAWAB VILAYAT JUNG BAHADUR,
Judicial Member.
4. NAWAB LATAFAT JUNG BAHADUR,
Military Member.
5. RAJA FATEH NAWAZ WANTH BAHADUR,
Revenue Member.
6. NAWAB TILAWAT JUNG BAHADUR,
Public Works Member.
7. NAWAB NIZAMAT JUNG BAHADUR,
Political Member.
8. NAWAB AQEEL JUNG BAHADUR,
Commerce and Industries Member.
9. SIR FARIDOOON-UL-MULK BAHADUR, K.C.I.E., C.S.I.,
C.B.E., Extraordinary Member without a portfolio.

Besides the above there were the Sadr-ul-Moham Peshi in charge of the Peshi (H.E.H.'s own) Department and the Sadr-us-Sudur of the Religious Department, but these had no seats in the above Council.

Peshkar:—Raja Rajayan Raja Sir Kishen Pershad Maharaja Bahadur, Yamin-us-Sultanath, K.C.I.E., G.C.I.E., (Assumed office on 18-4-1302 F.)

After Sir Ali Imam, Nawab Sir Faridoon-ul-Mulk acted as President from ———to———. Maharaja Sir Kishen Pershad Bahadur succeeded him and he remained as President till 8-6-1346 F. when the Rt. Hon. Sir Akbar Hydari was made the President of the Executive Council.

(a) *Executive Council*:—at the end of 1347 F.

President:—(Sadr-i-Azam) (1) The Rt. Honourable Nawab Sir Akbar Hydar Nawaz Jung Bahadur, P.C., B.A., LL.D., D.C.L. (Assumed office on 9-6-1346 F.)

Members (Sadr-ul-Mohams):—(2) Nawab Sir Aqeel Jung Bahadur, Member for Military, Medical, Veterinary, Observatory, Archæology, City Survey, Registration, Stamps, Postal and Printing Departments. (Assumed office on 9-8-1336 F.)

(3) Nawab Mahdi Yar Jung Bahadur, M.A. (Oxon.), Member for Political, Press Commissariat, State Reception and Entertainments, Education, City Improvement Board, Municipality, Public Gardens, Information Bureau, Amira Stables and Motor Cars Departments. (Assumed office on 1-4-1339 F.)

(4) Sir Theodore J. Tasker, C.I.E., O.B.E., I.C.S., Member for Revenue, Atiyath, Settlement, Court of Wards, Police, Jails, Agriculture, Statistics, Excise, Customs, Forests, Co-operative Societies, Rural Reconstruction and Local Fund Departments. (Assumed office on 31-6-1344 F.)

(5) Raja Shamraj Rajwant Bahadur, Member for Public Works, Buildings and Communications, Irrigation, Water Works, Drainage, Telephone and District Electricity Departments. (Assumed office on 26-8-1344 Fasli.)

(6) Nawab Fakhr Yar Jung Bahadur, B.A., Member for Finance, Accounts and Audit, Treasuries, Mint, Paper Currency, Stationery, Railway, Mines, Electricity, Workshop and Industries and Commerce Departments. (Assumed office on 9-6-1346 F.)

(7) Nawab Mirza Yar Jung Bahadur, M.A., LL.B., Member for Judicial and Religious Departments. (Assumed office on 1-7-1346 F.)

(b) *Legislative Council*:—Before 1303 F. (1893) the Cabinet Council was responsible for enacting laws for the State, which prepared drafts of bills and for its consideration a special Committee was formed in 1299 F. (1890). A Law Commission was functioning. But on 16-4-1303 F. a new body known as Legislative Council was created for the purpose of enacting laws for the State. This body is partly nominated and partly elected and the bills passed by this Council are examined by the Executive Council and submitted to His Exalted Highness the Nizam for his assent. The following were the President and Members at the end of 1347 F.

(1) *President*:—Rt. Hon'ble Nawab Sir Akbar Hydar Nawaz Jung Bahadur, P.C., B.A., LL.D., D.C.L.

(2) *Vice-President*:—The Member-in-charge of the department whose bill is before the Council or who may be appointed as such by the Government for any particular bill or for any special sitting or for some specified period.

(a) *Ordinary Members (Ex-officio Members)*.

1. NAWAB JIVAN YAR JUNG BAHADUR,
Chief Justice.
2. MD. AZHAR HUSAIN,
Secretary, Judicial, Police and General Departments.

HYDAR NAWAZ JUNG BAHADUR, P.C., B.A., LL.D.,
D.C.L.

Vice-Chancellor:—HON. NAWAB MAHDI YAR JUNG
BAHADUR, M.A. (Oxon.)

Pro-Vice-Chancellor (Offg.): Prof. KAZI MD. HUSAIN
M.A., LL.B., Bar.-at-Law.

Members:—The Finance Member, the Ecclesiastical
Member, the Education Secretary, Director of Public
Instruction, the Principals of Medical, Engineering and
Women's Colleges, the Director of Medical and Public
Health, the Secretary and Director-General of Revenue,
the Hon'ble P. W. D. Member, and the Chief Justice of
High Court.

- (23) *The State Scholarship Committee*: (8 persons).
 President:—Hon'ble the Finance Member.
 Secretary:—Director of Public Instruction.
- (24) *Board of Governors, Nizam College*: (7 persons).
 President:—The Hon. Member for Education.
 Secretary:—The Principal, Nizam College.
- (25) *Board of Governors, Jagirdars' College*: (11 persons.)
 President:—Sahebzada Hazrath Nawab Basalath Jah Bahadur.
 Secretary:—The Principal.
- (26) *Committee for Reorganising Secondary Education*: (30 persons.)
 Patron:—Sahebzada Nawab Basalath Jah Bahadur.
 President:—Syed Md. Husain Jafferi, Director of Public Instruction.
 President for Girls' Education: Lady Hydari.
 Secretary:—Syed Ali Akbar, M.A.
- (27) *Advisory Board of Industrial Education*: (14 persons).
 President:—Khan Fazl Md. Khan, M.A., Commissioner and Secretary, Industrial and Technical Education.
 Secretary:—Principal, Osmania Technical College.
- (28) *Osmania University Buildings Committee*: (9 persons).
 Chairman:—
 Secretary:—
- (29) *The Osmania Hospital Advisory Board*: (10 persons).
 Chairman:—
 Secretary:—
- (30) *The Board of Survey (Medical)*: (3 persons).
 President:—Dr. M. Hasan Ali Khan,

- (31) *Medical Board and Civil Service Medical Board:*
(5 persons).

President:—Director of Medical Department.

Secretary:—

- (32) *Child Welfare Centres, Ladies' Committee:*
(7 persons).

President:—Lady Hydari.

Secretary:—Mrs. Crofton.

- (33) *The General Committee, Plague:* (14 persons).

President:—Hon. the Medical Member.

Secretary:—

- (34) *The Frontier Village Committee:* (13 persons).

President:—

Secretary:—Dr. H. Hyder Ali Khan.

- (35) *Advisory Board, Dichpalli Leper Home:* (2 Government representatives).

President:—

Secretary:—

- (36) *Central Ambulance Board:* (11 persons).

Patron:—H.E.H. THE NIZAM, G.C.S.I., G.C.B.

President:—H. E. the Rt. Hon'ble President of the Executive Council.

Chairman:—Hon. the Military and Medical Member.

Vice-President:—Raja Rajayan Maharaja Sir Kishen Pershad Bahadur, Yamin-us-Sultanath.

Secretary:—Director of Medical and Public Health Department.

- (37) *The Executive Committee (Victoria Memorial Orphanage:* (17 persons).

President:—Hon'ble the Resident at Hyderabad.

Vice-President:—H. E. the President of the Executive Council,

I.—PUBLIC ADMINISTRATION.

Hon. Secretary:—Hon'ble the Political Member.

- (38) *Reorganising Committee, H.E.H. the Nizam's Irregular Forces*: (4 persons).

President:—

Secretary:—

- (39) *The Industrial Area Development Committee*: (5 persons).

Chairman:—Director of Commerce and Industries.

Secretary:—B. K. Bhagwan, Industrial Engineer.

- (40) *The Agricultural Scholarship Committee*: (6 persons).

President:—Hon. Sir T. J. Tasker, C.I.E., I.C.S., Member for Revenue and Agriculture.

Secretary:—Director of Agriculture.

- (41) *The Veterinary Scholarship Committee*: (6 persons).

President:—Hon'ble Nawab Sir Aqeel Jung Bahadur, Army and Medical Member.

Secretary:—

- (42) *The Hyderabad Co-operative Union, Ltd.*: (14 persons).

President:—Sahebzada Nawab Basalath Jah Bahadur.

Vice-President:—Diwan Bahadur S. Aravamudu Aiyengar, M.B.E., B.A., B.L.

Hon. Secretary:—Md. Mir Khan, H.C.S.

SECTION II

Area and Population.

SECTION II.

AREA AND POPULATION.

(Table No. 1):—The population of H.E.H. the Nizam's Dominions according to the census taken in 1931 was 14,436,148, an increase of 15.8 per cent. on the previous decade and 46.6 per cent. on 1881. The decade preceding the census was normal from public health point of view. The general economic condition of the people improved, and, therefore, the population increase was highly satisfactory. The population is distributed over sixteen civil administrative districts. Karimnagar is the most populous district with 1,241,405 persons, the average district population being 873,078.

There has been an appreciable increase in the number of towns by 49 per cent., over the 1921 figure whereas only 20 per cent., more villages came into existence. 39 per cent. more houses came into being occupied in towns to the 36 per cent. more houses in the villages.

The greater percentage increase in the urban population may be attributed to the advanced conditions with a tendency towards a better standard of living.

(Table No. 2):—The steady progressive growth of population of the state from the year 1881 onwards is met with a sharp reversal between years 1911 and 1921, attributable no doubt to a certain extent to the Great War (1914-18) and the ravaging epidemics of Plague and Influenza.

The adverse effects on the growth of population during the period 1891 and 1901, for the Karimnagar, Aurangabad, Bir, Nander and Parbhani Districts, is apparent by the census figures. Ranking Districts by population the year 1931 brings forward Karimnagar, followed by Gulbarga, Nalgonda and Warangal.

Considering the percentage growth in the population since 1881-1931 Adilabad registers about the highest, i.e., 59.1 per cent. followed by Warangal, Mahbubnagar and Nalgonda. Nander registers about the lowest, i.e., 4.3 per cent.

(*Table Nos. 3 and 4*) :—The average absolute density over the whole Dominions is 175 per square mile, Medak being the most densely populated district with 231 persons per square mile. Then follow Karimnagar, Osmanabad and Nander Districts. The density is below 150 over 26.4 per cent. of the Dominions area; between 150 and 200 over 62.7 per cent. and 200 and 250 over 10.8 per cent. and over 250 in 0.1 per cent. of the area. In other words 36.7 per cent. of Telingana and 16.1 per cent. of Marathwara tracts are thinly populated. Population centres round fertile areas, Telingana districts raise more crops in a year and there being available irrigation facilities there is a larger concentration of people there than in Marathwara. Nizamabad and Medak are well placed in these respects; hence the density per square mile of cultivated area in these districts is 718 and 699 respectively.

The average size of a family is 4. The population is mostly rural, only 11.2 per cent. live in what are called towns, as compared with 9.5 per cent. in the preceding census.

(*Table No. 5*) :—During the decade many large villages developed urban characteristics; some became centres of taluk administration and others gained strength and importance by the growth of trade and industry. Now there are four cities and 129 mofussil towns,—in all 133 as compared with 89, ten years ago. During the same period 474 new villages came into existence, the present total number being 21,697, of which 12,601 have a population of less than 500 each, 5,439 have between 500 to 1,000 and 3,657 have between 1,000 and 5,000.

Of the total persons enumerated, only 1.7 per cent. represented non-Hyderabadis by birth, more than half of it being Madrasis. Movement of population ordinarily takes place between the Hyderabad State and Madras, Bombay, Central Provinces and Berar, the United Provinces, Rajputana, Punjab, Mysore and Ajmer-Merwara.

Non-Indians numbered 2,258 and non-Asiatics 2,548. Bona-fide Hyderabadis enumerated outside India were only 280.

(*Table Nos. 6, 7 and 10*):—Classified according to religions are 67 per cent. Brahmanic Hindus, 17 per cent. Adi-Hindus, 10.6 per cent. Muslims, 1 per cent. Christians, and the rest are followers of other minor religions.

The Depressed Classes, who, in caste Hindu's view are untouchables are now known as Adi-Hindus. They number 2,473,230 and are composed of 43 sub-castes, falling in three main groups—Dhers, Madigas and minor castes.

The primitive tribes, who live in forest regions, are Andhs, Bhils, Koyas, Chenchus, Gonds and Santals, numbering in all 176,473.

The appreciable increase in the Sikh and Christian communities may be attributed to the general influx in the case of former and missionary work in the latter, with the free expression of religious thought, accorded by the State to its people irrespective of caste, creed and community.

(*Table No. 8*):—Apart from the thousands of places and objects held sacred in every nook and corner, public highways, etc., there are 31,842 Hindu temples, to the 5,743 mosques and 110 churches in the State. The District of Raichur alone monopolises by far the highest number of Temples, i.e., 7,911 followed by Gulbarga 6,705, etc. The Government Ecclesiastical and Archæological Departments established for the purpose of preservation of historical and supervision of existing sacred relics contribute a good amount annually for their maintenance and preservation.

The proportion of places of worship per thousand population of community is as follows:—

Hindus	..	2.6 temples.
Aryas	..	12.1 mandirs.
Sikhs	..	11.7 gurudwars.
Muslims	..	3.7 mosques.
Christians	..	1.0 Church.

(Table No. 9, 10 and 11):—The population is composed of 7,370,010 males and 7,066,138 females or 958 females for one thousand males as compared with 966 in 1921. It may be viewed with significance, that out of the sixteen Districts, not a single one registers more females than males, however much negligible the difference might be. Neither the percentage increase of 16 per cent. in the case of males and 15 per cent. in the case of females holds any promise of parity in the near future. The deficiency of females is more marked in Marathwara than in Telingana. Sex inequality is attributed to different causes such as climate, racial character and social customs and sex-selective diseases. Below the age of 5 and between 20 and 25 females are in excess of males while at 40 both males and females are equal. Among Hindus there are 999 females for every 1000 males below 30 years, whereas among Muslims there are only 978 females in that age category.

The proportion of population at reproductive age being the highest is satisfactory, while the mortality rate amongst married men is considerably high (for every three widows amongst all religions there is only one widower). Muslims in particular register the highest than the rest, *i.e.*, there being 345 widows to every 100 widowers amongst them.

Marriage is universal among all castes and creeds. Except for Brahmins, divorce is permissible. Polygamy or plurality of wives, though recognised by certain religions, is not practised generally for economic reasons. Widow marriages are forbidden amongst Brahmanic Hindus. Child marriages are more common among Hindus of all description than among others. Of the total population, 42 per cent. were found unmarried on the census day, 53 per cent. married and 5 widowed. As compared with the figures for the previous decade the population of unmarried and married has risen and that of widowed has fallen. Although there is no legislation as in British India fixing marriageable age, there is a growing tendency among all classes of people to defer marriages to a reasonable age.

(Table No. 11 and 12):—16.8 per cent. of the total population are below the age of 5 years, as against 12.1 per cent. in 1921. Judged by the recognised standards,

the population of the State, as classified by ages, is distinctly progressive. The Muslim population is of the accessive type, Brahmanic Hindus, Adi-Hindus and Christians are of the stationary type and the primitive tribes secessive type, because between the ages of 15 and 50 years the Muslims have more than 50 per cent. of their population, the others have just 50 per cent. or less.

The mean age of males is 26 and females 25.8—though a slight improvement in both cases upon the last decade but the short span of life of persons is forcefully felt. During the last ten years persons aged 40 and over have lessened by 20 percent.

(Table No. 15) :—Percentage of literacy is generally very low and it has not been found easy to induce the populace most of them with parasitic outlook in life to take to it inspite of the huge sums that are being spent annually by the Government. The next decade may have an encouraging tale to tell as the Government have made laudable efforts for the promotion of literacy in the Dominions. A policy of rapid expansion of elementary education was vigorously pursued. This brought about the widening of the basis and scope of secondary education. University education received added impetus. Private agencies were encouraged to found schools and educational institutions on approved basis. Educational facilities for adults and depressed classes have also been provided. In 1931 census 85 per mile of male and 12 per mile of females above the age of 5 were literate. Notwithstanding the more or less rigid social restrictions obtaining in certain communities, female education has made strides and the prejudices of old women towards the education of their girls is slowly wearing away. The degree of literacy varies in the different castes constituting the Brahmanic Hindu community. The higher the caste the larger the proportion of literates. Female education has become increasingly popular among Brahmins and Adi-Hindus.

(Table No. 16) :—Occupational castes are slowly disintegrating. There is no longer a barrier between one trade and another. Improved means of communication, ambition for social and economic advancement and increased facilities for obtaining skill and proficiency in

modern methods of industry have placed within the reach of all classes of people the liberty to choose and pursue any remunerative occupation. But there is not enough work for all. Agriculture continues on primitive lines and industry is largely confined to cottages. Trade is done in primary goods.

There are altogether 52 different castes in Hindus throughout the Dominions and 9 Tribal castes besides the 1,076,539 Adi-Hindu (Untouchables).

(*Table No. 17 and 18*):—44 per cent. of males and 22 per cent. of females are the prime earners, 14 per cent. of males and a like per cent. of females are working dependents and 42 per cent. of males and 64 per cent. of females are non-working dependents. Exploitation of the soil for food, fruit, etc., is the direct means of livelihood for no more than 24 per cent. of the population, stock-raising 3 per cent., industry 5 per cent., transport 2 per cent., and trade 5 per cent.

The occupation in life is, as elsewhere in India predominantly agricultural for both males and females, Domestic service coming next followed by Industries of Dress and Toilets and Textiles, under the main head Industry and then Transport.

Under the main head *Trade*, Hotels, cafes and Restaurants appear to provide the most lucrative of occupations.

In *profession and liberal arts*:—Religion as an occupation holds unique position, nearly 70 per cent. of the total 65,311 under the main head being pre-occupied in (a) Instruction (b) Medicine (c) Law by 10 per cent., and 8 per cent., and 6 per cent., respectively.

The number of male and female beggars and vagrants is appalling in spite of a number of homes and asylums for the poor and destitute.

(*Table No. 19 and 20*):—Telugu, Marathi, Kanarese and Urdu are the mother-tongues of 7 million, 3.8 million, 1.6 million and 1.5 million persons respectively. Others have different Indian vernaculars and dialects. In addition to their mother-tongue, the people speak other languages also. Urdu is most widely understood and spoken as a subsidiary language.

(b) Several other Jagirs and Samasthans of minor importance have been included in the Dewani taluks where they are situated.

(c) Percentage of literacy is calculated on the whole population, excluding the population under 5 years of age. The literates for the Dominions work out 8.5 per cent. for males and 1.2 per cent. for females.

(d) Others include: 1,784 Zoroastrians, 52 Buddhists, 27 Jews, who have almost all of them been enumerated in Hyderabad City.

No. 29. The proportion of Diwani (Government) and non-Diwani Areas.

The total area of the Dominions is 82,698 sq. miles, of which Sarf-i-Khas, Paigah, Jagir, etc., claim 34,318.7 sq. miles, *i.e.*, 41.5 per cent. The total area of the Sarf-i-Khas Ilaqas is 8,109 sq. miles or 9.9 per cent. of the total Dominions' area. The compact areas of Paigahs, Samasthans and Jagirs is 8,061 sq. miles or 9.7 per cent. of the total Dominions' area. The spread-out non-Government Ilaqas amount to 16,080 square miles or 21.9 per cent. Thus Paigah, Samasthan and Jagir on the whole make a total of 31.6 per cent.

The compact areas of Sarf-i-Khas, Paigahs, Samasthans and Jagirs according to Census Vol. II., State Table I., are noted below:—

SECTION III.

Revenue and Expenditure

III.—REVENUE AND EXPENDITURE.

The Revenue of the State (Rs. 939.97 lakhs) in the year 1347 F., though less than that for the previous year by Rs. 3.35 lakhs, was Rs. 79 lakhs up on the quinquennial average. The increase was contributed very largely by the Railways, Customs and Excise.

The total amount of expenditure charged to the revenue of the year was Rs. 911.82 lakhs as compared with Rs. 827.59 lakhs, average for the preceding quinquennium, showing a rise of Rs. 84.23 lakhs. Increase occurred principally under buildings and communications, famine relief, miscellaneous minor departments and political charges. The expenditure on Education declined by Rs. 13 lakhs on the previous quinquennium, while that on other nation-building departments such as Public Health, Agriculture, Veterinary, Co-operative and Industries, remained practically stationary.

N.B. The year 1347 F.=Oct. 1937 to Sept. 1938.

SECTION IV

Land Revenue

IV.—LAND REVENUE.

Land Revenue is derived from ryotwar villages, leased villages, peshkash, panmaqtas, fruit trees, and miscellaneous allied sources. The amount of total ryotwar land assessment in 1347 F. (1938) was Rs. 375.4 lakhs, the same being the average for the preceding quinquennium. The rate of assessment varied according to the type of land such as dry, wet and garden. This year the rate for dry crop areas was varying between 2 annas and Rs. 4 per acre, and that for wet and garden crops between Rs. 2-12 and Rs. 23 per acre. The area of dry land assessed was 22.41 lakhs acres and that of wet and garden 1.3 lakh acres—making a total of 23.7 lakhs acres. The amount assessed was Rs. 227.3 lakhs on dry and Rs. 148 on wet land.

Nearly Rs. 14.4 lakhs were remitted for failure of wet crops as compared with Rs. 10.7 lakhs in the previous year. There was no remission on dry crops. Other remissions amounted to Rs. 47 lakhs. Allowing for these remissions and taking into account other miscellaneous revenues from Jamabandi, etc., the net ryotwari assessment comes to Rs. 338.4 lakhs as compared with the quinquennial average of Rs. 352 lakhs. Of this, Rs. 337 lakhs were demanded and Rs. 315.4 lakhs realized, leaving a balance of Rs. 20.4 lakhs. The demand exceeded the average (Rs. 335.8 lakhs) in the previous 5 years by 2.6 lakhs.

Land cess demand amounted to Rs. 27.5 lakhs, of which 82.7 per cent. was collected and written off, leaving a small balance.

The Revenue payment to Government by Samasthans, Jagirs and Inamdars on account of Peshkash, mokasa, Haq-i-malikana and Chauth Kahdana, amounted to Rs. 10.3 lakhs, the same as in the previous year.

For land improvement, Government distributed loans to the agriculturists to the extent of Rs. 1.3 lakhs as compared with Rs. 2.5 lakhs in the previous year. The amounts thus advanced are recoverable in convenient instalments. The sum outstanding on this account at the beginning of 1347 F., stood at 20 lakhs of which 1.2 lakhs were recovered.

Revenue administration charges amounted to Rs. 46.9 lakhs or 11 per cent. of the net income of the year.

IV.—LAND REVENUE.

Mr. Syed Asadulla Razvi, H.C.S.	1324 F.
Mr. Jehangirji Mehta (continuing)	1347 F.

COMMISSIONERS.

Mr. Mohammad Ali	1329 F.
Mr. Gulam Mustafa Quereshi	1337 F.
Mr. J. B. Mehta (Offg.)			
Mehir	1341 F.
Thir	1343 F.
Mr. Gulam Mustafa Quereshi	1343 F.
24th Thir to end of	1346 F.
Mr. Jehangirji Mehta (continuing)	1347 F.

3. *History*.—During the regime of Malik Ambar in the 17th century as Prime Minister, this great statesman and a reformer of the day established in the Deccan Revenue Survey and Settlement Department.

Again in the 19th century A.D., when the helm of administration was steered by that great statesman, Nawab Sir Salar Jung I, transitional movement commenced bringing along with it numerous innovations and reforms in the State. Among these was the introduction of this department, to a certain extent, on scientific basis in the year 1285 Fasli (1876 A.D.)

1285 *Fasli* (1876 A.D.).—Mr. Mehdi Ali Khan (Nawab Mohisin-ul-Mulk), the then Revenue Secretary, was appointed the 'First Nazim' under his guidance worked the Superintendents of various divisions established from time to time at the urge of necessity.

1286 *Fasli* (1877 A.D.).—Nizamat was made a separate post which was filled by Mr. Nazir Ahmad.

1291 *Fasli* (1882 A.D.).—Hassan-bin-Abdullah worked as Nazim for some months of the year that followed. General Glasford was an additional Nazim.

1294 *Fasli* (1885 A.D.).—Mr. A. J. Dunlop became Nazim. When he had been home on furlough Mr. Faridoonji Jamshedji (Nawab Faridoon-ul-Mulk) officiated.

1303 *Fasli* (1894 A.D.).—Mr. Syed Ali Hassan Bilgrami succeeded Mr. A. J. Dunlop as Nazim.

1306 *Fasli* (1897 A.D.).—Mr. Syed Ali Hassan Bilgrami having been deputed as Financial Secretary, Mr. Bursorji-Jamshedji was made Interim Nazim.

1308 *Fasli* (1899 A.D.).—Mr. Syed Ali Hassan Bilgrami reverted as Nazim and retired in 1310 F. (1901).

1310 *Fasli* (1901 A.D.).—Nizamat was abolished and the department was managed by the Revenue Board.

1311 *Fasli* (1902 A.D.).—Retrenchment of certain divisions took place as an outcome of the deliberations of the Revenue Board Committee, retaining only Hyderabad and Warangal Divisions with Messrs. Abdul Rahim

for Warangal and Gustaspji Darashaw for Hyderabad. Later on in the same year the former was transferred to Hyderabad and the latter to Warangal.

1313 *Fasli* (1904 A.D.).—Mr. Abdul Rahim was appointed Joint Revenue Secretary and contemporaneously worked as Superintendent of Hyderabad Division.

1318 *Fasli* (1909 A.D.).—Mr. Syed Hussain was appointed Superintendent of Hyderabad Division as the post was separated from the Revenue Secretariat.

1323 *Fasli* (1911 A.D.).—Mr. Gustaspji Darashaw of Warangal retired giving charge to Mr. Mir Zahid Ali, who acted only for some months *vice* Mr. Macdermott who was appointed Superintendent, Settlement Department (Warangal).

1324 *Fasli* (1915 A.D.).—Mr. Syed Hussain of Hyderabad retired on the 30th Aban of the preceding year and was succeeded by Mr. Syed Asadullah Razvi, H.C.S. But since Mr. Razvi's services were lent to Paigahs Mr. Masheeduddin, H.C.S. acted in his place.

1326 *Fasli* (1917 A.D.).—Mr. Macdermott of Warangal retired. Mr. Masheeduddin of Hyderabad was transferred to Warangal and Mr. Dorabji Chenoy (Nawab Dorab Jung Bahadur), Assistant Revenue Secretary, succeeded him for Hyderabad Division.

1329 *Fasli* (1920 A.D.).—Mr. Mohammed Ali (Nawab Mohammed Nawaz Jung), Inspector-General Revenue was appointed Settlement Commissioner also, both the divisions were placed under him.

1330 *Fasli* (1921 A.D.).—Nizamat was abolished as Nawab Mohammed Nawaz Jung was appointed Director-General of District Police and Jails.

1331 *Fasli* (1922 A.D.).—Mr. Masheeduddin of Warangal died and Mr. Gopal Rao assumed his place at Warangal as Superintendent.

1334 *Fasli* (1925 A.D.).—Mr. Gopal Rao of Warangal retired and Mr. Jafer Ali Khan, Assistant Revenue Secretary succeeded.

1335 *Fasli* (1926 A.D.).—Two posts of Sadr Nazims Mal—Telingana and Maratwara—were created and

designed as Settlement Commissioners of respective divisions.

1337 *Fasli* (1928 A.D.).—Mr. Dorabji Chenoy (Nawab Dorab Jung Bahadur) of Hyderabad was appointed Joint Revenue Secretary and Mr. Gulam Mustafa Quereshi took his charge.

1340 *Fasli* (1931 A.D.).—Reorganisation scheme sanctioned. Both the divisions of Hyderabad and Warangal were amalgamated. A second grade Commissioner's post with two deputies was created.

Mr. Gulam Mustafa Quereshi, Superintendent of Hyderabad Division, was appointed Commissioner and Messrs. Jahangir B. Metha and Abdul Hafeez, Deputy Commissioners. Mr. Jafar Ali Khan of Warangal retired on 30th Aban 1339 F.

1341 *Fasli* (1932 A.D.).—Mr. Jahangir B. Mehta was acting Commissioner from 22nd Mehir 1341 Fasli to 24th Thir 1343 Fasli due to Mr. Gulam Mustafa Quraishi having proceeded on long leave.

1343 *Fasli* (1934 A.D.).—Mr. G. M. Quereshi rejoined service on 24th Thir 1343 F. continued till the end of 1346 F. and died on 30th Azur 1347 F. Mr. Jahangir Mehta was in charge of the Department till 7th Farwardi 1347 F. after which the Department was changed into Settlement and Land Records Departments, Mr. Jahangirji being appointed Commissioner of the former department.

1347 *Fasli* (1938 A.D.).—Mr. Jehangirji Mehta assumed the charge of Commissioner from 1st Dai 1347 F. after the death of Mr. G. M. Quereshi.

4. *Chief Functions*.—The chief functions of this department have been to regularize, in all its phases the revenue administration, the revenue collection, improve and consolidate the fiscal position of the Government, modify the land assessments for the prosperity of the cultivators and the Government thus contribute its beneficial share to the benign policy of the Government.

5. *Achievements*.—Prior to the introduction of initial survey and settlement the distribution of various parts of the country, hitherto, was not based on any sound principle. Since the inception of this department up to 1314 F. major portion of the Dominion was duly surveyed. This served as an initiative towards reorganisation on well-cut principles. Hence the Zilla-Bundi scheme of 1314 Fasli, brought about by Mr. Abdul Rahim, Settlement Superintendent, may be reckoned as a landmark in the history of this department and be termed as an extraordinary achievement.

6. *Control*.—During 1347 F. the two appointments of Deputy Commissioner were abolished and the land record branch was separated and put under a Nazim who is assisted by 7 Assistants and 1 probationer, thus the Settlement Department is manned by a Commissioner with a Deputy who is in charge of Jagirath, and 9 other assistants.

IV.—LAND REVENUE.

No. 13.—Brief History of the Department of Land Records, Record of Rights and Town Survey.

1. Established in 1346 F. (1937 A.D.)
2. Heads of the Department with the period of their tenure.

A. Superintendents (Hyderabad Division).

Commissioner, Land Records, Record of Rights and Town Survey Department under the new scheme.

(1) Ghouse Mohiuddin, H.C.S. 8-5-1347 (Cont.)

3. *History.*—The Land Records system was inaugurated in the State in 1328 Fasli on the lines of British India. At first it was contemplated to provide all the districts settled and announced, with District Land Record Offices, but owing to different circumstances its full realization was not possible and only five districts, *viz.*, Aurangabad, Nizamabad, Warangal, Karimnagar and Mahbubnagar were provided with Land Records Officers' and establishments; while Bidar, Gulbarga, Osmanabad and Bir, however, had Land Records establishments and their supervision was entrusted to the Assistant Collectors (Madadgars of Mal) apart from their duties connected with the Revenue Department. Subsequently in 1342 Fasli, Medak District was also provided with a Land Records Officer with the necessary establishment.

In the beginning of 1347 Fasli, Government realising the full significance of the District Survey Offices brought about the bifurcation of the Settlement and Land Records Departments. Previous to the bifurcation scheme the Settlement Commissioner has also to carry out the duties of the Superintendent, Land Records Department. Since 1347 Fasli the Land Records Department is functioning under a separate Commissioner and apart from the Land Records work the department is put in charge of Record of Rights, Town and Project Surveys. The creation of this separate department has been brought about without any extra expenditure to Government. Four Survey parties and a part of the head office establishment along with three officers in Rs. 200 to 400 cadre were transferred from the Settlement to the Land Records Department. A new scheme after the bifurcation has been submitted to Government under which the transferred hands have been so distributed that all the districts could be provided with District Survey Offices with full establishment. After the sanction of this scheme District Survey Offices will function on very prompt and efficient lines so necessary in a Ryotwari system.

Out of the transferred survey parties from the Settlement Department, two are engaged for project and town surveys and the others have been broken up to provide establishments to the District Land Records.

Record of Rights was first introduced into the State in 1315 Fasli. The supervision of this new department was directly under Mr. S. M. Bharucha, Additional Revenue Secretary. Three Special Officers with establishments were appointed to carry out this work. The work having been started in the districts of Osmanabad and Aurangabad in 1347 F. the supervision of this work had been transferred to the Land Records Department. Subsequently the work having been completed, the former mentioned district was promulgated after which the work in Bhir has been started.

4. *Chief Functions: Land Records.*—Under the Ryotwari System prevalent in the State, the chief function of the Land Records Department is the maintenance of the Ryotwari records in an up-to-date condition,

making all the necessary changes brought about on the field. Since all the districts of the Dominions have been surveyed and announced and most of them have also been revised, the District Survey Officers have to perform the manifold duties of keeping the settlement records in an up-to-date condition, incorporating in them the timely changes that take place, inspecting boundary marks and getting them repaired when found damaged; defining the holdings when applied for, thus saving the cultivator from unnecessary litigation of expense; and scientifically surveying, classifying and assessing lands given out on "Lawni." The annual inspection of fieldwar boundary marks and the timely incorporation of changes in the records makes a revision settlement a cheaper and easier proposition as Government is saved from a large amount of expenditure during the revision survey operations, if the two chief functions of the Land Records Department are timely performed in every village of the Dominions.

Record of Rights.—The chief function of the Record of Rights is the compilation of villagewar registers showing particulars of all private-owned lands, whether they have been acquired by registered or unregistered documents, by succession, by oral agreement or otherwise, and also rights of owners, occupants, mortgages, tenancy or assignees of rents of revenue, public rights, easements and Government rights. It helps the ryot in the following ways:—

(1) It gives a correct and exhaustive information regarding his rights on land, rights and easement thereon.

(2) Under the Law of Record of Rights each holding is separately measured, mapped and assessed.

(3) It prevents litigation.

(4) The certified entries of the registers are presumed to be correct unless the contrary is proved.

(5) It is a source of detailed information for the use of public for great many transactions of land.

For administrative purposes, it is useful for (a) the entries of the register enable the Civil Courts to dispose

of the cases easily and promptly. No suit will be entertained without the production of Record of Rights;

(b) it facilitates the collection of Revenue;

(c) it will be of importance for the collection of necessary data for subsequent settlement operations;

(d) for executive measures concerning land, viz., acquisition for public purposes, distribution of "Takavi" and Co-operative Society Loans, the information afforded by Record of Rights is of great utility.

For the present Record of Rights has been introduced in Khalsa 'Illakas' only.

TOWN AND PROJECT SURVEYS.

Town Surveying is a new advancement in the State. It aims at correctly surveying the agricultural lands converted for non-agricultural use. Government is losing enormous revenue by not levying ground rent over such lands. With the sanction of rules Town Surveying will be expedited and correct maps for the suburbs of Hyderabad City and other important towns of the Dominions will be prepared so that Government will be able to collect rent that it is now losing on account of the said conversion.

Project Surveying entails the soil survey of the commanded area under irrigation projects. Before putting through a scheme of irrigation it is necessary to find out the suitability of the various soils under the command. This is useful both for the ryots and the Government, because lands unsuitable for irrigation are left out and Government can have a safe forecast of profits or otherwise on their capital expenditure. After the soil survey the commanded area is again surveyed, assessed and mapped out which is very useful for the purposes of the Revenue Administration.

5. *Achievements.*—The Rights of the cultivators are safeguarded and the Government dues are properly settled.

6. *Control.*—The department is under a Director assisted by 9 Land Record Assistants.

SECTION V.
Forests.

SECTION V.

Forests.

Forests cover 61 lakhs of acres or 15.29 per cent. of the total area of the Dominions, and are divided into 13 divisions for administrative purposes. Adilabad is the most densely wooded district, followed by Warangal and Mahbubnagar.

Reserved and Protected forests occupy 2.20 lakhs and 51 lakhs of acres respectively.

Revenue is derived from sale of timber, bamboo, bark, grass, leaves and other forest produces. In 1347 F., the income from all sources amounted to Rs. 16 lakhs, showing a rise of Rs. 2.3 lakhs on the previous year, of which 76.4 per cent. represented the sale proceeds of timber and other material. The value of grass sold alone was estimated at Rs. 3.8 lakhs.

The forests provide a large area of pasturage for cattle. A nominal fee per head of cattle is charged.

The number of animals grazed in the year was 1,264,014, nearly 2 lakhs less than in the previous year.

The cost of administration and other charges amounted to Rs. 9 lakhs or 56.2 per cent. of the revenue in 1347 Fasli.

12. Mr. Mirza Mohammed
Ali Beg, M.A., & DIPLOMA
in Forestry (Oxford) 21- 4-1347 (Continuing).

History.

In the early days of rural economy in these Dominions as elsewhere, when land was parcelled out for cultivation, vast tracts carrying valuable forest growth were either recklessly brought under the axe for cultivation or treated as village wastes for grazing purposes, fuel, etc. Remote forests sheltered dacoits and wild beasts and were preserved for game purposes. No systematic steps were taken to preserve the forest wealth with the result that in Karimnagar and Warangal Districts big sized teak and

other valuable timber trees were depleted by export outside the State. With the increased demand for timber and fuel for the people, desultory attempts were made to protect the more valuable timbers, which thus gave birth to the creation of Forest Department in 1867 A.D. (1277 F.). For about two decades the department simply maintained and protected valuable species of trees, designated as "Reserved" or "Irsali" under a set of elementary rules. The rest of the produce and administration remained in the hands of the District Revenue Officials.

During the same period large schemes for expansion of cultivation, embodying rules to repopulate deserted villages or to leave banjar lands, were brought into force and consequently lakhs of acres of forest area absorbed and passed into the hands of private individuals. Between 1297 F. and 1302 F. the department under European management, during the Premiership of Sir Asman Jah, made rapid strides and in 1298 F. (1881) the Department was transferred from the Home Secretariat to the Revenue Department. In 1299 F. (1890) the Government laid down a definite Forest Policy to preserve and improve the existing forest areas by strong measures. In 1303 F. (1894) the Government declared 3,390 sq. miles of area in Warangal, Karimnagar and Mahbubnagar Districts as protected forest and placed them under the sole charge of the department. This marked the commencement of a new era in the Forest Administration of the State. Definite rules were enacted for the Administration of these areas and rule was still extant. In 1309 F. (1900) a special Forest Act was enacted to effect legal control completely over forests. Up to the end of 1321 F. (1912) exploration and demarcation of forest areas were followed by strenuous efforts to introduce protection and regular management, working plans, demarcation, survey schemes, being main plans of work. The department was reorganised and in 1324-25 (1914-15) the post of Inspector-General of Forests being created with two Conservators under him, one for the Eastern Circle (Telangana) and the other for the Western Circle (Marathwara and Karnatak).

Another Act (Act No. 1 of 1326 F.) was enforced to meet the new requirements in 1326 F. (1917). A forest

school for training of Rangers was opened in 1325 (1916), at Nizamabad but was closed down after a year. The Forest School was reopened at Mahbubabad for training of Deputy Rangers, Foresters and Forest Guards.

The total forest area in 1347 F. was 9,676.28 sq. miles (Reserved 223,982 acres. Protected and opened 5,846,542 acres). The forest area forms about 15.29 per cent. of the total area of Hyderabad State and is not evenly distributed, the Marathwara districts starting from zero per cent. in Osmanabad to 5.25 per cent. in Nander District, although after proper calculation and collection of data, for an agricultural country a minimum of 15 and a maximum of 21 per cent. is laid down by agricultural and forestry experts of the world. In such forestless or sparsely forest-clad tracts, cow dung is used as firewood substitute which could have been used for manure, consequently the yield of agricultural crops is also affected and the soil value is also reduced. The Shikargah established in 1314 F. was transferred from the Sarf-i-Khas to the management of the Forest Department in 1331 F.

4. *Chief Functions.*—Forest being very valuable wealth of the country not only the supply of heat and energy necessary for the livelihood of human beings but also for the control of climate and rainfall of the country, the department supervises and organises the judicial and profitable use of this wealth.

5. *Achievements.*—The department besides meeting all the local demand for the fuel supply to an enormous extent of thousands of tons and of local agricultural and domestic requirements and the grazing and grass requirements of thousands of animals is acting as a good source of income to the State, fetching an average gross revenue of 13,64.356 lakhs of rupees, the expenditure being Rs. 8,87,207 lakhs, yielding a surplus Rs. 4,77,149 lakhs which works out to Rs. 1-1-1 per sq. mile or three pies per acre, spread over the whole worked and unworked areas.

6. *Control.*—The department is under an Inspector-General aided by two Conservators, 16 Assistant Conservators and a Forest Settlement Officer.

SECTION VI.

Customs

SECTION VI.

CUSTOMS.

Summary of Customs.—During the year the total declared value of goods carried by road and rail amounted to Rs. 29,62 lakhs (Rs. 31,87 lakhs in 1346 F.) a decrease of a little above Rs. 2 crores but both the export and import trade diminished.

Exports.—Exports falling in three groups, 'dutiable,' 'duty-free,' and 'exempted' were valued at Rs. 1,465 lakhs, a decrease of over Rs. 210 lakhs. The first two classes of goods accounted for the fall, while the third, 'duty-exempted' goods, showed a rise.

On an average, dutiable goods represent 87 per cent. of the total exports. To encourage local industry Government allows exports, free of duty, of cotton piece-goods, fish, hides and skins, tanned or dressed, including cuttings, leather manufacture, certain classes of building material, cows with calves and kids with goats. But as compared with 1346 F. the total value of cotton and other textile goods exported from Hyderabad fell by Rs. 2½ crores in value, of vegetable oils by Rs. 12 lakhs, of leather by Rs. 8½ lakhs, of building materials by Rs. 6 lakhs, and of animals by Rs. 5 lakhs. The drop in the aggregate value of numerous unclassified items was about Rs. 2½ crores. On the other side, goods which showed an increase were oilseeds, Rs. 63 lakhs, spices Rs. 12 lakhs, oil-cakes Rs. 11 lakhs, coal and coke Rs. 10½ lakhs, grains and pulses Rs. 2½ lakhs and wood and timber Rs. 1½ lakhs.

Imports.—The total value of imports fell by Rs. 8.3 lakhs.

The average value of dutiable merchandise during the past 8 years is 82.3 per cent. of the total. Duty-free merchandise during the same period averaged 9.6 per cent. of total imports. Goods imported for use in Government Departments of His Exalted Highness the Nizam, the

Railway, the Residency, the Garrison and the Singareni Colliery averaged 8.1 per cent. of total imports since 1340 F. In all the years except 1344 F., the average has been exceeded.

The increase in value of imports was mainly under sugar (Rs. 21 lakhs), oils (Rs. 15 lakhs), metals and ores (Rs. 12½ lakhs), cinema films (Rs. 5 lakhs), paper and goods for the Garrison (Rs. 4 lakhs each) and consignments for the Singareni Collieries (Rs. 3 lakhs).

These increases were more than offset by decreases under textile piece-goods by Rs. 17 lakhs, railway rolling stock and plant Rs. 11½, salt Rs. 10½ lakhs, grains and pulses Rs. 9 lakhs, precious metals Rs. 8 lakhs and animals and fruits and vegetables Rs. 3 lakhs each.

Balance of Trade.—Taking the figures as they stand for exports and imports, this year there was an adverse balance of Rs. 32 lakhs.

Inter-provincial Trade.—On the import side, however, goods noted against Bombay and Madras ports are considered to have come from countries overseas. Similarly, on the export side these ports indicate the direction of outflow of goods. Of the imports from foreign countries may be mentioned yarn, piece-goods, canned fruits, iron and steel sheets and girders, kerosene oil and sugar. Bombay is the chief port through which most of these consignments come. Among the Hyderabad agricultural produce and other raw materials which find overseas markets are bones, cement, coal, gram, grain, hides and skins, oil-cake, vegetable oils, castor, cotton seed, groundnut, linseed, rape, mustard, sesamum and raw wool. Much of the export overseas of some oilseeds passes through Madras. Almost all the consignments of bones, hides and skins, a tenth of the cement exports, a ninth of the coal exports, half of the castor and sesamum exports, one-fourth of the groundnut exports, and some of the raw wool exports passed through Madras, and the rest through Bombay.

3. *History.*—Prior to the year 1270 F. (1861) there was no collection of duties on merchandise with a specific plan or policy and there was no Customs Department in the State. The miscellaneous duties levied both by the Government and by Jagirdars had not conformed with any rules. Notwithstanding the absence of good roads and other facilities for trade each Jagir and even each Diwani taluq and village had its own arrangement for

collection of taxes, with its various intricate demands on trade in the shape of imports derived from Customs, transit and Excise duties and multiplied under various names, such as *rahdari*, *huqdari*, *sayer*, etc., in a most intricate manner, creating confusion, facilitating fraud and subjecting commerce to innumerable grievous exactions. Besides these, imports levied in the *mufassil*, all articles brought into the City of Hyderabad and the adjoining Cantonment area had to pay a separate local duty known as Chungi or Octroi. It was estimated that these imports, though trifling in themselves, cost the trader about 15 per cent. on the value of articles by the time they arrive at their destination. The method of collecting these miscellaneous taxes was also not calculated to encourage trade; they were farmed out to the highest bidders who, in their turn, exacted as much money as possible from traders by fair means or foul. It is no wonder, therefore, that this vexatious system of taxation, combined with the dire effects of war, pestilence and famine, which were constant visitors during those early days, almost destroyed all internal and external trade.

Although a Commercial Treaty was entered into with the East India Company in 1802 (1211 F.) in which there was a clause, which forbade the levying of "*Rahdari*" or transit duties collected by individual renters or Zamindars on goods passing to and from the territories of the contracting parties, that Treaty remained for many years a dead letter. Similarly no advantage appears to have been taken regarding "the free use of the seaport of Masulipatam, at which port, H.E.H. the Nizam was, according to the terms of the above treaty, at liberty to establish a commercial factory and to appoint agents, and that ships bearing H.E.H. the Nizam's flags were to be admitted into all ports belonging to the British Government in India upon the footing of the most favoured nations."

It was during the Ministry of Sir Salar Jung I., i.e., in 1264 F. (1855) that a supplementary treaty with the East India Company was made by which all impediments to trade were removed and only export and import duties, not exceeding 5 per cent. *ad valorem*, on goods passing the frontier, and the Octroi duty levied in the Octroi area were retained.

In 1271-72 F. (1862-63), a central Customs Office under the control of the Government was established. But till 1285 F. (1871) the Government Customs Department could not function to collect the duties which were left in the hands of Non-Government agencies and the system of farming out the right to collect duty for Government continued. In that year, Customs Nakas were established on the frontier and at important Military stations, and it was laid down that duties were to be collected only by Customs officials appointed for the purpose and according to a definite tariff fixed by Government. The Department took over the work of collection of duty through its own agency in 1285 F. when Mr. Darabji was Customs Commissioner.

4. *Chief Functions*.—(1) Collection of import and export duty on all dutiable articles not exceeding 5 per cent. *ad valorem*.

(2) (a) Collection of import duty on edible salt at the rate of Rs. 2 per palla, as per exception to article 4 of Dastur-ul-Amal Sayer, which was approved by the Government of India.

(b) Collection of transit duty on salt passing through the Dominions.

(3) Collection of Excise duty on matches.

5. *Achievements*:—(1) *Legislation*:—(a) In 1864, the Nizam's Minister drew up, in consultation with the Resident, rules to regulate the collection in Hyderabad territory of the Customs duties admissible under the Treaty of 1802. The schedules attached to the rules contained a list of articles which were to be taxed by weight at certain fixed rates representing approximately 5 per cent. *ad valorem*, and liable to increase or reduction from time to time. The rules were approved by the Government of India.

(b) The first Customs Tariff, fixed in 1274 F. (1865) on a basis of 5 per cent. *ad valorem* duty on imports and exports underwent a modification by an Act in 1322 F. (1913) which consolidated the dutiable and non-dutiable articles and a detailed schedule of import and export tariffs was prepared. Thus, the Dastur-ul-Amal Sayer which was enforced in 1274 F. (1865) was replaced by the Customs Act of 1322 F.

(c) The Hyderabad Residency Customs Rules came into force in 1932 A.D.

(d) As no rules were framed under the Customs Act, numerous circulars with regard to administrative matters have been issued.

(2) *Reorganisation of the Department*:—(i) A scheme for enhancing the pay of low-paid Customs officials was sanctioned in 1316 F.

(ii) Another scheme was introduced in 1324 F. by which there was a further improvement in the scale of salaries.

(iii) The Department was reorganised in 1338 F. and the progressive scale of pay, which was restricted to gazetted officers and the staff of the Customs Commissioner's office and jawans in 1330 F., was extended to all non-gazetted officials as were on consolidated pay.

(3) *Departmental Examination*:—(a) The Departmental Examination was prescribed for Executive officers in 1318 F.

(b) A similar examination was made compulsory for the whole of the ministerial ranks in 1338 F. except for clerks in the lowest grade (Rs. 20-30). In 1346 F., Departmental Examination has been prescribed for clerks in the lowest grade also.

(c) Examination is also prescribed for literate jawans considered fit for clerical posts.

(4) *Training School*:—A Training School for training raw candidates and officials of all classes has been established in 1346 F.

(5) *Appraising Branch*:—(a) In 1325 F. two Appraisers and in 1338 F. nine Appraisers were appointed at important railway centres where imports requiring technical examination are large.

(b) A Chief Appraiser was appointed in 1338 F. to inspect the work of Appraisers and to submit from time to time for circulation to all offices price-lists of articles of all descriptions.

(c) An Appraising Branch has been set up in 1345 F. under the supervision of the Chief Appraiser for training Naib Amins (Sub-Inspectors).

(6) *Anti-smuggling Measures*:—(a) Anti-smuggling measures have been adopted since 1317 F. for which Preventive Officers have been stationed at important centres.

(b) A Secret Service has been established in 1345 F.

(c) A sum of Rs. 7,000 annually has been sanctioned for maintaining the Secret Service, etc.

(7) *Tariff*:—(a) In 1345 F. the definition of the work 'value' was brought in conformity with that obtaining in British India, but for administrative reasons, Government have restricted the scope of their order to the inclusion of railway and motor freight in valuing commodities, and the inclusion of all incidental charges in valuing articles imported direct from Overseas.

(b) In 1310 F. *rasbandi* or a fixed scale of duty according to weight, as applying to a large number of miscellaneous articles, under old orders, was altered to an *ad valorem* duty at 5 per cent.

(c) All articles manufactured by machinery or otherwise in the State were brought on free list in 1340 F.

(d) The abolition of duty on raw materials imported for local industries was also ordered by Government with a view to developing local industries.

(8) *Abolition of Octroi*:—The most important change in the history of the Customs Department was the abolition of Octroi in 1340 F. on administrative and public grounds, as a result of which Hyderabad is, for its size, one of the most lightly taxed urban areas in India.

(9) *Suspension of Collection of Duty*:—In the Madhura District, the collection of duty at one Chowki and six Nakas, which formed a distant enclave in British India, called the Partial Circle, was, for administrative reasons, suspended until further orders, with effect from 1340 F.

(10) *Buildings*:—(a) The type design for Customs buildings was revised by the P.W.D. in 1341 F. and these designs appreciably reduced the cost of buildings.

(b) There was formerly paucity of Government buildings for Customs centres. The difficulty is being gradually overcome by the construction of temporary buildings.

(11) *Audit of Receipts*:—A scheme for the audit of receipts of the Department by a staff consisting of an Examiner, three Inspectors and 42 Auditors was introduced, as an experimental measure for three years, in 1340 F., with a view to ensuring increasing efficiency in the making of assessments and the accounting of receipts. The audit establishment was made permanent in 1346 Fasli.

(12) *Classification of Merchandise*:—The classification of merchandise was totally revised and amplified in 1340 F. with a view to make it more useful for purposes of industries and commerce.

(13) *Schedules*:—In 1343 F. two Schedules of imports and exports were substituted for the existing four schedules under the Customs Act of 1322 Fasli.

6. *Control*:—The Department consists of a central office with a Commissioner, assisted by three Deputy Commissioners, one Examiner of Customs Accounts, two Assistants, a Government Pleader, a Chief Appraiser and an Assistant Superintendent attached to the Training School.

The Dominion is divided into 11 Customs Districts (Mahsulkhanas) in charge of Superintendents. The six Frontier and the three Railway Districts are divided into 19 and 10 Pethas, respectively, each being placed in charge of an Amin. In the Frontier Districts, the Pethas are again subdivided into smaller circles called Halqas placed in charge of Naib Amins (Sub-Inspectors).

SECTION VII.

Excise.

SECTION VII.

EXCISE.

Government has for some years been pursuing a policy of minimum consumption and maximum revenue. This policy is further reinforced by a campaign in all parts of the Dominions by lectures and dramas, enlightening all classes of people about the economic and moral evils of the drink habit. Government in evidence of its intentions, has steadily decreased the number of liquor shops. From 6,090 country liquor shops in 1342 F., the number has dropped to 3,486 in 1347 F. or 42.7 per cent. The fall in the number of toddy and sendhi shops in the same period is more marked—from 17,374 in 1342 to 6,373 in 1347 F. or 63 per cent. Ganja, opium and other drug shops have remained unaffected.

Consumption of foreign liquor has diminished from 12,174 gallons in 1342 F. to 9,963 gallons in 1347 F. and that of country liquor from 4,97,000 gallons to 3,62,000 in the same period.

Opium sale has fallen in quantity by 18.5 per cent.

The revenue demand from all sources amounted to Rs. 221.2 lakhs, gross, of which Rs. 219.8 lakhs was realised in addition to Rs. 7 lakhs from previous outstandings. The incidence of taxation per head of population is Rs. 1-8-6 as compared with 1-6-5 in the previous year.

The administration of the Department cost Rs. 15.3 lakhs or 7 per cent. of income.

SECTION VII.

EXCISE.

No. 6—Brief History of the Excise (Abkari) Department.

1. Established in 1323 F. (1914 A.D.).
2. Heads of the Department and period of their tenure:—

- (1) Mr. Abdul Latif Khan 5-6-1323 to 29-3-1336 F.
(Nawab Latif Yar Khan Bahadur).
- (2) „ S. Mohammad Taqi 30-3-1336 to 30-1-1339 F.
- (3) „ S. M. Bharucha, 2. (. , 1-2-1339 to 30-1-1345 F.
- (4) „ Ghulam Mahmood Quereishi,
H.C.S., 1-2-1345 F. (continuing).

3. *History*:—The Excise Revenue like the Customs was in a chaotic state up to 1315 F. (1906 A.D.). The revenue were collected on the hereditary principle by the Jagirdars, Paigahs and Sarf-i-Khas. With the sanction of His late Highness the control of the Sarf-i-Khas Excise was transferred to the Government in 1315 Fasli and subsequently the other non-Government agencies had to fall in with the proposals of the Government to hand over their excise rights. Then the Government introduced several reforms, the Madras Contract Distillery System being the main. The maximum retail sale rate at which liquor be supplied to the public was also fixed and steam distilleries from where contractors could get liquor were opened in centres like Hyderabad City, Mahbubnagar and Parbhani.

1323 F. An Excise Commissioner and 12 Abkari Superintendents were appointed for distilleries at Narayanguda and in the districts. Districtwar contracts for retail sale of country liquor were given on the minimum guarantee system. *Rasbandi* liquor shops and *sendhi* shops outside the old 'chowkies' of Balda were auctioned individually.

1324 *F.* The duty on gulmohwa was transferred to liquor and was named '*Thalbharti*' duty. Contracts for collecting and bringing *gulmohwa* to distilleries were given for the first time.

1328 *F.* Abkari Department was put under the Commerce and Industries Secretariat. Five more Superintendents were appointed.

1329 *F.* Four offices of the Abkari Taluqdars were established for each of the four Revenue Subas.

1331 *F.* Abkari Department was transferred to Revenue Secretariat. A Deputy Commissioner was also appointed.

1338 *F.* District contract for sale of opium was given on commission basis with maximum retail sale price.

1340 *F.* Opium obtained from the Government of India Opium factory at Ghazipur and the system of giving contracts for the supply of opium was stopped. All the opium and ganja shops of the Dominions were auctioned on shopwar auction system for the first time. Liquor shops of Parbhani district also were auctioned individually. Pot-bhatties of Karimnagar were closed and liquor was ordered to be supplied from distillery. Offices of three Abkari Taluqdars were amalgamated in Excise Commissioner's office and these Taluqdars were put in charge of 3 divisions of Telingana, Marathwara and Karnatic. A Deputy Commissioner was placed in charge of supply branch which was newly created and a squad officer was appointed to prevent excise crime.

1341 *F.* Shopwar auction system was introduced in the districts of Medak, Atrai-i-Balda and in the Bhongir taluqa and parts of the Nizamabad district. All liquor shops of Karimnagar district were auctioned individually.

1342 *F.* The new system was extended to Mahbubnagar. Supply branch was abolished and the Deputy Commissioner was put in charge of Balda division. Small parties of flying squad were stationed in districts.

1343 *F.* The new system was extended to Karimnagar and Parbhani districts. A charas shop was auctioned for Balda.

1344 F. New system was extended to the districts of Osmanabad, Adilabad, Bir and Bidar.

Duty of B.G. Rs. 5 per proof gallon was levied on 20 per cent. or more spirit contained in medicinal and toilet preparations manufactured in India. New system was extended to the districts of Aurangabad, Nander, Nizamabad, Gulbarga, Raichur, Warangal and Nalgonda.

Jagir sendhi was taken in Government control under H.E.H.'s Firman.

4. *Chief functions*:—Control and regulation of the traffic in all sorts of intoxicants by arranging for the levy and collection of duties and license fees and by putting restrictions on their sale, possession, import, export and transport with a view to discourage their use.

5. *Achievements*:—(a) Legislative measures—Abkari Act No. 1 of 1316 F. amended by Act No. 4 of 1347 F. and Opium Act No. 5 of 1308 F. was cancelled and new Act No. 4 of 1333 F. passed and amended by Act No. 4 of 1337 F. (b) Regular reduction of consumption and regular increase of income as seen from the statement below:—

Years	Country liquor (in gallons)	Opium (in seers)	Ganja in (in seers)	Revenue (in O S Rupees)
1328 F.	1,091,340	25,880	10,522	1,18 27 450
1329 F.	1,134,116	16,111	11,447	1,39,54,087
1333 F.	998,765	17,867	8,196	1,66 77,044
1338 F.	910,427	14,554	9,710	1,81,47,972
1343 F.	477,084	8,068	8,768	1,85,41,096
1346 F.	425,198	6,844	9,022	1,84,91,424
1347 F.	361,960	6,969	9,762	2,03,02,298

6. *Control*:—The Department is under a Commissioner assisted by a Deputy, two Assistants, a Personal Assistant, three Divisional Officers (or Talukdars of Abkari) together with 22 Excise Superintendents and 16 Assistant Superintendents, a distillery officer, a Government Pleader, and three special Excise Officers.

SECTION VIII.
Registration & Stamps.

SECTION VIII.

REGISTRATION AND STAMPS.

For the registration of documents relating to sale, transfer, etc. of property, movable and immovable, wills and other deeds, there are 161 offices distributed over Government (118) and non-Government (43) areas in the Dominions.

The total number of documents dealt with in 1347 F. was 46,830 for an aggregate value of Rs. 3,73.3 lakhs of which Rs. 3,62.6 lakhs represented the value of immovable property, Rs. 8.7 lakhs that of movable property and Rs. 1.9 lakhs that of wills, etc.

The amount of income by way of registration fee realised was Rs. 4 lakhs as compared with Rs. 4.4 lakhs in 1346 F. Expenditure amounted to Rs. 2.5 lakhs or 62 per cent. of income.

The value of stamped papers, labels, etc., issued from the mint amounted to Rs. 38.5 lakhs.

By sale of stamps of all kinds and denominations and other charges, the Department realised Rs. 27.7 lakhs in 1347 F., as against Rs. 26.7 lakhs average for the preceding quinquennium.

SECTION VIII

REGISTRATION AND STAMPS

No. 6. *Register of Honorary Magistrates* (1888 F.)
Register of Revenue Officers (1888 F.)

1. Established in 1298 F. (1888 A.D.)
2. Heads of the Department and their
 tenure.

 1. Mr. Sa'idullah Mir Khan, 1299 F. to 1301 F.
 2. Nawab Inayat Nawaz
 Khan Bahadur, 1301 F. to 1303 F.
 3. Mr. Mohammad Khan, 1303 F. to 1304 F.
 4. Mr. Md. Yousuf Khan, 1304 F. to 1306 F.
 5. Mr. Md. Nizamuddin, 1306 F. to 1308 F.
 6. Nawab Sa'adatullah Khan Bahadur, 1308 F. to 1310 F.
 7. Mr. Badshah Roshanath
 Khan Bahadur, 1310 F. to 1312 F.
 8. Dr. George Nand, M.A., 1312 F. to 1318 F.
 9. Mr. Muhammad Rabbani, 1318 F. to 1320 F.
 10. Nawab Bashir Yar Khan Bahadur, 1320 F. to 1322 F.
 11. Mr. Md. Rahimuddin, M.A., 1322 F. to 1324 F.
 12. Mr. Md. Abdul Hamid
 Siddiqui, 1324 F. to 1326 F.

3. *History:* The verification of documents (at least) was in vogue in H.E.H. the Nizam's Domain for a very long time and was carried out by the Deputies of Darul Qaza and Ifta, and with recent years the legal work was being done by the Kachere Mamuldar Mohan. In 1872 A.D. (1282 F.) a code was framed according to which no document was to be considered valid in a Government Department without bearing the seal of Municipal. This order was effected for the City of Hyderabad and its suburbs.

The Department of Registration was created after the enforcement of the Act of Registration in 1888 A.D. (1298 F.) and was placed under the control of the High Court.

From -11-1888 A.D. (-2-1298 F.) the documents were verified in the City by the Registrar, Balda and by certain officers in the districts.

In 1896 A.D. (1306 F.) the work of registration was separated from judicial officers and placed under Dr. George Nandy—a wholetime officer—as Inspector-General of Registration. In 1898 A.D. (1308 F.) Sub-Registrars and Registrars were appointed for the Districts. The Salaries Commission had ruled that when in any taluk where the Munsif works as a Sub-Registrar and is paid out of the fees and the 3 years' average revenue amounts to Rs. 2,500, a separate Sub-Registrar should be appointed and paid by the Government. The existing number of the paid Sub-Registrars is 63.

In 1299 F. the Department of Registration was amalgamated with that of Stamp Department.

The Stamp Act was enforced throughout Dominions from 11-11-1872 A.D. (1-2-1283 F.).

The oldest stamp in the Album of the Department is of the year 1286 F. (1876 A.D.). According to the Government resolution the Department was placed under the charge of Nawab Imad Nawaz Jung Bahadur, Excise Commissioner.

In 1324 F. the judicial and the documentary stamps were separated and court fee stamps valuing from one anna to Rs. 9 were issued, also the receipt stamps were abolished and a combined stamp of revenue and postage was introduced. In 1325 F. the distinctive separate stamp paper for Sarf-i-Khas Mubarak was abolished and in its place the ordinary stamp was enforced.

In 1346 F. adhesive stamps of various prices and with new designs were introduced.

4. *Chief Functions*:—Registration and record of the registered deeds and to prevent fraud in the execution of deeds by the use of stamp papers, as the stamp papers when sold have the date of sale and the name of the purchaser noted on them. To inspect all offices where stamps are used and to detect flaws of procedure, to detect cases of omission and avoidance of payment of duty; to levy penalties and to ensure that the Stamp Regulations are being conformed with.

5. *Achievements*:—Besides achieving the above-ncted objects the Department has become a source of revenue to the Government. The Department has been self-supporting for the last fifty years. The revenue has increased from Rs. 9,28,351 in 1319 F. to Rs. 25,29,077 in 1347 F.

6. *Control*:—The Department is under an Inspector-General assisted by an assistant, two touring inspectors and a City Registrar.

SECTION IX.
Mines and Quarries.

The mineral wealth of Hyderabad has not been fully tapped. The materials obtained are coal, Shahabad stone, raw material for cement and marble. Four companies registered under the Mines Act of Hyderabad are at work.

During the year 1347 F., 1,211 thousand tons of coal, 5,468 square feet of Shahabad stone and 484 tons of marble were quarried, the quantity of cement manufactured being 138 thousand tons. Their respective value is Rs. 5.2 lakhs, Rs. 69 thousand, Rs. 8 thousand and Rs. 35 thousand.

The amount of royalty paid to Government by the companies in 1347 F. was Rs. 3.3 lakhs as compared with 2.9 lakhs in the previous year.

The cost of administration of Government Department for the supervision of the working of the Mines amounted to Rs. 38 thousand.

The number of persons employed by the Mines in 1347 F. was 11,281 as compared with 12,308 in the previous year.

Geological survey is also under the direction of the Director of Mines and the cost of that branch of work was Rs. 39 thousand.

A B The year 1347 I —Oct 1937 to Sept 1938

IX.—MINES AND QUARRIES.

No. 4.—*Brief History of the Mines and Geological Survey Department.*

1. Established in 1296 F. (1887).
2. Heads of the Department and the period of their tenure:—

(Director-General of Mines)—

1. MR. SYED ALI BILGRAMI, B.A., A.R.S.M.,
29 - 6-1296 to 1 - 5-1302 F.
2. MR. MIRZA MEHDI KHAN, A.R.S.M.,
1304 F.

(Mining Engineer)—

3. CAPTAIN LEONARD MUNN,
24 - 3-1318 to 1 - 2-1329 F.
4. MR. KHURSHID MIRZA, B.Sc., C.E., M.I.M.E.,
(as Mining Engineer) 1-2-1329 F. (as Director
of Mines and Geological Survey) 1330 F. (contin-
uing).

3. *History*.—The Department after its establishment in 1296 F. was first placed under the Home Secretariat but in Dai 1308 F. it was placed in charge of the Chief Engineer and Secretary to Government, P.W.D.

The progressive mineral development especially of the chief mineral, coal, and the modern methods of its working have opened an interesting chapter in the Mining History of Hyderabad. The future outlook holds out great possibilities for the industrial development of the State. The mining activities have not only brought increased revenue to the Government but have also been a potent factor in the employment of a large rural population at the different mines and quarries.

The Hyderabad Mines Act was passed in 1320 F. and the framing of the Rules under Article 19 thereunder, was an important step. An amendment to Articles 19 and 20 of the Mines Act was submitted to the Legislative Council and has obtained the assent of His Exalted Highness. Sanitary rules have been framed under these

Articles for the construction and maintenance of Water Works and other Sanitary provisions for the labour employed at the mines. Rules for the use of explosives and shot firing were also introduced for the safety of the workmen at the collieries.

Board of Control for Coal.—A Board of Control for coal was set up by Government in 1932 and it began to function from 1933. Its chief object is to regulate the output and prices of coal mined from different collieries in the State.

Mining Leases granted by the Government.—The Hyderabad Deccan Co. was formed in 1886 to exploit the mineral resources of the Dominions. They were eventually granted 14 leases for coal and other mineral which they transferred to the Singareni Collieries Co., Ltd. This Company subsequently surrendered 4 leases, two for coal and two for other minerals. One of the coal field, viz., Sasti & Paoni in Asifabad District has been sub-leased to Sir Manekji B. Dadabhoy and Sir Kasturchand Daga, in 1927 (1337 F.). Fazulbhoy Currimbhoy, was granted Mining leases of the Singareni Collieries Co., but later he transferred his rights to the Singareni Collieries Company, Limited.

The leases that are now standing in the name of the above Company are:—

- | | |
|---------------------------|------------------|
| Coal.—1. Chinnur | 2. Allapalli. |
| 3. Sivawaram & Madawaram. | |
| 4. Kothagudem. | 5. Sarangapalli. |
| 6. Wardha Valley. | 7. Poloncha. |
| 8. North Godaveri. | 9. Tandur. |

At present, four Collieries are being worked.

1. The Singareni Collieries.
2. The Kothagudem Collieries.
3. The Tandur Collieries.
4. The Sasti & Paoni Collieries.

The first three Collieries worked by the Singareni Colliery Co. are ranked as some of the best managed mines in India.

Good amenities are provided to the labourers whose numbers are constantly increasing. Female underground labour is being eliminated in keeping with the British Indian practice, and compensation for accidents is paid on the basis of the Government of India Workmen's Compensation Act of 1923 amended up to 1929.

The total output of coal for the year 1938 was tons 1,211,163 and the royalty paid on it amounted to Rs. 2,01,494.

Gold.—Prospecting for Gold was commenced in the Raichur District by the Hyderabad-Deccan Company in 1887. Several subsidiary companies were formed towards the end of the century and worked the Wandalli, Hutti and other areas for some years. Hutti Gold Mines were the last to be closed down in 1920 after having been worked very successfully for nearly 20 years.

The output of gold from this mine from 1903 to 1920 was 251,176 fine ounces and paid a royalty of Rs. 6,22,594.

Since the appreciation in the price of gold in recent years the Government thought it desirable to investigate all the prospective areas under the supervision of Messrs. John Taylor & Sons and have allotted £50,000 in the budget of 1347 F. for the purpose and have sanctioned a further grant of £50,000 for the development of the Oakley's Shaft. The work is now in progress.

Limestone.—Limestone of good quality fit to be utilised for roofing and flooring purposes is quarried at many places in Gulbarga district, large quantities are exported to places outside the Dominions. Similar stones are also quarried in areas surrounding Adilabad but are not exported for want of transport facilities.

The total output of limestone from all the quarries in the State during 1347 F. was 34,68,108 sq. ft. and the royalty realised on it was Rs. 6,670-4-4.

Marble.—Marble was discovered in certain parts of Warangal District. Two mining leases have so far been granted, but only one area is being systematically worked. The marble is of good quality and is obtainable in several pleasing colours. The quarries are being worked by modern machinery under Italian experts and the

maible slabs are exported to Bombay besides commanding local markets. Production was started in 1936 and in 1938 the output was 484 tons and the royalty payable was Rs. 968.

Cement.—Negotiations with Messrs. Tata Sons Ltd., for the manufacture of cement from limestone occurring in the State commenced in 1919 and all the prospecting work was carried out by the Mines Department under the direction of Mr. Khurshid Mirza, till 1922. The Shahabad Cement Co. started manufacture of cement in 1925 under the managing agency of Messrs. Tata Sons Ltd. and since then the output has been steadily increasing. The Shahabad Cement Co. has now been amalgamated with the Association Cement Coys., Ltd., and is represented on the Board by two official Directors of the Government.

In 1938, 111,606 tons of cement were manufactured.

Graphite.—Graphite occurs in the Paloncha Samastan, Warangal district, little work has been done on the deposits as it is situated amidst a highly malarial tract. Between 1344 and 1347 F., 110 tons of graphite was mined.

Garnets.—In Khammamet garnets were being worked up to 1929 but since then the work has been abandoned owing to poor market conditions.

From 1913 to 1929, 3,14,598 lbs. of garnet were extracted and the royalty realised amounted to Rs. 8,802.

Mica.—The Khammamet mica area also worked for some time and then stopped.

Geological Survey.—The Geological Survey of the Adilabad district was sanctioned by the Government in (1330 F.) 1921 and a Geological Survey Department was started in the same year under the supervision of the Director of Mines.

The Geological Survey of the talukas, Chinnur, Kinwat, Rajura, Asifabad, Latur and Yelgadap were completed during 1921-24. The Geological Survey of the Nizamabad district was undertaken in 1924, and by the close of 1925, parts of the south-eastern Artaf-i-Balda and the Nizamabad districts were surveyed while a portion of the Karimnagar district was surveyed in the following year.

In 1927 the Geological Survey Department was made over to Capt. L. Munn to help him in his operations as the Special Officer for Well Sinking in the famine affected districts of the Dominions. He made Lingsugur in the Raichur district his headquarters, and survey operations were carried out in that district. On the sad demise of Capt. L. Munn, the Geological Survey section was given back to Mr. Khurshid Mirza as the Director of Mines and Geological Survey Department, as before and the headquarters changed to Hyderabad.

Training of Candidates.—Since 1932 (1341 F.) ‘*Mulki*’ candidates are sent to the Dhanabad School of Mines every year for a four years’ diploma training in Mining and Geology. Under this scheme, a scholarship of B.G. Rs. 70 per mensem is granted to each qualified candidate besides B.G. 150 for books, etc., from the Industrial Trust Fund. They are required to work at the collieries for a preliminary period of three months to test their adaptability to such professions when they are finally selected after a regular examination. So far, three *Mulkies* who are Inter Science and Mathematics candidates are undergoing training.

4. CHIEF FUNCTIONS.

To encourage the prospecting for the tapping of the mineral wealth of the State and to safeguard the interest of the Government.

5. ACHIEVEMENTS.

Systematic Geological Survey of the whole State is started. Rules and regulations necessary for the mining and quarry work are made and Government sanction is obtained to enforce them.

6. CONTROL.

The Department is under a Director assisted by a Petrologist, two assistant geologists and two assistant superintendents for Geological Survey.

SECTION X.

Finance.

PUBLIC DEBT.

The amount of Public debt to be liquidated by the State in 1347 F. was Rs. 756.48 lakhs, of which Rs. 2.43 lakhs do not bear interest. The other amounts represent the loans bearing interest issued in 1329, 1331, 1341 and 1344 Fasli as well as old railway shares. The sinking fund for the redemption of rupee loans stood at Rs. 28.64 lakhs at the end of the year.

Government have advanced loans on interest to Jagirdars, to cultivators in the form of taccavis, to industrialists for equipment, to students for studies, to traders for expansion of business, to officers for the purchase of motor cars, and building of houses and to other for miscellaneous purposes. The total amount of such advances was Rs. 138.6 lakhs. Advances made by Government without charging interest amounted to Rs. 67.3 lakhs. They were for establishing boundary marks, for taccavi to agricultural department, for criminal settlement and for personal and other purposes. Thus a sum of Rs. 206 lakhs was realisable to the credit of Government.

At the end of the year cash balances held at Government Treasuries amounted to Rs. 208.4 lakhs as compared with Rs. 304 lakhs in 1346 Fasli.

*No. 6—Brief History of the Accountant-General's Office.**(Sadar Mahasibi)*

1. Established in 1263 F. (1855 A.D.)
2. Heads of the Department and period of their tenure:—

ACCOUNTANT-GENERALS.

1. Pandit Ram Rao .. 18-12-1262 to 18 - 1-1274
2. Pandit Balap Hanmanth Rao .. 19 - 1-1274 to 18 - 9-1282
3. Pandit Ram Kishen Rao.. 19 - 9-1282 to 1291
4. Pandit Pattabi Rao Rao . 1291 to 1292
5. Pandit Ram Kishen Rao . 1292 to 1293
6. Nawab Imad Nawaz Jung 3 - 5-1293 to 15 - 6-1296
7. Nawab Muqarab Jung Br. 15 - 6-1296 to 31 - 6-1299
8. Pandit Vishnu Pandit .. 31 - 6-1299 to 20 - 7-1299
9. Mr. Mohd. Munawar Khan 20 - 7-1299 to 30 - 4-1302
10. Raja Murli Manohar Asaf Nawaz Vant Br. .. 1 - 5-1302 to 15 - 1-1314
11. Mohd. Akbar Nazar Ali Hydari Esqr., (Rt. Hon'ble Nawab Sir Hyder Nawaz Jung Br.) .. 15 - 1-1314 to 20 - 6-1317
12. Babu Nand Lal Sil .. 28 - 6-1317 to 25 - 9-1320
13. Mr. Syed Ahmed .. 25 - 9-1320 to 13 - 4-1321
14. Babu Nand Lal Sil .. 13 - 4-1321 to 21-12-1321
15. Mr. Syed Ahmed .. 21-12-1321 to 30-12-1321
16. Mr. Shaik Habeebuddin.. 30-12-1321 to 16 - 7-1325
17. Mr. Fakhruddin Ahmed Khan, B.A., Nawab Fakher Yar Jung Bahadur .. 16 - 7-1325 to 10 - 7-1328
18. Mr. Syed Md. Hasan Bilgrami .. 10 - 7-1328 to 24 - 1-1335
19. Mr. Mirza Nusrullah Khan Bar.-at-Law .. 24 - 1-1335 to 20 - 7-1346
20. Mr. Rai Shanker Pershad Sahib, B.A. .. 27 - 7-1346 F. (Cont.)

3. *History*.—Prior to 1259 Fasli there was no organised system of Audit and Accounts. Nawab Sir Salar Jung soon after becoming Prime Minister created the posts of Accountant and Treasurer in 1263 F. The Accounts Office was then known as “Munshi Khana.” In 1274 F. the Treasury was separated and the officer in charge of Accounts office was styled as Accountant-General. The functions of audit were entrusted to a separate office known as “Daftar-i-Tanqi.” Later, in 1286 F. both these offices were amalgamated and the foundation of the present Accountant-General’s office was laid.

During these days the Accounts were written on loose pieces of paper, known as “Bandat” and “Afrad.” But in 1288 F. the old method was substituted by regular register of Audit and Accounts. The system of payment through “Ijazathnama” (Cheques) was introduced.

A system of maintaining records and the compilation of accounts was introduced in 1290 F. Further, Nawab Imad Jung Bahadur visited Bombay and Madras to see the office arrangements and on his return the accounts office was arranged in various sections of audit and accounts, thus setting up the foundation of the present day constitution. The “Budget” system with its full classification Heads and Sub-heads marked a new era in the fiscal history of Hyderabad.

With a view to further improve the audit system Mr. Crawley’s services were borrowed from British India, who was appointed in 1302 F. as Controller-General. He issued a volume of instructions regarding maintenance of accounts and account forms.

The Chief Improvements effected were:—

- (a) The introduction of the system of daily accounts for Tahsil Treasuries;
- (b) The compilation of general accounts from audited figures;
- (c) The compilation of Hidayat Hisabi and a manual for the working of the District Audit Branch.

So also the Deposit and Advances Branch which also deals with special audit, Loans and Resource, was materially reorganised and put in order.

In 1344 F. the services of a British Indian Accounts Officer of great talents, Mr. Mohd. Akbar Nazar Ali Hydari (now Rt. Hon'ble Nawab Sir Hyder Nawaz Jung Bahadur, President of the Executive Council) were obtained. He, as Accountant-General, organised the whole Department.

Sir A. Hydari also created in 1316 F. an outside audit branch, laying the foundation of the present day Touring Branch. The introduction of the family pension fund in 1316 F. was another feature of reform in his regime, which has now developed into the State Life Insurance Fund Office.

In 1321 F. a department for the audit of Revenue Receipt Accounts was created with Mr. Habeebuddin as its Auditor-General. This Office continued until Mr. Habeebuddin became the Accountant-General in Khurdad 1322 F. when this post was abolished and the establishment was partly transferred to Accounts, which formed the Touring Branch of the present day.

Mr. Fakhruddin Ahmed Khan (now Hon'ble Nawab Fakhr Yar Jung Bahadur, the Finance Member) succeeded Mr. Habeebuddin as the Accountant-General in Khurdad 1325 F. He effected an all round improvement in the system of audit. The Compilation of Hyderabad Civil Service Regulation in 1328, was a great achievement of his time.

In 1331 (1921 A.D.) the Financial Department revised the classification of the Budget heads of receipts and expenditure in such a way as to exhibit each class in its true perspective and earmarked the different funded investments under separate reserves according to the sources from or the objects for which they have been constituted.

In 1332 F. (1922 A.D.) another important measure of reform came into force by "Departmentalisation system" which is fixing the total grant of each Department for three years and give it a large measure of autonomy within that grant, subject to certain general rules and regulations.

The constitution of the Accounts and Audit Department continued without any material change until Dai 1346 F. when the present reorganisation was brought

about. The Office has now been split up into the following independent units:—

(1) The Central Office under the direct charge of the Accountant-General.

(2) The Office of the Examiner of Accounts, Civil and Military.

(3) The Office of the Examiner of Public Works and Commercial Departments.

(4) The Office of the Officer in charge, Cash Atiyat.

(5) The Office of the Officer in charge, Hyderabad State Life Insurance Fund.

The duties and functions of the Accountant-General have been made analogous to those of the Auditor-General, while the status of the two Examiners corresponds to that of the Provincial Accountant-General in British India. The Officers in charge of Cash Atiyat and Hyderabad State Life Insurance Fund, are made independent heads of Office, working under the general administrative supervision of the Accountant-General. The compilation, Budget and Resources Branches have formed a separate unit under the direct control of the Financial Secretariat.

4. *The Chief Functions.*—The Accountant-General is responsible for complete account of Income and Expenditure of the State as well as the regular audit of accounts of various Government Departments so that the Government amounts are properly received and spent.

5. *Achievements.*—The opening of currency chests in the District Treasuries in 1337 F. rendered easy the movement of cash balances between treasury and the chest and also from one place to another.

Separation of Accounts and Audit functions in the districts and the appointment in 1331 F. of Treasury Officers are noteworthy.

Codification.—The Hyderabad Civil Service Regulations, was compiled and the Hyderabad Financial and Account Code was published in 1344 F. The Hyderabad Account Code has been completed and is under print.

6. *Control.*—The Department is under an Accountant-General who is assisted by two Deputies and 14 Assistants. There is a Central Treasury at Hyderabad and 15 District Government Treasuries, all under Superintendents.

*No. 7.—Brief History of Government Central Treasury
(Khazana-i-Amira).*

1. Established in 1263 F. (1855 A.D.)
2. Heads of the Department and the period of their tenure:—

SUPERINTENDENTS.

- (1) Mr. Balap Hanmanth Rao .. 18-12-1263 to 18 - 1-1274 F.
- (2) Mr. Pattabi Rama Rao .. 19 - 1-1274 to 21 - 1-1293 F.
- (3) Mr. Rameshwar Rao .. 22 - 1-1293 to 30 - 1-1293 F.
- (4) Mr. Venkat Ram Rao .. 1 - 2-1293 to 7 - 5-1293 F.
- (5) Raja Srinivas Rao .. 8 - 5-1293 to 30 - 3-1294 F.
- (6) Mr. Munawar Khan
(in charge of work
as Asstt. Supdt.) .. 1 - 4-1294 to 31 - 8-1296 F.
- (7) Mr. Munawar Khan .. 1 - 9-1296 to 13 - 7-1299 F.
- (8) Mr. Marap Venket Rao .. 14 - 7-1299 to 8-12-1303 F.
- (9) Raja Srinivas Rao .. 9-12-1303 to 3 - 8-1310 F.
- (10) Mr. Inayath Ali .. 4 - 8-1310 to 11 - 2-1311 F.
- (11) Mr. Vithal Maruti .. 12 - 2-1311 to 11 - 5-1311 F.
- (12) Mr. Jahangirji
Sohrabji .. 12 - 5-1311 to 9 - 5-1317 F.
- (13) Mr. Mirza Nasrullah
Bar.-at-Law .. 10 - 5-1317 to 12 - 5-1327 F.
- (14) Mr. Fazli Kareem .. 13 - 5-1327 to 14 - 1-1331 F.
- (15) Mr. Hanmanth Rao .. 15 - 1-1331 to 30-12-1341 F.
- (16) Mr. Mohammed Ina-
yathur Rahman
Khan .. 1 - 1-1342 (Continuing).

3. *History*.—The Central Treasury and the Accountant-General's Office were both established as one office in the year 1263 F. (1855 A.D.) during the Ministry of late Salar Jung I.

In 1274 F. (1865 A.D.) the Central Treasury was separated from the Accountant-General's Office. During those days the accounts were written on loose pieces of papers known as 'Bandat' and 'Afrad' which were wrapped in the form of bundles and set aside after disposal. But in 1288 (1879 A.D.) the old method was stopped and regular Registers were introduced to maintain the accounts. The work of audit was transferred to the Accountant-General's Office in the same year and payment was ordered to be made on the authority of *Ijazathnamas* issued by the Accountant-General. The system of maintaining record was introduced soon after, in 1290 F. (1881 A.D.). The work of compilation of accounts was transferred to the Accountant-General's Office.

The work of payment of *Yumia* allowance was transferred to the Central Treasury in 1293 F. (1884 A.D.) and of Service Pension in 1299 F. (1889 A.D.) of *Mansab* in 1305 F. (1895 A.D.) and of interest on N.G.P. Notes in 1307 F. (1898 A.D.).

Order forms for pension payment were introduced in 1306 F. (1897 A.D.) for *Yumia* in 1308 F. (1899 A.D.) and for *Reyayathi* in 1309 F. (1900 A.D.) and for *Mansab* and *Imtyazies* in 1319 F. (1910 A.D.).

On account of inconvenience experienced in the annual life verification of lady pensioners and lady mansabdars, two lady commissioners were appointed in 1316 F. (1907 A.D.).

After the introduction of Money Order system in the Postal Department, the old system of "Zar Mubadala" current in the treasuries was abolished in 1321 F. (1912 A.D.).

In 1332 F. (1923 A.D.) Treasury Manual was issued. As Customs duty was imposed by the Government of India on Match Manufacturing Companies in August 1934 the Central Treasury was made chief godown for the distribution of Match Excise Banderols issued by the Government of India.

4. *Chief Functions.*—(1) To effect payment on account of Ijazathnamas, P.W.D. cheques, Deposit Account cheques, pensions, Mansabs and Interest on Railway Shares and N.G.P. Notes.

(2) To credit all the Government receipts.

(3) To stock and supply stamps, stamp papers and Match Excise Banderols.

(4) To keep in safe custody all the documents and other deposits received for the purpose.

(5) The Central Treasury is also the issue Branch of the Paper Currency Department.

5. *Achievements.*—Quick and systematic receipts and disbursements of the Government amounts, etc., are arranged.

6. *Control.*—The Department is under the direct charge of the Superintendent assisted by a Treasurer and an assistant.

SECTION XI.

Mint.

COINAGE AND PAPER CURRENCY.

In 1347 F. gold valued at Rs. 43,419 was imported for coinage and the mint turned out coins of $\frac{1}{4}$ and $\frac{1}{8}$ Ashrafi denominations valued at Rs. 32,302. No silver or copper currency coins were minted in the year. 52.7 lakhs of one anna nickel coins were minted valued at Rs. 3.3 lakhs.

The establishment charges of the Mint Department amounted to Rs. 1.2 lakhs as against Rs. 1.1 lakh in 1346 Fasli.

The value of currency notes of all denominations in circulation in the country on the last day of the year was Rs. 1,402.7 lakhs and that held in Government Treasuries and the Bank was Rs. 66 lakhs.

Against the currency notes in circulation Government have held sufficient reserve of silver.

The Paper Currency Department's income by way of interest on securities, etc., amounted to Rs. 22.4 lakhs and expenditure in the year was 84 thousand leaving a net profit to Government of Rs. 21.6 lakhs.

N.B.—The year 1347 F.—Oct. 1937 to Sept. 1938.

MINT.

No. 7.—Brief History of the Department of Mint and Stamps. (Daruz-zarab).

1. Established in 1265 Fasli. (1856 A.D.).
2. Heads of the Department and the period of their tenure.

Mint Masters.

1. Major Henry Roch 12 - 1-1287 to 1-11-1291 F.
2. Daulat Yar Jung Br. 2-11-1294 to 8-11-1305 F.
3. Mr. Jones .. 9-11-1305 to 30 - 4-1312 F.
4. T. M. English .. 30 - 4-1312 to 22 - 6-1317 F.
5. Major A. L. C. Mc.
Cormic, R. E. .. 22 - 6-1313 to 30 - 4-1318 F.
6. Mr. R. L. Gamlen,
O.B.E., M.I.E.E. .. 1 - 5-1318 to 12 - 7-1344 F.
7. Mr. P. B. Chenoy .. 12 - 7-1344 to 8-12-1346 F.
8. H. C. H. Armsteed,
M.I.E.E., A.M.I.C.E. 8-12-1346 F. (continuing).

3. *History*:—H.E.H. the Nizam's Mint Department was founded during the time of Nawab Sir Salar Jung I in the year 1265 Fasli. It was first established in Sultan Shahi and later moved to Darus-shafa with the Stamp Department; and finally the Mint and Stamp Departments were moved to their present site in Khairatabad in 1313 Fasli.

The old system of making coins by hand was continued until 1302 F. In 1303 F. a new machine-made coin called Charkhi was introduced. The weight of coin remained the same as that of the hand-made coin (172.5 grains) the size and shape of Charkhi was exactly like the present Osmania Sicca. The inscription on the obverse of this coin was "Nizam-ul-Mulk Asaf Jah Bahadur" together with the date of its mintage; and the reverse "Zarab Farkhunda Bunyad Hyderabad Juluse Maimanat Manuse" and a numerical figure above the word "Juluse" denoting the number of years of reign of the Ruler in whose reign the coin was minted.

In 1313 F. when the Mint was moved from Darus-shafa to its present site in Khairatabad, a new coin with the inscription of the historical building Charminar on its obverse side was introduced; the working remained the same as that on "Charkhi" but they were suitably arranged to produce the desired Oriental artistic effect. The first letter of the name of the then Ruler of the State (Meem) was inscribed in the centre of the main arch of the Charminar inscription on the coin. The coin was named "Hali Sicca" meaning the present day currency. The letter (Meem) was changed to (Aien) at the time of present Nizam's accession to the throne.

The paper currency was introduced by the Government in 1327 F. The Mint has nothing to do with the printing of notes, as these notes are printed in England, but the consignments of the notes are received by the Mint and kept in safe custody until demanded by the Central Treasury for issue.

The round one anna nickel coin was introduced in 1329 F. and this was changed to square one anna nickel coin in 1346 F. as some difficulty was experienced by the public in distinguishing the round one anna piece from the silver four anna piece, in darkness.

The Stamp-paper Office was established in 1271 F. and was placed under the Inspector-General of Registration and Stamps in 1306 F. The manufacture of stamps was carried in Darus-shafa Building now occupied by the Municipal Corporation under the management of a Government Office known as Superintendent of the Stamp Department.

In 1313 F. when the department was moved to its present site in Kairatabad, the Mint Master was also made the Superintendent of Stamps, thus in the interest of efficiency and economy the State's coinage and manufacture of stamps were brought under one Officer.

All the Judicial and Non-judicial Stamps of the Government, Paigahs, Jagirs and of Hyderabad Residency are printed in the Stamp Department. The Postal Stamps of the Government, Government Central Treasury Cheques, Excise passes and Forest Permits are also printed in it.

4. *Chief Functions*:—With the advancement and prosperity of the Dominions this Department meets the growing needs of the public in their transactions, by the provision of easy means of exchange.

5. *Achievements*:—The false coinage that was very common in olden days is totally stopped and the public has full faith on the money value of the coinage brought out by the Mint.

6. *Control*:—The Department is under the control of a Mint Master and Superintendent of Stamps who is assisted by a General Assistant, a Bullion Superintendent, an Engineer and Assistant Superintendent of Stamps.

SECTION XI.

MINT.

No. 8.—Brief History of the Currency Office (Exchange Branch).

1. Established in 1327 Fasli (1918 A.D.).
2. Heads of the Department and the period of tenure:—
 1. Mr. Fazli Karim .. -10-1327 to 14 - 1-1331 F.
 2. Mr. Hanumanth Rao ..15 - 1-1331 to 30-12-1341 F.
 3. Mr. Md. Inayathur Rahman Khan .. 1 - 1-1342 F. (continuing).

3. *History*:—Currency office was established in Shahrewar 1327 F. The duties of the Exchange Branch, currency department are discharged by the Superintendent, Central Treasury.

In the beginning currency notes of 10 rupee denomination and 100 rupee denomination were issued which soon were followed by one rupee and five rupee currency notes in 1329 F. (1920 A.D.). In 1335 F. (1926 A.D.) currency notes of 1,000 rupee denomination were also issued. As one rupee currency note was found to be unpopular, it was called back in 1338 F. (1929 A.D.).

At first paper currency was issued only to the extent of O.S. Rs. 2,00,000 but it was so popular with the public that in the course of two years currency notes of the value of O.S. Rs. 2,00,00,000 were set in circulation and these were followed by currency notes of O.S. Rs. 1,00,00,000 every year. Now paper currency of the total value of O.S. Rs. 14,02,79,437 is in circulation.

4. *Chief functions*:—This department carries out the exchange of currency note with the public. The disposal of torn, mutilated and mismatched currency notes as well as the cancellation of defective currency notes is also attended to in the Branch.

5. *Achievements*:—

6. *Control*.—The Treasury Officer is in charge of this Branch.

SECTION XII.

Post Offices.

SECTION XII.

POST OFFICE.

There were 919 Post Offices of all grades in the Dominions—62 more than the preceeding year, each serving 9089 miles of territory and 15,709 persons. For the convenience of the public the Postal Department has 1,618 letter boxes and employes 392 village postmen.

The Post Office issued in 1347 F., 308.9 lakhs of letters, post cards, newspapers, parcels and packets as compared with 216.5 lakhs in the preceding year and 581,432 money orders, the amount of such orders paid being 719,155 as against 548,672 in 1346 F.

The Postal Savings Banks have become increasingly popular. There were in 1347 F. 92,173 depositors with Rs. 119.8 lakhs to their credit at the end of the year, or Rs. 130 per depositor, the average amount withdrawn in the year by the depositors being Rs. 80.

The receipts of the Department by sale of stamps, money order commission and others amounted to Rs. 12.8 lakhs and expenditure to Rs. 1 lakhs.

*No. 7.—Brief History of the Postal Department
(Tappa).*

1. *Year Established*:—1278 Fasli, (1869 A.D.).
2. *Heads of the Department and the period of their tenure*:—

Postmaster-Generals.

	Periods.
(1) Nawab Shahsawar Jung Bahadur	1-11-1279 to 19- 8-1281 F.
(2) Mr. P. J. Charles,	20- 8-1281 to 31- 6-1285 F.
(3) Major H. Roake,	1- 7-1285 to 11- 1-1287 F.
(4) Mr. Syed Mohiuddin Alvi,	12- 1-1287 to 31-10-1291 F.
(5) Mr. Abdul Karim,	1-11-1291 to 8- 6-1306 F.
(6) Mr. C. Lauder,	9- 6-1306 to 17-11-1312 F.
(7) Mr. Md. Siddiq,	18-11-1312 to 9- 3-1316 F.
(8) Mr. Knox Homan,	10- 3-1316 to 19- 9-1328 F.
(9) Mr. Rustomjee Chenoy, (Offtd.)	19- 9-1328 F. 27- 6-1329 F.
(10) Khan Bahadur Mir Mazharuddin,	28- 6-1329 to 27- 6-1331 F.
(11) Mr. Rustomjee Chenoy, (Offtd.)	28- 6-1331 F. 16- 8-1331 F.
(12) Nawab Sardar Nawaz Jung Bahadur	17- 8-1331 to 15- 1-1338 F.
(13) Mr. Rustomjee Chenoy,	16- 4-1338 to 8- 9-1340 F.
(14) Mr. Mohamad Ahmed,	9- 9-1340 F.

(continuing).

3. *History*:—In olden days there were no State Post Offices and means of communication were lacking. The public had to send their letters either through merchants and travellers or if they could find any opportunity, along with Government mails. Government Service mails were carried by 'Sawars' or orderlies appointed for the purpose or by 'Bhiagars' travelling village by village. Generally no postage was charged for this purpose.

For the first time, arrangements for transporting Government Service mails were made by the then Prime Minister Mir Alam Bahadur, in the reign of the Late H. H. Nawab Sikandar Jah Bahadur. It was only this Postal Service, which besides functioning within the Dominions, also maintained connections with important cities outside the State like Calcutta, Madras, Bombay, etc. This organisation was maintained through 'Contract System' and was limited to ordinary letters only.

In the reign of the Late H.H. Nawab Afzal-ud-Dowla Bahadur, the great Sir Salar Jung I, did away with the above, 'Contract System' and the conveyance of mails was entrusted to an old contractor under Government supervision.

In the reign of the Late H. H. Nawab Mir Mahboob-Ali Khan Bahadur, Nawab Sir Salar Jung I appointed on 18th August 1869 A. D., Nawab Shahsawar Jung Bahadur as Postmaster-General, who introduced some elementary and ordinary systems. Postage stamps on private letters were also introduced.

In 1882, the State entered into a Postal agreement with British India, whereby the principal of exchange of postal articles was accepted.

Since the creation of the Department, it had been undergoing continuous development in different branches of its working and after the introduction of many systems it improved and progressed in quantity and quality of its work. At the present time it covers practically all the functions usually performed by Postal Departments in other countries. The following systems were introduced in the Postal Department of the State in the years noted along with them. Insurance system in 1907, money order system in 1910, value payable system in 1914, savings bank system in 1923.

4. *Chief Functions*:—The activities of the Department are, however, confined within the State, the British Indian Post Office deals with all the Postal Department duties outside the State. The following figures of 1347 Fasli will give some idea of the functions and the scope of activities of the Postal Department:—

No. of Registered Articles distributed	1,066,224
No. of Non-Registered	35,076,082
No. of Non-Bearing	1,371,303
No. of Money Orders paid	719,052
Amount of Money Orders	Rs. 1,01,71,099
No. of Savings Bank Accounts	92,173
Amount deposited in Savings Bank Accounts	Rs. 1,19,81,910
No. of Post Offices	919
No. of Letter Boxes	1,618
Income	Rs. 11,29,238
Expenditure	Rs. 9,39,617
Profit	Rs. 1,89,591

5. *Achievements*:—Although the rates of postage and other taxes of the State Postal Department are comparatively lower than those of the Imperial Postal Department, it is gratifying to note that its income far exceeds its expenditure annually. *Owing to the absence of a uniform system of exchange of Money Orders between the Imperial and State Post Offices much inconvenience was felt by the public. The Department has introduced in 1347 Fasli, a system for the exchange of Money Orders between the State and the Imperial Post Office, Hyderabad, through the State General Post Office, Hyderabad; which is appreciated by the inhabitants of H.E.H. the Nizam's Dominions as well as in British India.*

Within 14 years of the introduction of Savings Bank System, it had made quite a good progress as may be gauged by the fact that the number of Savings Bank accounts and the amount deposited at the end of 1346 F., stand at 84,238 and Rs. 1,12,38,491, respectively.

6. *Control*.—The Department is under the Postmaster-General assisted by a Deputy, an Assistant, Chief Postmaster.

SECTION XIII.

Military

The Regular Forces consisted of 159 commissioned officers, 225 sub-commissioned officers and 951 N. C. O.'s and 5,799 soldiers, besides an establishment of 7,240 men and 1,685 menials. The army had in the year 2,077 horses, 217 mules and 87 carts.

The Irregular Forces consisted of 199 commissioned officers, 501 sub-commissioned officers, 557 N. C. O.'s and 8,460 men besides the Powder Factory establishment of 65. The army owns 1,241 horses.

The total cost of the Military Department amounted to Rs. 80.9 lakhs as compared with Rs. 78.4 lakhs in 1346 F.

No.3.—Brief History of H.E.H. the Nizam's Regular Forces. (Continued).

1. Established in 1858 A.D.
2. Heads of the Department and the period of their tenure:—

COMMANDERS-IN-CHIEF.

1. Major Rock.
2. Colonel Neville
3. Sir Asanul Mulk, C.I.E., 1894 to 1930.
4. Nawab Osman Yar-ad Dowla, 1931 to November 1933.
5. His Highness General Walashan Asaf Jah Bdr. Prince of Berar, from 11th July 1934.
6. Major-General Nawab Kaur Yar Jung Sirdar Bahadur, O.B.E., A.D.C., Commander, 1933.

3. *History*:—During the reign of Nawab Mir Nizam Ali Khan, Asaf Jah II, a treaty was made whereby in return for certain benefits, the East India Company agreed to maintain a force at Hyderabad for the support of the Ruler.

The Nizam also promised to provide additional troops to help the Company. From these troops which were officered and equipped by the Company, originated the famous Hyderabad Contingent.

The Hyderabad Contingent, though paid for by the State, could not however, claim to be State Regular Troops. Their Officers were English and they marched and fought under the orders of the East India Company.

It was not until 1858 that the State Regular Forces came into being.

During the Great Indian Mutiny, the Hyderabad Contingent and the Subsidiary Force were moved northwards and to replace them, the Prime Minister of the State, Sir Salar Jung, formed certain Irregulars into a small standing Regular Army. From this army springs the Hyderabad Regular Forces of to-day.

4. *Chief Functions*—The main role of Hyderabad Regular Forces is the maintenance of internal security, suppression of communal troubles, safeguarding of railways, bridges and banks and guard duties at palaces.

5. *Achievements*.—In 1885, the famous Panjdeh incident occurred. The Russians were pursuing a policy of expansion in Central Asia, and Afghanistan was on the verge of being overrun. There was an imminence of war with Russia. Most of the Indian Regular Armies were concentrated on the North-west Frontier. His Highness Nawab Mir Mahboob Ali Khan, Asaf Jah VI offered the whole resources of his State to Her Majesty Queen Victoria and on behalf of the Queen, the Viceroy accepted certain troops of the Hyderabad Regular Forces for Imperial Service in emergency. These troops were called Imperial Service Troops, and the 2 cavalry regiments originally accepted by Her Majesty are still called the Hyderabad Imperial Service Lancers.

During the Great War, a composite regiment from these 2 cavalry regiments served in Egypt and Palestine and the officers and men contributed their share towards the defeat of the enemy. At the conclusion of the War, His Imperial Majesty, the King Emperor was gracious enough to convey his congratulations and to acknowledge personally to H.E.H. the Nizam on the valuable services of the Hyderabad Troops.

Since the War, the Regular Forces have undergone much reorganization. Many reforms and improvements have been made in the army. Old "Silladari system" has ceased. The army has been reorganized and larger part of it has been permanently embodied under the Indian States Forces Scheme and armed and equipped on a scale

approaching that of the Indian Army. Pay and allowances for officers and men have been substantially increased. Several units live now in up-to-date and sanitary barracks and it is hoped that the time is not far distant when the whole army will be properly housed. The Auxiliary services, Medical, Veterinary and Transport have been reorganized. Procurements have been sanctioned in a majority of units. A Cantonment administration has been formed to carry out better administration of military areas. H.L.H.'s Regular Forces have now reached a standard of efficiency in training.

6. *Control*.—His Exalted Highness the Nizam's elder son, His Highness General Walashan Prince of Berar is the Commander-in-Chief of the Army with Major-General Nawab Kader Yar Jung, Sardar Bahadur, O.B.I., Hony. V.D.C., as the Commander. There are 2 principal Staff Officers such as the Chief of the Staff and Adjutant and Quartermaster General under whom are subordinate Staff Officers.

Under Army Headquarters, there are two Brigades, Cavalry and Infantry each commanded by a Colonel. They are responsible for the training and general administration of the Units. All mounted units are grouped under Cavalry and the dismounted units under Infantry Brigade.

Entry into the Regular Forces is by examination for Cadetship. Successful Cadets are Commissioned as 2nd Lieutenants. Officers throughout their services are promoted to the next higher rank up to Major on the basis of professional examination prescribed from time to time. Promotion from Major to Lieut.-Colonel in command of a unit and all senior Staff appointments is made by selection and not by seniority alone.

Officers of the Regular Forces are retired on pension on completion of 30 years' service or attainment of 55 years of age, whichever is earlier. The New Terms of Service which were sanctioned by Government and brought into force from 20th October 1938 have as their main object the reduction of the length of service of all ranks in order to ensure that no one is retained in the army who has reached the limit of the physical efficiency required of soldiers on service.

N B—The year 1347 F=Oct 1937 to Sept 1938

No. 14.—*Brief History of the Judicial Dept. (Adalath).*

1. *Year established.*—No definite date is traceable of the establishment of the Judicial administration. The High Court was established in 1282 F. (1872 A.D.)

2. Heads of the Department and the period of their tenure:—

Chief Justices.

1. Mr. Haji Mohd. Fazlullah, ..	1274 to 1276 F.
2. Mr. Ahmed Ali Khan ..	1276 to 1284 F.
3. Mr. Mohd. Karimuddin ..	1284 to 1285 F.
4. Nawab Kasim Yar Jung ..	1279 to 1281 F.
5. Mr. Haji Mohd. Sayeed Khan	
6. Mr. Haji Fida Husain Khan..	1281 to 1292 F.
7. Mr. Haji Hafiz Abdul Karim Khan	1292 to 1294 F.
8. Nawab Fateh Nawaz Jung ..	1294 to 1299 F.
9. Nawab Imad Jung ..	1299 to 1302 F.
10. Mr. Mir Afzal Hussain Khan .	1302 to 1304 F.
11. Mr. Khuda Baksh Khan ..	1304 to 1307 F.
12. Mr. Afzal Husain ..	1307 to 1316 F.
13. Nawab Surbuland Jung ..	1317 to 1322 F.
14. Nawab Hakim-ud-Dowla ..	1322 to 1325 F.
15. Mr. Mohiuddin Khan ..	1325 to 1325 F.
16. Nawab Sir Nizamat Jung Bahadur	1325 to 1327 F.
17. Mr. Ghulam Jabbar (Nawab Jabbar Yar Jung Bahadur)	1327 to 1327 F.
18. Nawab Mirza Yar Jung Bahadur	1327 to 1346 F.
19. Nawab Jivan Yar Jung Bahadur	1346 (contg.).

3. *History*.—In early days, the Civil and Criminal cases of the City of Hyderabad were decided by an officer, called 'Subah Sahib' (an executive revenue officer), and by 'Kotwal Balda' respectively, whereas in districts the judicial work was entrusted to 'Subedars' and to other subordinates 'Amaldars' (Collectors of Revenue).

In 1822 a separate City Civil Court 'Diwani Buzurg' (Chief Civil Court) was established. In 1247 F. (1838) a City Court called 'Foujdari Buzurg' (Chief Criminal Court) was opened. In 1858 a new court called 'Adalat Shahi' was established which exercised unlimited jurisdiction, except passing capital punishment of death sentences and imprisonment for life. There was a Civil Court for Arabs called 'Majlis Arab' and the 'Majlis Sahwan' was meant for the big bankers and their jurisdiction was limited to the cases arising in the City.

In 1275 F. (1866) the whole Dominions was divided into districts in some of which regular city courts were established. In Aurangabad, for the first time about fifty years ago, a Nazim District Judge was appointed in place of 'Subedar' to do judicial work. In 1279 F. (1870) jurisdiction to decided civil cases was taken away from all revenue officers except the Tahsildars who retained civil powers, as there were no civil courts in talukas. Talukdar (Revenue District Officer) worked as district magistrate also and in some cases the Police Patel disposed of some magisterial work.

On 3-7-1330 F. (8-5-1921) the Judicial and Executive functions were separated and every taluka and every district was given a whole-time Munsiff and a whole-time District Magistrate respectively, a division consisting of several districts a Sessions Judge. In this way the Revenue Officers were relieved of the work of judicial nature. After eight years of its introduction, a Commission was appointed to go through this question, which fully supported and the system proved a boon to the ryots.

City Courts.—The Darul Kaza Court administers pure Mohammedan law in cases of marriage, divorce, inheritance, gifts, wakf, etc., and the City Civil Courts were separated from City Criminal Courts.

A separate Small Cause Court was established in 1342 Fasli and under the 1922 Small Cause Court Act, many of the Civil Judges were invested with individual powers. In September 1933 (1342 F.) powers of the City Judge were raised upto Rs. 2,000 and gradually their number was increased by two more Judges. In the districts, Civil Judges are invested with Small Cause Court powers wherever necessary. The Jury System was introduced in 1342 F.

Jury:—The Jury System was introduced in 1342 F.

4. *Chief Functions*:—To administer justice and maintain law and order.

5. *Achievements*:—Separation of the judicial powers from the executive officers.

6. *Control*:—The Department is under a Chief Justice assisted by 8 Puisne Judges, one Inspecting Officer, one Mufti, one Registrar and his Assistant, 7 Government Pleaders, two Judges for the City Small Cause Court, 4 Judges for the City Civil, 4 Judges for the City Magistrate's Court one Nazim for Kazi's Court;—one Special Magistrate's post was abolished in 1348 F. for the district;—4 Divisional Judges, 3 Additional Divisional Judges, 16 Civil Judges for the districts including Atraf-i-Balda District, Sarf-i-Khas Mubarak, 9 Additional District Judges. 94 Taluka Munsiffs and 12 Probationer Munsiffs. In Sarf-i-Khas areas 3 Divisional Officers and 18 Tahsildars were invested with Judicial Powers. The number of Honorary Judges and Magistrates was 12.

No. 17.—*Brief History of the Department of Legislature*
(*Wazi Kawaneen.*)

1. Established in 1303 Fasli (1894 A.D.)

2. Heads of the Department and the period of their tenure:—

Secretary and Legal Adviser.

- (1) Mr. Hurmusji Nausher-
wanji .. 16 - 4-1303 to 19-12-1306 F.
- (2) N a w a b I m a d Jung
Bahadur .. 20-12-1306 to 28-11-1313 F.
- (3) Nawab Sir Buland Jung
Bahadur .. 29-12-1313 to 19 - 6-1316 F.
- (4) Mr. Mohammad Aziz
Mirza .. 20 - 6-1316 to 4 - 3-1319 F.
- (5) Raja Bahadur G. Krish-
namachari .. 5 - 3-1319 to 28 - 6-1333 F.
- (6) Rai Baijnath Sahib.. 29 - 6-1333 to 28 - 1-1338 F.
- (7) Nawab Hashim Yar
Jung Bahadur .. 29 - 4-1338 to 30-12-1346 F.
- (8) Nawab Askar Yar Jung
Bahadur .. 1 - 1-1347 F. (contg.).

3. *History.*—At first the Legislative Council Office was a branch of the Home Secretariat. It was only after the post of Legal Adviser and Secretary, Legislative Council, had been combined in one person in the year 1319 F., that the Legislative Secretariat was made an independent department and provided with a separate building. Though the Legislative Council was constituted in 1303 F., and its constitution underwent some changes subsequently, it had not a hall of its own to meet in until after the accession of His Exalted Highness to the throne in the Year 1912. At that time it had, besides the President and the Vice-President, 11 officials including 3 ex-officio members and 8 non-official elected members. When opening the Legislative Council Hall, His Exalted Highness on a representation made on behalf

of the Legislative Council, was gracious enough to sanction by his Firman dated 2nd Safar 1330 H. (23rd January 1912) as a temporary measure, an increase of 3 members in the strength of non-official members, making it 11 by allowing representation to Local Boards and the Hyderabad Municipality. But as this system did not work satisfactorily it was given up. Later, by a Special Firman, a member to represent Sarf-i-Khas was added to the Legislative Council. Lastly, in the year 1338 F. (1928), His Exalted Highness issued a Firman dated 14th Jamadi 1347 H. (29th October 1928 A.D.) directing the Sadr-e-Azam to collect all necessary material on which a liberal scheme for 'enlargement of the Legislative Council and the expansion of its usefulness as an integral part of the Government machinery' could be based. Since then all the necessary material has been collected and a scheme is now under the consideration of Government.

4. *Chief Functions.*—To give legal advice to the Government.

Ever since its constitution the Legislative Council has been passing various Acts necessary for the good administration of the State and these are detailed in the several Annual Reports that have been prepared by this department and incorporated in the General Administration Reports of the State.

In 1323 F. (1914 A.D.) the Judicial Committee Act was passed constituting a Judicial Committee of which the Legal Adviser is a permanent member. The function of this Committee, as already stated, is to hear appeals from the decisions of the High Court. Consequently, the office of the Judicial Committee, which previously was also a branch of the Home Secretariat, was amalgamated with the Legislative Department.

5. *Achievements.*—In the year 1342 F. (1933 A.D.) two members of the Judicial Committee were appointed to clear the arrears of work which have now been considerably reduced.

6. *Control.*—A Secretary who is also the Legal Adviser controls the work of the department assisted by two under-secretaries an assistant secretary and a registrar.

SECTION XV.

Police

For the prevention and detection of crimes against persons and State, Government has an efficient Police Service in the city and districts. The force consists of 2,144 officers and 14,634 men, the sanctioned strength being 2,150 officers and 14,689 men.

The force is equipped with 13,117 rifles, 2,822 smooth-bores and 57 revolvers. In order to further improve the efficiency, integrity and discipline of the rank and file during the year as many as 10 officers and 217 men were dismissed and 348 officers and 3,596 men were punished departmentally and one officer and 11 men were dealt with judicially. 48 men deserted the force and 1,000 officers and men received rewards for good service.

Of the officers 92.5 per cent. and of the men 43 per cent. are literate.

The Police recorded 36,010 cases of cognizable crimes—11,000 more than in 1346 F. of which 31,873 cases as compared with 23,256 in 1346 F., were found to be true. Conviction was secured in 80 per cent. of true cases. The above cases concerned 37,501 persons of whom 84 per cent. were convicted.

The number of cases of non-cognizable crimes was 4,740, of which 12.5 per cent. ended in conviction. Of the total number (2,997) of persons concerned in the above cases 83 per cent. were convicted.

The value of property involved in theft cases (6,056) was Rs. 7.4 lakhs of which 45 per cent. was recovered.

The cost of Police administration was Rs. 38 lakhs in 1347 F., as compared with Rs. 37.4 lakhs in 1346 Fasli.

No. 9.—Brief History of the Department of the Director-General of Police and Jails (Kotwal Aala).

1. Established in 1293 Fasli (1884 A.D.)
2. Heads of the Department and the period of their tenure:—

Inspector-Generals.

- (1) Lt.-Col. E. S. Ludlow,
C.S.I. . . . 27-10-1293 to 20 - 4-1305 F.
- (2) Mr. Hugh Gough . . . 21 - 4-1305 to 26 - 1-1306 F.

Director-Generals.

- (3) Mr. A. C. Hankin, C.S.I.,
C.I.E. . . . 27 - 1-1306 to 27 - 1-1329 F.
- (4) Mr. W. A. Gayer . . . 28 - 1-1329 to 28 - 1-1330 F.
- (5) Nawab Mohammad
Nawaz Jung Bdr. . . . 29 - 1-1330 to 27 - 1-1336 F.
- (6) Sir F. C. Crawford,
C.I.E., O.B.E., I.P. . . . 28 - 1-1336 to 5 - 5-1336 F.
- (7) Mr. J. E. Armstrong . . . - 4-1336 to - 8-1344 F.
- (8) Mr. S. T. Hollins,
C.I.E., I.P. . . . 28 - 9-1344 F. (contg.)

3. *History.*—Col. Ludlow was the first Inspector-General of Police and Mr. Hugh Gough succeeded him. Mr. A. C. Hankin became Director-General on 27-1-1306 Fasli and held the appointment for a period of 23 years. During his tenure of office innumerable improvements were effected, including the provision of Police Buildings, uniform, the creation of a Detective Force, a Gang and Finger Print Bureau and the organisation of the Mounted Police. The Sikh Force was also reorganised and the Thugi and Dacoity Department was amalgamated in the District Police and subsequently became the Criminal Investigation Department.

Effective arrangements were made to check the movement of Criminal Tribes, and crime was considerably reduced in consequence.

The Vicar-ul-Umra Paigah was amalgamated in the Diwani and other exempted Jagirs were also brought under Diwani as far as heinous crimes were concerned.

The Police Training School and Orderly Boys' School were established and training in these institutes was imparted on the lines of Training Schools in British India.

Mr. Hankin also did much to better the prospects of all ranks.

Mr. Armstrong's tenure of office saw further improvements. The salaries of Gazetted Officers were revised and every effort was made to stamp out corruption in the Force.

Mr. Hollins took over charge as Director-General of Police about the end of 1344 Fasli. He devoted much attention to the provision of barracks and married-quarters for all ranks. Methods of work were reorganised, unnecessary writing work was abolished and Police officers were thus enabled to pay more attention to real Police work. The prosecution of cases received more attention and a separate cadre of prosecuting officers is being built up.

The most important reform introduced during 1347 Fasli, was the restoration of the authority of First Taluqdars in matters relating to Law and Order and they were restored to their proper places in the Criminal Administration of their districts under the orders of Government. Since the restoration of the First Taluqdars to their proper places in the Criminal Administration of their districts, there has been a general improvement in the work of the Police.

Refresher Courses have been introduced in all districts and men up to 20 years' service are required to undergo one month's training in the District Police Reserve during the year.

A new Police Training School and new Boys' School are being constructed adjoining the Central Police Lines at Amberpett and will be completed shortly.

The Khurshid Jahi Paigah Police was brought under the control of the Director-General during 1347 Fasli under the gracious Firman of His Exalted Highness.

The present strength of the force is 14,154 officers and men, and the sanctioned budget allotment of the department is Rs. 53,24,530.

4. *Chief Functions*.—Maintenance of peace and order, safeguarding public life and property and prevention of crime.

5. *Achievements*.—The prosperity of the country, the safety of public life and property in spite of the freedom of keeping arms and ammunitions is all due to the efficiency of Police in these Dominions.

6. *Control*.—The department is under a Director-General assisted by three Deputies, two Assistants, two C.I.D. Superintendents, 16 District Superintendents, a Criminal Settlement Officer and a Principal for the Police Training School.

3. *History*.—Before the regime of the late Nawab Sir Salar Jung, Mukhtar-ul-Mulk Bahadur, there was no regular Police force.

Arrangements for the different parts of the country were in the hands of the Revenue Officials. In 1862 (1272 F.) the first Zilabandi arrangement was enforced. A regular Police force was enlisted and placed under the Revenue Officials. The result did not, however, prove satisfactory. On the 1st November 1860 (1270 F.) the Department of Sadrul Moham, Police, was created and Nawab Shamshir Jung Bahadur was appointed to the post with full powers.

On the 11th August 1884 (1293 F.) Nawab Fakhr-ul-Mulk Bahadur was appointed as Moinul Moham, Police Department, and subsequently on the 6th May 1885 (1294 F.) Nawab Shahab Jung Iftikhar-ul-Mulk Bahadur succeeded to the post. Nawab Shahab Jung Iftikhar-ul-Mulk Bahadur retired on the 20th September 1913 (1322 F.) after 40 years service and the Police Department was placed in charge of Nawab Fakhr-ul-Mulk Bahadur, Moinul Moham, Judicial Department. Thereafter the Sadrul Mohams of Revenue held the portfolio of the Police Department. They were Sir Richard Trench and Sir Theodore Tasker (Continuing).

The Police Department was attached to the Office of the Secretary to Government, Judicial Department, when Mr. Amin-ud-Din Khan was holding that post. When Maharaja Narinder Pershad Bahadur, Peshkar, officiated as Prime Minister, a Police Secretariat was created of which Sardar Delair Jung Bahadur was Secretary. As per orders published in the Government Gazette on

the 13th December 1886 A.D. (1296 F.) the Police Secretariat was merged in the Home Secretariat, but after some time it was transferred to the Judicial Secretariat.

Expansion was made in the City Police on proper lines. Until the time of Mr. Inayat Husain Khan, there were two Kotwals, one for the City and the other for suburbs, but on 5th April 1884 (1293 F.) when Nawab Akbar-ul-Mulk Bahadur was appointed as City Kotwal, the Suburban police was also placed under him. After his demise, Nawab Sultan Yawar Jung Bahadur was appointed Kotwal on 8th April 1905 (1314 F.).

The Afghan City Police Force was created on 19th November 1881 (1294 F.) and was placed on guard duty at Charminar in the same year.

The registration of motor vehicles and issuing licenses was entrusted to the Police Department in January 1917 (1326 F.).

The City Police Commissioner controls the printing presses.

During the past few years, much attention has been devoted to the reorganisation of the City Police Department. As a result of the redistribution of areas, the city at present consists of 3 Divisions or 'Halqas' comprising 9 subdivisions or 'Simths.' Each 'Simth' is under a Sadar Amin who is responsible for the prevention and detection of crime. The number of subordinate staff in each 'Simth' has been fixed according to the local requirements. There are altogether 24 Police Stations and 150 Nakas in the City.

Various rules and orders have been issued calculated to improve the discipline and morales of the force.

Parades are being held regularly and recreational training is receiving a full measure of encouragement.

As the older illiterate men retire, they are being replaced by literate men as far as possible. Provision has also been made for men who are illiterate at the time of enlistment to acquire the elements of literacy in the Lines School. These measures have led to a steady increase of literacy in the lower ranks.

A central Police Lines has been constructed at Petla Burj at a cost of Rs. 10,30,000 covering an area of 15 acres.

4. *Chief Functions*.—Maintenance of law and order in the City and the control of the traffic in busy localities.

5. *Achievements*.—The citizens of Hyderabad are happy, well united and leading a peaceful life in spite of so much outside agitation.

The details of some of the achievements are:—

- (a) Introduction of the City Police Act and rules framed under it regarding the following subjects:—
 - (i) Traffic control and traffic signals.
 - (ii) Discipline of the force.
 - (iii) Blasting of rocks.
 - (iv) Playing of music in streets and public places.
 - (v) Explosives.
 - (vi) Places of public entertainment and amusements.
- (b) Introduction of the Manual of Police Procedure.
- (c) Publication of the Hyderabad Road Code, with a view to educating the public in traffic matters.
- (d) Reconstitution of the 'Simth' areas and redistribution of the force in some of the Police Divisions.
- (e) Reorganisation of the Special Branch C.I.D.
- (f) Establishment of the Crime Bureau and the Traffic Control Branch.
- (g) Issue of Daily Notice Sheet.
- (h) Introduction of Card Indexing.

Control.—The department is under a Commissioner (Kotwal) assisted by four deputies, six assistants and an officer in charge of fire brigade.

SECTION XVI.

Jails

XVI.—JAILS.

There are in these Dominions 4 central and 13 sub-jails (one of the latter being in British Administered area) for the accommodation of under-trials and convicts.

In them there were 8,077 under-trials of whom 97.6 per cent. were males, the daily average number in the jails being 964.

Convicts numbered 8,043, of whom 97.8 per cent. were males, the daily average number in the prisons being 2,209.

Classified according to religion, 44.5 per cent. were Hindus, 24 per cent. were Muslims and the rest other religions. 97 per cent. of the person were illiterate and 32 per cent. were drawn from agricultural occupations.

The total expenditure of the Jail Administration in 1347 F. was Rs. 5.7 lakhs as compared with Rs. 6.1 lakhs in 1346 F.

SECTION XVII
Education

XVII.—EDUCATION.

For the promotion of literacy and advancement of higher education there were in 1347 F., in these Dominions, 5,131 institutions with a student population of 3,81,018 under the Director of Public Instruction. In addition there were 889 private schools with 24,777 pupils. The percentage of scholars under instruction to the population of school-going age was 18.7 as against 18.1 in 1346 F.

Of the total number of schools (5,131), Jagirs, Samasthans and Paigahs claim 108. In parts where the Education Department is directly responsible there is one school for every 17 square miles, while in the Jagirs, Samasthans and Paigahs there is one school for every 231 square miles.

High schools numbered 59 with 33,619 pupils—an increase of 3 and 1,602 respectively on 1346 F.

Middle schools numbered 137 with a strength of 44,943—an increase of 3 schools and 737 pupils on 1346 Fasli.

Primary schools numbered 4,766 with 295,341 pupils—an increase of 374 and 13,346 respectively on 1346 F.

The expenditure on high schools amounted to Rs. 19.5 lakhs, on middle schools 13.5 lakhs and on primary schools Rs. 27.7 lakhs.

Girls' Education.

Of the total number of schools noted above girls' schools were 766 with a strength of 56,306—an increase of 40 schools and 1,755 girls on 1346 F. The proportion of girls under instruction to the total female population of school-going age was 3.5. The expenditure on girls' education amounted to Rs. 10.7 lakhs.

Special Schools.

In 1347 F. there were 169 special schools with 7,115 scholars. They were training institutions, industrial

and vocational schools, adult schools, religious schools and schools for depressed classes.

The total expenditure was Rs. 2.5 lakhs.

Examinations.

	Appeared.	Passed.	P.C. of passes.
H.S.L.C. . .	1,137	696	61
Osmania Matriculation .	1,312	496	38

College Education.

There were 9 colleges of various categories such as arts, medicine, engineering and law, 8 affiliated to the Osmania University and one to the Madras University; having a staff of 255 and 2,397 scholars. 4,566 students sat for different University examinations of whom 2,073 passed.

The amount of expenditure in 1347 F. was Rs. 9.6 lakhs.

Sept. 1933.

XVII.—EDUCATION.

No. 14.—Brief History of the Department of Public Instruction (Talimat.)

1. Established in 1279 Fasli (1869 A.D.)

2. Heads of the Department and the period of their tenure:—

Directors.—

1. Mr. W. H. Wilkinson, 1279 to 1281 Fasli.
2. Mr. Inayatur Rahman Khan 1281 to 1293 Fasli.
3. Nawab Imadul Mulk Bahadur, B.A., C.S.I., 1293 to 1296 Fasli.
4. Mr. Syed Ali Bilgrami (Syed Hussain Bilgrami) 1295 to 1296 Fasli.
5. Nawab Imadul Mulk Bahadur 1296 to 1316 Fasli.
6. Dr. Syed Sirajul Hasan, M.A., B.C.L., LL.D. (Nawab Siraj Yar Jung Bahadur) 1316 to 1322 Fasli.
7. Dr. Alma Latifi, M.A., 1322 to 1325 Fasli.
8. Nawab Masood Jung Bahadur (Syed Ross Masood) 1325 to 1337 Fasli.
9. Mr. Syed Mohammad Husain Jafri, B.A., 1337 to 1338 Fasli.
10. Mr. Fazl Muhammad Khan, M.A., 1338 to 1346 Fasli.
11. Mr. S. M. Husain Jafri, B.A., 1346 Fasli (Contg.).

3. *History.*—It was in the year 1264 F., that the Government took the first step towards public instruction when the far-sighted statesman, Sir Salar Jung Bahadur, founded the Darul Uloom in the City of Hyderabad and placed it under an Education Board. It became a centre of oriental learning and culture and a few years later five branch schools were opened, one at each gate of the City.

The next step in popularising education was taken when the Government issued a notification in 1269 F., ordering the opening of two schools in each of the taluq and district headquarters, one in Persian and the other in the local language. The management of these schools was left in the hands of committee consisting of patels and patwaris, presided over by the Tahsildar at each taluq headquarter, while the Third Taluqdar was the head of the district committee and also the inspecting officer for the district.

In 1278 F., the Minister, Miscellaneous Department was entrusted with this work and a year afterwards the Education Department was definitely created with the appointment of a Secretary to the Miscellaneous Minister in the Education Department and Director of Public Instruction. In 1284 F. Deputy Inspectors for the districts were appointed to whom were transferred most of the duties connected with educational matters.

The first Government High School which was started in the Dominions was the City English School founded in 1280 F. It was amalgamated with the Chaderghat Anglo-Vernacular School in 1285 F., which shortly afterwards became the English High School, Chaderghat. English education was first introduced in the districts in 1283 F., when an Anglo-Vernacular school was opened in Aurangabad. This was soon followed by the opening of a similar school at Gulbarga in 1285 F.

The success achieved by the Chaderghat High School was so great that in 1287 F., it was raised to the status of a second grade college affiliated to Madras University under the name of Hyderabad College which became ultimately a First Grade College in 1293 F.

The Madrasae-Aliya founded on the model of an English Public School and meant for the sons of the nobles, was brought under Government control in 1287 Fasli. By 1292 F., there were four Aided English High Schools, St. George's Grammar School, the All Saints' Institute, the Mahboob College and the Madrasae-Aizza. The last named was and has remained up to this day a school for Murshidzadas. Besides, there were a few Middle English Schools for girls,

The year 1292 F. marks the opening of the new chapter in the history of education in the State. Public Instruction ceased to be one of the minor appanages of the Miscellaneous Department, and with the appointment of Syed Husain Bilgrami, B.A., (afterwards Nawab Imādul Mulk Bahadur) as Director of Public and Educational Secretary it was made one of the major departments and a budget of yearly $2\frac{1}{2}$ lakhs to begin with, was sanctioned for it. Nawab Imadul Mulk Bahadur at once set about reorganising the whole department. High Schools were opened at the headquarters of each Subah. Upper or Lower Middle Schools were established at a large number of places in the districts, and the number of primary schools increased from 161 to 402 in three years' time (1294-1297). A Civil Service Class was added to the Aliya, while considerable progress was made by the various schools in the City, both Government and Aided. In 1300 F., the Middle School Examination was instituted. In 1297 F., the Madrasae-Aliya was amalgamated with the Hyderabad College and the combined institution came to be known as the Nizam College. By 1303 F., the strength of the Inspecting Agencies was also increased considerably.

A Text-Book Committee and an Educational Board were constituted in the same year. The Normal School for the training of teachers which was opened by 1280 F., was reorganised. By 1314 F., technical and professional schools such as those for industries, arts and crafts, engineering, medicine and law were all brought under the partial control of the Educational Department. Nawab Imadul Mulk's period of office is also marked by the founding of several scholarships and Libraries.

While in 1293 F., there were only 186 schools of all grades with 11,599 pupils and a budget of $2\frac{1}{2}$ lakhs, by 1315 F. we find 882 schools with nearly 60,000 pupils and a budget of over 10 lakhs. In 1316 F., Nawab Imad-ul-Mulk Bahadur was succeeded by Dr. Syed Sirajul Hasan, now Nawab Siraj Yar Jung Bahadur. The year 1318 F., saw the establishment of two Girls High Schools (the Nampalli and the Mahboobia Schools). The H.S.L.C. Board was constituted in 1319 F., and by that year the budget had increased to nearly 14 lakhs.

The same year saw the appointment of Mr. A. T. Mayhew as Educational Adviser for two years. At the end of 1320 F., he submitted his report wherein he made valuable suggestions for the expansion of Primary and Secondary Education as well as for the reform of the administrative machinery of the Department. But it was left to Mr. A. Hydari, now the Right Honourable Sir Akbar Hydari (Nawab Hyder Nawaz Jung Bahadur), P.C., LL.D., D.C.L., then Educational Secretary, finally to shape the educational policy of the State.

The inauguration of the Osmania University in 1918 (1327 Fasli) led to a rapid development of higher education. Intermediate classes were added to the City High School and to the Aurangabad High School in 1922-23 (1322 Fasli) to the Zenana High School, Nampalli, in 1923 (1333 Fasli) to the Warangal High School in 1926 (1336 Fasli) and to the Gulbarga High School in 1930 (1340 Fasli).

In 1937 (1346 F.) Mr. Fazl Muhammad Khan was appointed Commissioner and Secretary for reorganisation of Vocational and Technical Education and Mr. S. M. Husain succeeded him as Director of Public Instruction.

4. *Chief Functions—Controlling Agency.*—There are at present 5 Divisional Inspectors of Schools, one for each of the 4 Subahs and one for headquarters and Atrai-i-Balda District. Under the Divisional Inspectors there are district inspectors, one for each district. The District Inspector is responsible for Primary and Middle Schools in his district, the High Schools being directly supervised by the Divisional Inspectors. To help the District Inspectors of Schools in the inspection of primary schools, each district has a number of Sub-Inspectors, (Nazirs).

Primary Schools.—There are six types of Primary Schools, viz., Government (Shahi), Sarf-i-Khas, Local Fund, Experimental, Aided and Recognised Unaided.

The number of all types of Primary Schools in H.E.H. the Nizam's Dominions is 4,766, while their enrolment is 2,95,341. But including the number of pupils reading in the Primary classes of Secondary Schools, the total number of scholars in the primary stage of instruction comes to 3,37,399.

The total expenditure on Primary Schools during the year 1347 F., amounted to Rs. 27,69,600.

Bill for Compulsory Primary Education.—In 1347 Fasli under orders from Government, the department prepared and submitted a Draft Bill for the introduction of Compulsory Primary Education. This bill is under the consideration of Government.

Proposal to Finance Primary Education entirely from Shahi Funds.—In the report for the year 1346 F. it was suggested that the burden of recurring expenditure on Primary Education should be borne out of Shahi Funds, the contribution from the Local Fund being set apart for such items of non-recurring expenditure as buildings and furniture. A formal proposal to this effect was submitted to Government during the year under report. When the proposal is sanctioned, the Department will be in a better position than it is now to satisfy the needs of Primary Education.

Secondary Education is given in High Schools and Middle Schools.

The High Schools in the Dominions are of three kinds, viz., English, Osmania and Combined.

English High Schools are those which prepare pupils for the H.S.L.C. and Local Cambridge Examinations and follow English as the medium of instruction. The Osmania High Schools follow the courses of study laid down by Osmania University for the Osmania Matriculation, the medium of instruction being Urdu. In the Combined High Schools there are parallel classes for H.S.L.C. and Osmania Matriculation courses.

The following statement gives the number of High and Middle Schools and their strength in 1347 F.:—

	Schools.	Scholars.
English High Schools	.. 21	11,045
Osmania "	.. 32	16,635
Combined "	.. 6	5,939
Middle Schools	.. 137	44,943
	<hr/> 196	<hr/> 78,562

While the total number of pupils in the Secondary Schools is 78,562, the number of scholars reading in the Secondary classes is 36,504.

The total expenditure on Secondary Schools during the year 1347 Fasli amounted to Rs. 33,06,199.

Special Schools.—Training, Vocational, Religious and Adult Schools are called Special Schools. In 1347 F. the total number of all kinds of special schools was 169 with 7,115 scholars attending these schools.

The total expenditure on all special schools, excluding the College Section of the Training College, during the year 1347 F., amounted to Rs. 2,53,863.

Training Schools.—There are 8 Training Schools in the Dominions, 4 for men teachers and 4 for women teachers. Only one of these, a school for women teachers is an Aided institution and all the others are maintained by Government. The course in these institutions is of one year, and Upper Primary, Middle, Matric and Intermediate passed teachers are trained in them.

The number of teachers under training in 1347 F. was 272 and the total expenditure on them in that year amounted to Rs. 1,38,107.

There is also a Training College for graduate teachers. Mr. Sajjad Mirza, M.A. (Cantab.), C.T. (London), was appointed Inspector of Training Schools, in addition to his duties as Principal of Training College and in 1347 F., he inspected all the Training Schools for men and women teachers in the districts and in Balda as well as High, Middle and Primary Schools which are used for practising work.

Girls' Education.—The total number of schools for girls in the Dominions is 766, while girls enrolment is 56,306. Besides these, there are 8,011 girls attending boys' primary schools. Of these 11 are High Schools, 19 Middle Schools, 731 Primary Schools and 5 Special Schools.

Out of the 5 special schools 4 are training schools which train Upper Primary and Middle passed women teachers.

The amount spent yearly on Girls' Education comes to 10 lakhs of rupees.

There is a Chief Inspectress to supervise Girls' Education in the City and some of the district headquarters. Two new posts of Inspectresses of Girls' Schools—one for the Medak Division and the other for Aurangabad Division—were sanctioned during the latter part of year 1347 Fasli.

Medium of Instruction:—During the year under report, Government were pleased to sanction the proposal of the department for permitting the use of the mother-tongue as the medium of instruction up to the end of the Lower Secondary stage in all Girls' Secondary Schools.

Physical Education:—Drill is taught in all the schools and wherever facilities exist, outdoor games are also compulsory.

There is a College of Physical Education for giving training in Physical Education to graduates and undergraduates. During the year 1347 F. the work of supervising Physical Education was transferred from the Organising Commissioner of Boy Scouts to the Principal, Government College of Physical Education. The designation of the former officer was changed to "Organising Commissioner of Boy Scouts and Chief Inspector of Games and Sports" and that of the latter to "Principal, Government College of Physical Education and Chief Inspector of Physical Education." The Board of Physical Education constituted in the previous years to promote Physical Education continued to work satisfactorily.

A one-minute drill at the beginning of each period was introduced in all Secondary Schools, the aim being to correct the defects resulting from wrong postures in the class room.

The Hyderabad Athletic Association organises every year Inter-School and Inter-Collegiate Sports and Football, Hockey and Cricket Tournaments as well as a Mass Drill Display.

Feeding in Schools:—The medical inspection of several schools in the Dominions has revealed that more than 70 per cent. of the pupils are underfed and that malnutrition is mainly responsible for the ill-health prevailing amongst them. It has been found that the food of

pupils, either insufficient in quantity or poor in quality, or both defeats the object of compulsory games and physical training in schools. If Physical Education in schools is to have the desired effect, the evil of malnutrition should be attended to first. There is need for providing supplementary nourishment at schools at the midday interval to necessitous children who form the bulk of our school-going population. During the year under report, it was decided to make an experiment in this direction in a few selected schools in Balda. The Medical Department was consulted in the matter and a modest scheme was submitted to Government for provision of milk to children of two of the schools in Balda. Government were pleased to sanction Rs. 1,000 for this scheme. If the experiment proves successful, it will gradually be extended to other schools as funds permit.

Boy Scout:—There are 181 scout troops in the Dominions with 5,327 Scouts, Rovers, etc.

Girl Guide:—Within a very short period the Girl Guide movement has gained great popularity and spread throughout the Dominions. Government have appointed a Girl Guide Trainer for the efficient organisation and development of the movement.

The total number of Guides, Guiders, Blue Birds, Rangers, etc., is 3,169.

Adult Education:—The number of Adult Schools and the adults attending these schools was 47 and 1,556 respectively. The total expenditure on the schools amounted to Rs. 8,524 in 1347 F.

Vocational Education:—To give a practical bias to education, arrangements for vocational training have been made in a number of schools. There are now 20 High, 39 Middle and a few Primary Schools, where there is provision for giving the pupils training in useful local vocations—carpentry, smithy, tape-weaving, cloth-weaving, kambal-weaving and carpet-weaving, gardening, cane-work, book-binding, shoe-making, etc.

Text-Book Committee:—The Text-Book Committee was set up in the year 1893 (1303 Fasli).

In the year 1933 (1342 F.) the work of selecting, preparing, compiling, printing and publishing text-books, for schools was started by the Committee under the direct supervision of the department. Different sub-committees were formed for compiling books on various subjects. A number of books have so far been compiled, printed, published and prescribed for schools.

Names of some of the books are given below:—

Urdu Grammar
Series of Resala-e-Deeniat
Persian Readers
Geography
Nature Study
Books on Physical Education
Hints on Geography
History of Deccan.

Of all the Committees appointed by the Department for preparing text-books in different subjects, the History Committee was the most active during the year under report. This Committee, which consists of representatives of the Education Department and Osmania University, was constituted in 1346 F. to compile History text-books for schools on lines suggested from time to time by the Right Hon'ble Sir Akbar Hydari, President of the Executive Council. It is expected that the revised edition of the History of the Deccan for Class V as well as the books intended for classes III, IV, VI and VII will be out by Amardad 1348 F. The main principles which the Committee has kept in view in preparing all these books are as follows:—

- (a) The books should be absolutely free from communal bias and should conduce to the development of a spirit of toleration in the students.
- (b) The cultural and social side of the History of every period should be duly emphasised.
- (c) The language should be as simple as possible, with due regard to the standard of the class for which each is intended.

In addition, Urdu translations of a number of books on Education and Pedagogy have been prepared, printed and published for the use of the Osmania Training College.

5. *Achievements:—Primary Education:* (1) A model Primary School was started in the city in the year 1932 (1341 F.) with up-to-date arrangements for the instructions of children according to the most modern methods.

(2) The teaching staff of Government and Local Fund Primary Schools have been improved by substituting in a large number of casts, Middle trained teachers for teachers of lower qualifications.

Revision of the Curriculum:—At the beginning of the year under report, a Committee of the Senior Officers of the Department was appointed to revise the curriculum of Primary Schools. The Committee drew up a new curriculum which was discussed at two meetings which were presided over by the Director of Public Instruction and it was decided to bring it into force in 1348 F. after obtaining Government sanction.

Secondary Education:—(1) A residential institution for the sons of the landed gentry and aristocracy of Hyderabad was established under the name of “Jagirdars’ College” in 1923-24 (1333 F.) on most modern lines.

(2) Under the new curriculum, elementary Science has been made compulsory.

(3) Arrangements for vocational training have been made in a large number of High and Middle Schools according to the local needs.

Girls’ Education:—(1) Apart from the increase in the number and strength of Primary and Middle Schools for girls, two Government High Schools for girls have been established in the districts one at Warangal and the other at Aurangabad.

(2) Apart from the Osmania University College for Women, the two most important institutions for girls are the Girls’ High School, Nampalli, and the Mahbubia Girls’ High School. The former parallel H.S.L.C. and Osmania Matriculation classes, while the latter prepares girls for the Cambridge local examinations and

has seven European ladies on the staff. They are both Government Institutions.

(c) *Sanction of two new posts of Inspectresses:—* During the latter part of the year 1347 F. Government were pleased to sanction the proposal for the creation of two new posts of Inspectresses for Girls' Schools—one for the Aurangabad Division and the other for the Medak Division. The question of filling up these two posts was under the consideration of Government at the end of the year.

*Adult Education:—*Government have recently sanctioned a special curriculum and rules and regulations for systematising Adult Education. The curriculum is spread over a period of 1½ years with three different stages of instruction.

*Training of Teachers:—*There are six Government Normal Schools for the training of teachers of Primary Schools—three for men and three for women. In five of these—all situated in the districts—provision has been made for training teachers in Urdu as well as in the language of the area concerned.

Arrangements for training matriculates also exist in the Normal Schools at Warangal, Gulbarga and Aurangabad. Matriculates, intermediates and graduates receive training in the Osmania Teachers' Training College.

*Medical Inspection:—*In co-operation with the Medical Department, the Education Department has made arrangements for annual medical inspection of all Government Secondary Schools.

*Physical Education:—*A College of Physical Education was opened in 1340 F. (1930-31), under the Principalship of Mr. F. Weber to give training in Physical Education to graduates and under-graduates. Teachers trained in this institution supervise games, sports and drill in the various Secondary Schools. The College of Physical Education also arranges for short courses of training for Drill Masters from time to time.

Tournaments in various schools, games and athletic sports are held at the headquarters of each Subah annually

followed by the Dominions Football Tournament and Dominions Sports which are organised by the Director of Physical Education for Schools.

Boy Scouts and Girl Guides:—Local Associations have been started in different areas to enlist public co-operation in the movement.

Scheme for Educational Reorganisation:—In accordance with the recommendations of the Mackenzie Committee, a Board of Secondary Education with Sahibzada Nawab Basalat Jah Bahadur, H.E.H. the Nizam's younger brother as 'Sadr-i-Mila' and the Director of Public Instruction as President was established in 1346 F. The Board includes representatives of Education Department, Osmania University, the Agricultural Department, the Department of Commerce and Industries and the Co-operative Department as well as representatives of Girls' Education and the Public.

There is also a Statutory Committee for Girls' Education with Lady Hydari as the President to advise the Board of Secondary Education on questions affecting Girls' Education, was constituted.

The first meeting of the Board was held in the Legislative Council Hall on the 25th August 1937 (29th Mehir 1346 F.), when the proceedings were opened by Sahibzada Nawab Basalat Jah Bahadur. The Board appointed a Sub-Committee to consider the question as to what steps should be taken to enforce the scheme for the reorganisation of education sanctioned by the Government. A Committee of Courses and an Examinations Committee were also appointed.

Two meetings of the Board were held in the year 1347 F. The first of these meetings was held on the 9th Farwardi. Mr. A. Abbott, C.B.E., whose services had been borrowed by Government to advise the Department of Technical and Vocational Education in matters relating to Industrial and Technical Education, attended the meeting by special invitation. The report of the Sub-Committee appointed last year by the Board to consider what step should be taken to give practical effect to the recommendations of the Mackenzie Committee for the Reorganisation of Secondary Education, was placed before the

Board. It was decided that, in as much as technical education and general education were intimately inter-related, the Sub-Committee might usefully avail itself of the opportunity of discussing its report with Mr. Abbott in the first instance and then submit its proposals with appropriate modifications, if any, to the Board for approval. The rules, regulations and bye-laws drawn up by the Committee which was appointed for the purpose at the first meeting of the Board held in 1346 F. were considered and passed with a few amendments. The rules and regulations approved by the Board were later submitted to Government for sanction.

The second meeting of the Board was held on the 30th Amardad 1347 F. to consider the revised report of the above-mentioned Sub-Committee. This report was adopted with a few amendments.

The proposals cover a wide range of reforms in the matter of girls' education, introduction of vocational training and minimising the burden of examinations. It will be open to girls in the Lower Secondary Stage to choose one of the four languages of the State as medium of their instruction.

The new scheme, while fixing the total period of education (Class I to the end of the Degree stage) to 14 years, divides the same into four distinct stages, viz., the Primary Stage, the Lower Secondary Stage, the Higher Secondary Stage, and the University Stage, the first two stages covering 4 years each and the last two 3 years each. In the Primary Stage, however, which excludes the Infant Class, at least one extra year will be provided for such pupils as do not propose to pass on to a Secondary school.

There will be two public examinations besides the degree examination, one at the end of the Lower Secondary Stage (Class V to Class VIII) to be called the Lower Secondary Certificate Examination, and the other at the end of the Higher Secondary Stage (Class X to Class XI) to be known as the Higher Secondary Certificate Examination.

The proposals of the Board in regard to the overhauling of Secondary Education are far-reaching. In order to mitigate the burden of examinations the curriculum have

been divided in both Lower Secondary and Higher Secondary classes into examination and non-examination subjects. While the Higher Secondary classes will have three different courses of study, viz., (1) Arts, (2) Mathematics and Science and (3) Biology, (specialisation commencing in Class X), the Lower Secondary schools, as recommended in the Mackenzie Report, will be divided into urban schools and rural schools. Manual training and gardening together with agriculture will be taught respectively in the Urban schools and Rural schools as non-examination but compulsory subjects.

As regards girls' education, there will be four alternative courses of study for them in the higher state, viz., (1) Arts, (2) Mathematics and Science, (3) Biology and (4) Domestic Science; while for the Lower Secondary Certificate Examination, Domestic Science will be an additional examination subject besides those that are prescribed as examination subjects for boys.

As regards the medium of instruction, it will continue to be Urdu for boys in both Lower and Higher Secondary stages, while in the case of girls, Urdu will be retained in the Higher stage only. It will be optional for girls in the Lower Secondary stage to choose either Urdu or one of the other local languages, viz., Telugu, Marathi and Kanarese as their medium of instruction.

It will be noted with interest that at the end of each stage of instruction, vocational education will be provided in separate vocational institutions. At the end of the Primary Stage there will be industrial schools, while at the end of the Lower secondary stage there will be provided different types of vocational and technical institutions.

The new scheme will be enforced in Amardad 1348 F. with the opening of classes, V, VI, VII, of the Lower Secondary course to which a new class will be added every year. Thus, the first Lower Secondary Certificate Examination will be held in April 1941 and the first Higher Secondary Certificate Examination in April 1944.

6. *Control*:—The department is under a Director assisted by four Assistants, five Divisional Inspectors of Schools, a Chief Inspectress of Girls' Schools, three Assistant Divisional Inspectors and 15 District Inspectors.

No. 15.—Brief History of the Osmania University.

The Osmania University which was established by a Royal Charter in 1918 is the first attempt in India to impart University Education through an Indian Language, while retaining English as a compulsory subject of study. For over half a century, higher education in the State was controlled by the Madras University, but the results were so discouraging that in 1917, the Right Honourable Sir Akbar Hydari, *Kt.*, *P.C.L.*, *LL.D.*, then Secretary to His Exalted Highness' Government in the Educational Department submitted a memorandum to His Exalted Highness in which after surveying the existing conditions and discussing the disadvantages of imparting knowledge through the medium of a foreign language, he recommended the inauguration of a University which should be both an examining and a teaching body and in addition to this should undertake to compile and translate books, using Urdu as the medium of instruction and examination, as it is the official language of the State and is widely understood and spoken not only in the Dominions but throughout India. The standard of English which is compulsory is nearly the same as in other Universities. The alumni of the University are thus enabled to keep in touch with the currents of thought in the English-speaking world as they can freely consult English books on the subject they study.

Constitution.

The Council which is the governing body of the University is entrusted with general supervision and control over the constituent colleges. His Exalted Highness is the Patron of the University, His Excellency the President the ex-officio Chancellor, and Hon'ble the Educational

Member the ex-officio Vice-Chancellor. A paid Pro-Vice-Chancellor is in administrative control of all institutions under the University.

Faculties.

The University is of the unitary teaching type, providing instruction in all subjects of University study. The Faculties of Theology, Arts, Science, Law and Engineering are located in the University area at Adikmet, while the Medical and Training Colleges are located in the City owing to the absence of necessary facilities in the University campus for the present. The Women's College which has Intermediate, B.A., B.Sc. and M.A. and M.Sc. classes is also located in the City, but it will be transferred to Adikmet as soon as its projected buildings are constructed. Besides the Intermediate classes attached to the University there are four Intermediate Colleges at Aurangabad, Warangal, Gulbarga and in the City of Hyderabad, but His Exalted Highness' Government have under their consideration a scheme of educational reorganisation, under which the University course for the B.A. degree will be of three years.

The University commenced its tutorial work with the opening of the Osmania University College in August 1919. A beginning was made with the first year class and higher classes were added year by year till the first B.A. Examination was held in 1923 and the first M.A. and LL.B. Examinations in 1925. The University now confers the B.A. and M.A., B.Sc. and M.Sc., LL.B., M.B., B.S., and B.E. degrees and confers Diploma in Education.

Bureau of Translation.

The Bureau of Translation which came into existence in 1918 has been instrumental in enriching the Urdu Language with books on various subjects and has already published 271 books in Arts and Sciences, while 45 books are in the Press and 106 are being compiled, translated or revised.

N. B. The year 1347 F.=Oct. 1937 to Sept. 1938.

No. 17.—*Brief History of the Bureau of Translation and Compilation.*

(Darut-Tarjuma.)

1. Established on 1st Aban 1326 F. (6th September, 1917).

2. Heads of the Department and the period of their tenure:—

1. Mr. Abdul Haq, 1-12-1326 to 28-10-1328 F.
2. Mr. Syed Mohiuddin, 29-10-1328 to 26-5-1329 F.
3. Mr. Hamid Ahmed Ansari, 27-5-1329 to 19-4-1330 F.
4. Mr. Md. Enayetulla, 20-4-1330 to 26-4-1344 F.
5. Mr. Md. Elias Burny, 27-4-1344 F. (continuing).

3. *History*:—The Bureau was established two years earlier as a *sine qua non* of the Osmania University with 8 translators. Its inception is noted in the Firman of H.E.H. the Nizam dated 4th Rajab 1335 H. (26th April 1917).

“The fundamental principle in the working of the University should be that Urdu should form the medium of higher education, but that a knowledge of English as a language should at the same time be deemed compulsory for all students.”

4. *Chief Functions*:—The Bureau translates into Urdu standard books on Arts and Sciences, Ancient and Modern, from Eastern and Western languages, such as Arabic, English and other, and also compiles Urdu books from original sources on the same subjects. These translations and compilations are duly recommended and approved by the University Board of Studies and Faculties concerned, to be used as Text-Books and Books of general study in the Osmania University. Moreover there is a growing demand for the Bureau publications all over the country.

Terms Committees are appointed for all subjects under translation or compilation, and these Committees hold their meetings at the Bureau to coin Urdu Terms equivalent to the technical terms referred to them for translation. Such terms are divided into 3 classes, Terminology, Nomenclature and Notation, out of which Terminology is translated, Nomenclature is retained as international and Notation is either translated or retained just according to the nature of the Notation in question.

A vast collection of technical terms relating to various subjects—originals with Urdu translations is already in the University Press and will be shortly published.

5. *Achievements*:—(i) A Table of translations and compilations completed by the end of 1347 F. is given below:—

Seri- al No.	Subject	No. of books pub- lished	No. of books in the Press	No. of books under translation or compilation	No. of books proposed for transla- tion or compila- tion	Total

21	Engineering	20	17	6	9	52
22	Science of Teaching	30	30
	Total	271	45	106	114	536

(ii) Technical Terms coined by Committees:

The Terms Committees have already coined over 45,000 Technical Terms for various subjects and their work is in progress. As noted before collections of these terms are in the press and will be shortly published.

6. *Control*:—The Bureau has a Curator and 15 Translators and a Superintendent of the Press.

*No. 20.—Brief History of the Asafia Library.
(Kutub-Khana Asafia).*

1. Established on 1st Farwardi 1300 F. (1891).
2. Heads of the Department and the period of their tenure:—

SUPERINTENDENTS.

1. Mr. Syed Ali Hyder, Hyder Yar Jung Bahadur,
1-5-1300 to 30-10-1305 F.
2. Mr. Syed Tasaduq Hussain,
1-11-1305 to 6-7-1327 F.
3. Mr. Syed Abbas Hussain. 7-7-1327 (continuing).

3. *History*:—The Asafia Library was started through the efforts of the Late Nawab Imadul-Mulk (Syed Hussain Bilgrami). It is a purely Government Institution. The classification of books here has its own system. The Catalogue is of classified nature and is in printed form. The stock at the end of the year 1347 F. was about 43,000, including periodicals and reports, etc. Out of which there are about 10,000 MSS. and 14,000 printed books in Arabic, Persian and Urdu languages and about 13,000 English and other printed books. The rest excluding periodicals and reports, are not catalogued and are not given for use to the Public. The MSS. are kept apart from the printed books under lock and key. The Library is lodged since 1345 F. in a very imposing and up-to-date library on the bank of the river Musi, costing about six lakhs of rupees.

4. *Chief Functions*:—It is a free Public Library and efforts to collect and make accessible to the public the useful books, etc., when and wherever available in the shape of manuscripts or printed books.

5. *Achievements*:—The Library was started with a view to collect and retain in the country most of the manuscript books about the Islamic culture and the Hindu period that were passing out of the Dominions for trifling sums of money. The result has been achieved to such an extent that the Asafia Library is considered one of the best among the famous libraries of India, a rich collection of about 10,000 MSS. now in possession. According to the needs of the day printed books on various subjects and in different languages are also represented now in the library.

6. *Control*:—The Library is under a Superintendent with an Assistant. The management is vested into a Library Council which controls the purchase, etc., of books. The expenditure in the year 1347 F. was Rs. 49,587-3-0. This includes an annual budgeted grant of Rs. 20,000 for the purchase of books.

SECTION XVIII.
Printing and Stationery.

XVIII.—PRINTING AND STATIONERY.

The growth of printing industry is a sign of the spread of literacy and the increasing demand for printed literature. The number of printing presses in 1347 F. was 148 as compared with 101 in 1346 F. Of these 9 were exclusively for Urdu work, 2 for English, one each for Marathi and Telugu. Printing Presses exist in all the districts except Karimnagar and Adilabad. Half the total number of presses is in Hyderabad City.

The printed matter issued in the Dominions was 37 periodicals of which 25 were in Urdu, 7 in Telugu and 4 in English and 1 in Marathi; 456 books of which 399 were Urdu, 44 Telugu, 22 Marathi and 21 Hindi, 16 English and 14 Kanarese.

The Central Press owned by Government is in charge of a Director assisted by 2 others, with a complement of 302 hands. The amount of income in 1347 F. was Rs. 3.9 lakhs and expenditure Rs. 3.3 lakhs.

The Director of the Press is also the Superintendent of Stationery Department which issues all stationery materials to Government Departments. In 1347 F. stationery valued at Rs. 6 lakhs was issued.

PRINTING & STATIONERY.

No. 3.—*Brief History of the Government Central Printing Department.*

1. Established in 1276 F. (1867 A.D.)
2. Heads of the Department and the period of their tenure:—

JAIL SUPERINTENDENTS.

1. Mr. Kazim.
1. Mr. Masih-uz-Zaman.
3. Mr. Syed Za'nulabedin Shirazi.
4. Mr. Frederick Gordon
5. Mr. Syed Ahmed.
6. Mr. Burzoji.
7. Mr Md. Mustahsan Khan.

PRESS SUPERINTENDENT.

8. Mr. R. V. Pillai, Bar.-at-Law 1326
to 1341 F.

DIRECTOR OF PRINTING.

9. Mr. R. V. Pillai, Bar.-at-Law, 1342 F. (cont.).

3. *History.*—The Department was established in 1286 H. (1867 A.D.) by Nawab Sir Salar Jung the Great with the object of printing the Government Gazette (Jarida). The Press at that time was located next to Nawab Sir Salar Jung's office and it is said that on certain occasions he himself read proofs of important documents. Subsequently, the Press came under the Political and Financial Secretariat which continued till 1315 Fasli when it passed into the hands of the Director-General of District Jails, and the Superintendent of the Hyderabad Central Jail came to be in charge of the Jail

Press. In 1326 Fasli, a whole time technical Superintendent was appointed, that officer being the present incumbent, Mr. R. V. Pillai, Bar.-at-Law.

Owing to dearth of Urdu Khushnavises (calligraphists) steps were taken to train them in 1326 Fasli. Calligraphy or Khushnavisi as an art gained a considerable impetus under the aegis of the Osmania University.

A separate establishment under the supervision of the Central Printing Office was sanctioned in 1332 F. for printing the text-books of the Osmania University. An Urdu Type Foundry was also started in the same year which formed the nucleus of a bigger foundry to come, to which an electrotyping and chromiumplating sections were added. The Press was re-organized in 1332 Fasli and a battery of Monotype machines was installed to replace hand-composing and 2-revolution machines were purchased. In 1341 Fasli, the Indian Daily Mail Press plant from Bombay as a working concern was acquired to meet the growing printing requirements of the State which also included a battery of Intertype composing machines. A rotary Offset plant for printing maps and handwritten Urdu Khushnavisi was also installed, as also a Process studio for the making of blocks.

The University Publication Section was transferred from the Central Press to the University at Adikmet in 1332 Fasli with a view to make it close to the University.

4. *Chief Functions*:—All requirements of the Government departments in the shape of administration reports, Government circulars, annual forms, registers, etc., are handled by this Press.

5. *Achievements*:—A notable achievement is the evolution of Nastaliq type for Urdu composition, which has made such poor headway since the time of Warren Hastings who had originally introduced it in Bengal in 1805. His Exalted Highness' Government therefore took up this question of all-India importance and set up in 1332 Fasli a well-equipped type foundry for casting Nastaliq type. It took ten years of persistent effort before the type was perfected and finally accepted by experts from British India and the State. A conference consisting of delegates from British Indian Provinces

was held which after protracted deliberation recommended that the type as evolved and perfected by the Hyderabad Government Press should be finally adopted for all publications. The Egyptian Government in Cairo also expressed an unqualified approval of the type, both from academic and technical points of view. On the occasion of the Millenary celebrations of Great Poet Firdausi, the Hyderabad Government took that opportunity to present two sizes of Nastaliq type to the Government of Iran in whose country Nastaliq script took its birth. Unequivocal tributes were paid not only by the Prime Minister, under command of His Majesty Raza Shah, but also by the delegates and oriental scholars attending the Millenary Conference from all parts of the world. The Hyderabad Government probably has the best Type Foundry in the East where facilities exist for casting Nastaliq, Naskh and Suls type in various sizes and bodies.

Another achievement is the publication of Mr. Pickthall's bilingual edition of the Holy Quran in which the English translation appears in verse against the Text. Utmost care was exercised in the reading of proofs by a Board of Ulema.

Control:—The department is under a Director with three assistants to help him.

SECTION XIX

Vital Statistics

In 1347 F. 172,829 births, of whom 55 per cent. were males, were registered. Assuming the population in the year to be 15,500,000, the birth rate works out at 11.1 per mille, while in British India in 1937 it was 34.5. The death rate was 10.32 per mille as compared with 22.4 in British India in 1937.

Fever was the principal cause of death claiming 69 per cent. of the total mortality.

Vaccination being compulsory, primary and revaccination are done extensively. In 1347 F. 354,611 of the former and 9,242 of the latter description were done.

In the hospitals and dispensaries numbering 162, the daily average number treated was 2,44 indoor and 21,487 outdoor, the incidence of sickness being 22 per cent. of the population.

731 lepers and 827 insane persons were treated in special hospitals.

The Medical and Public Health Department cost Government Rs. 21 lakhs.

3. *History*.—The first Medical Institution opened in the State was the Hyderabad Medical School founded in 1846 (1254 F.) which did work in training Medical Officers and subordinates for the Hyderabad Medical Service and Hospital assistants for Berar. At first instruction was imparted in Urdu but since 1884 (1293 Fasli) English has been the medium and the course being approximately the same as the L.M.S. of the Madras University. The Medical school was made a college and is now affiliated to the Osmania University.

The State Medical Department was under a Director who was also Residency Surgeon. The district staff consists of surgeons, hospital assistants, compounders and vaccinators. Most of the surgeons were passed students of the Hyderabad Medical School. There were women doctors at Aurangabad, Gulbarga, Raichur and Warangal.

Medical statistics are only available from 1884-1885 (1293-1294 F.). In that year there were 6 hospitals in the City and Suburbs and 48 dispensaries in the Districts. By 1891 (1300 F.) the number of dispensaries had increased to 67, in 1901 (1310 F.) it rose to 84 and in 1937 (1346 F.) it rose to 150 dispensaries.

PUBLIC HEALTH.

In 1322 Fasli (1913 A.D.) a scheme for the establishment of the Public Health Department was sanctioned and placed under the Director, Medical Department, who was called Sanitary Commissioner. The Dominions were divided into two circles, each in charge of a Deputy Sanitary Commissioner. The District Civil Surgeons were appointed District Sanitary Officers. Fifteen travelling dispensaries were created, one for each district under Assistant Surgeon as Sanitary Assistants.

In 1330 F. (1921 A.D.) the post of the two District Sanitary Commissioners was abolished and the Sanitary Department formed a part of the Medical Department.

The Public Health Department was reorganised to suit local conditions in the Dominions at the end of 1343 Fasli (1934 A.D.)

MEDICAL.

4. *Chief Functions.*—1. To render medical aid to the subjects of H.E.H. the Nizam's Dominions by establishing hospitals and dispensaries in the various parts of the State.

2. To advise District Boards and Local Fund Committees and Sarf-i-Khas Department on all Professional matters connected with the administration of hospitals managed by them.

3. To arrange for the Medical Examination of all Government employees including the Hyderabad Civil Service Candidates and for the State Life Insurance and Pensioners for commutation of pension.

4. To conduct all Medico-Legal Post-mortem Examinations and to give expert technical opinion with regard to the cause of death.

5. To undertake all Chemical and Bacteriological Examinations including Serological tests.

Public Health.

1. Prevention and control of epidemic diseases.
2. Surveys and control of malaria, leprosy, yaws, guinea-worm and filariasis.
3. Constant observations of the health of the population and reporting prevalence of sickness.
4. Inspection and advice regarding sanitary conditions in Urban and Rural areas.
5. Enforcement of sanitary rules and regulations.
6. Submission of schemes for carrying on and improving the sanitary administration.
7. Technical advice regarding town planning, buildings, water-supply and surface drainage.
8. Child welfare and maternal mortality.
9. Medical Inspection of schools and school children.
10. Health propaganda.
11. Vital statistics.
12. Control of sanitary arrangements for all Uruses and Jatras.

13. Nutrition surveys and assessment of malnutrition in the Dominions.
14. Prevention and control of tuberculosis.
15. Manufacture and supply of vaccine lymph.
5. *Achievements*:—
 1. Control of Plague and Malaria in Hyderabad City and Local production or plague items.
 2. Regular organization for the medical aid to the public.
 3. Drafting of necessary Public Health Laws.
6. *Control*.—The Director is the administrative head of the Medical and Public Health Departments. He is assisted by two Deputies, one for Medical and the other for Public Health Departments and a Personal Assistant. The Director is also the Plague Commissioner for Hyderabad and is Superintendent of the Osmania General Hospital. The Medical and Public Health personnel consists of 40 Civil Surgeons, 77 Assistant Surgeons and 198 Sub-Assistant Surgeons.

SECTION XX.
Medico-Legal Investigations.

POISONING.

In 1347 Fasli 201 cases of human poisoning and 10 of animal poisoning were sent to the Government Chemical Analyser and Bacteriologist, the quinquennial average preceding that year being 227 and 20 respectively. Of the total human poisoning cases tested 156 were positive. Opium and dhatura were the principal drugs employed.

Poison—was detected in 50 per cent. of the animal poisoning cases.

SECTION—XXI.

Lunatic Asylum

In the Asylum there were in 1347 F. 600 persons under treatment as compared with an average of 426 in the preceding five years of which 70.5 per cent. were males. After treatment 21.5 per cent. were declared cured. The rate of mortality among the inmates was 4 per cent.

Among the new admissions in the year (213), 156 were males and 57 females. By religion there were 78 Hindus, 131 Muslims and 4 Christians. Classified according to occupations the new cases fell under the following categories:—80 unemployed (52 being females), 30 cultivators and labourers, 30 domestic servants, 13 teachers, students and writers, 11 traders, 11 paupers, 10 artisans and 28 others. Mania claimed 107, melancholia 18, dementia 2, idiocy 6, epileptic insanity 27 and other forms of insanity 53 cases. The use of ganja, charas and bhang drove 28 (27 males and 1 female) to the lunatic asylum.

The administration of the Asylum cost Government Rs. 78,566.

The year 1347 F.— Oct. 1937 to sept. 1938.

SECTION XXII

Rainfall and Temperature

(a) Season etc., crop conditions

XXI.—(a) RAINFALL AND TEMPERATURE.

Season and Crops.

Government have established 171 rain-gauges in the Dominions and there are, in addition, 8 in the Sarf-i-Khas and 54 in exempted Jagir jurisdiction—making a total of 233. Of these 171, the Revenue has charge of 110, situated in the Tahsil head-quarter stations, 54 are held by the P.W.D., 1 by the Agricultural Department and 1 by the veterinary Department.

Weekly reports of rainfall, agricultural progress, crop condition, health of live-stock, fodder and water-supply, are received from 110 Dewani Tahsils and 8 Sarf-i-Khas stations. These reports are summarised and a brief report embodying salient points is published every week.

The daily rainfall figures are registered for each tahsil and classified according to Karties, months and monsoon periods.

The crops harvested in 1347 F. suffered from the capricious nature of the south-west monsoon of 1346 F. which was weak and unsettled. The north-east monsoon (Azur-Dai 1347 F.) was equally disappointing. Between Bahman and Thir 1347 F. only sporadic showers fell. The average for the agricultural year (1346-47) was 26.61" as against 30.73" normal. For these reasons the acreage under sugarcane diminished by 47 per cent., castor by 33 per cent., rice by 24 per cent., mustard by 16 per cent., and jawar by 8 per cent. On the other hand groundnut area increased by 50.7 per cent., cotton by 15.6 per cent., and wheat by 4 per cent.

The yield of crop was less than in the previous year except in the case of cotton, wheat, groundnut and miscellaneous oil-seeds. Rice was 12 per cent., jawar 17 per cent., linseed 7 per cent., castor 40 per cent., and sugarcane 51 per cent., down on the preceding year.

504 XXII.—(a) RAINFALL AND TEMPERATURE.

The south-west monsoon of 1347 F. gave abnormal rains averaging 35.45" as compared with 24.95" normal, the departure from normal being highest in Adilabad (+17.53) and lowest in Nalgonda (+2.33). The total rainfall in the calendar year amounted to 41.93" as compared with 30.28" normal.

Season and Crop Report from 16th Thir to 30th Aban 1347 Fashi.

The south-west monsoon of the year burst some days ahead of the usual date and gave abnormal rains. The number of rainy days was more than in the corresponding period of any previous year. Consequently the Kharif and Abi crops suffered and their yield prospects diminished. The soil condition for Rabi was also unfavourable.

During the second fortnight of Thir, substantial falls were received and sowing of Kharif commenced in Warangal, Nalgonda, Mahbubnagar, Aurangabad and Raichur. The average for the fortnight was 2.53" as compared with a normal of 66 cents for 17 years. In the month of Amardad moderate to heavy rains fell throughout the Dominions, except in the week ending 25th Amardad when light showers were recorded in large areas while in parts of Karimnagar, Bir, Gulbarga, Osmanabad and Raichur there was no rain at all. The average for the month was 10.02" as compared with 5.64" normal for 40 years. Such abnormal rains caused excessive soil moisture and consequently agricultural operations had to be suspended for a time in some places.

In the month of Shehrewar rainfall, though general, was light in parts of Marathwara. Adilabad had 15.60" and Nizamabad 14.67". The average for the Dominions was 8.85" as against 7.03" normal. In Mehirk and Aban the monsoon was unusually active and the rainfall was more or less intermittent, the average exceeding the normal. Thus the total rainfall since 16th Thir was 37.96" and for the monsoon period 35.45" as compared with a normal of 24.95". The departure from normal was marked in Adilabad by +17.53", in Bidar by

XXII.—(a) RAINFALL AND TEMPERATURE. 505

+16.74", in Nander by +16.12", in Karimnagar by +13.80", in Medak by +13.55" and in Osmanabad by +13.36.

Kharif.—Kharif sowing commenced as early as the second week of Thir when sufficient soil moisture was assured in parts of Warangal, Nalgonda, Mahbubnagar, Aurangabad and Raichur. When it was in general progress and sprouts appeared, heavy rains fell and interrupted operations. Fields in some tracts of Adilabad and Bidar were water-logged and plants submerged. The tender crop in the Bidar area was completely lost necessitating resowing. At the same time in small tracts of Warangal and Nalgonda moisture reserve was too low and crop in the latter area languished. Insect pests appeared in Medak, Mahbubnagar and Nalgonda.

Rainfall continued in Shehrewar, moderate to heavy in Telingana and light in Marathwara. The crop in Nalgonda revived but continuous falls in parts of Aurangabad, Bir, Parbhani, Nander and Bidar were definitely harmful and field work, especially weeding, had to be suspended in some places. Towards the latter half of the month crop in the northern areas of the Dominions deteriorated. A break in the rains during the last days of the month brought much needed relief but it was of short duration. Weeding was resumed and the crop showed signs of improvement, but the rains continued in Mehirk—heavy in some of the central districts for a few days—and the prospects of the crop further diminished. Excessive soil moisture in many districts injured the crop; whereas more rain was needed in some places of Nalgonda and Raichur.

Under such weather conditions, some minor crops attained maturity and harvesting began at the end of Mehirk. Aban was as much rainy as the previous month and the crop continued to deteriorate. Jawar in Osmanabad became discoloured and insect menace was severe in some villages of Raichur. Harvesting was in progress when the year closed.

Abi.—Abi sowing commenced in proper time early in Amardad. Transplantation of seedlings was commenced

at the close of the same month in Warangal and Nalgonda. The growth was normal and uneventful until the second week of Mehir when insects attacked the crop in Adilabad and continuous rains spoiled it in the same area as well as in Nizamabad and Nalgonda. A plant disease afflicted the crop in Medak, Warangal and Karimnagar in Aban. In other areas the condition of Abi was reported to be fair to good.

Rabi.—Rabi sowing began under favourable conditions early in Mehir and healthy sprouts appeared; but in the first week of Aban rains interrupted seeding operations in Adilabad and Gulbarga and subsequently in Bir. When the year ended it was reported that the soil was too wet in Aurangabad, Bir, Gulbarga and Bidar for the reception of seed. In other parts, sowing was in progress.

Sugarcane.—The crop planted early in the year was growing well toward maturity.

Live-stock.—Water supply at the beginning of the period under report was deficient in as many as twelve districts, exceptions being Nizamabad, Aurangabad and Nander. Rainfall being continuous tanks and ponds received a good supply, but from stray tracts of Aurangabad and Raichur reports of insufficient water continued till the end of the year.

Fodder shortage in Warangal, Karimnagar, Medak, Nalgonda, Bir, Raichur and Bidar was overcome a month after the monsoon set in and pasturage became abundant.

Infectious diseases among cattle were prevalent here and there, the principal areas being Medak, Karimnagar, Adilabad, Nalgonda, Nizamabad, Mahbubnagar in Telingana, and Aurangabad, Bir, Parbhani, Nander and Bidar in Marathwara. At the close of the year parts of six Telingana districts and Nander in Marathwara had been infected.

Market Rates.—The retail market for rice, wheat and jawar was practically steady at $7\frac{1}{4}$, $7\frac{1}{4}$ and $14\frac{3}{4}$ seers respectively per O.S. rupee.

SECTION XXIII—Agriculture
(a) General 1347 F. (1937—38)

XXIII.—AGRICULTURE.

Agriculture.

Out of a total area of the Dominions (52,926,720 acres) 50 per cent. was sown to different crops, and 10 per cent. was not available for cultivation. Forests covered 12 per cent. of the area, Inam lands claimed 14.5 per cent., culturable waste 4.5 per cent., and current 9 per cent.

The area irrigated from canals, tanks and wells amounted to 1,592,972 acres, *i.e.*, 6 per cent. of the total area sown, the crops irrigated being rice, wheat, barley, jawar, bajra, maize, other cereals and pulses, sugarcane and other food and non-food crops.

Jawar embraced 32.2 per cent. of the area sown in 1347 F., cotton 13.5 per cent.; bajra 8 per cent.; ground-nut 5.4 per cent.; wheat and gram 5 per cent. each; rice 4 per cent.; castor and vegetables 2 per cent. each.

The land revenue assessed worked out at the rate of Rs. 2-9-11 per head of population or Rs. 1-5-8 per acre of cultivated land.

AGRICULTURAL DEPARTMENT.

For the development of agricultural industry Government has a staff of 57 officers and 15 demonstration farms. The cost of the Department of Agriculture in 1347 F. was Rs. 5.8 lakhs.

Sept. 1933.

No. 9.—*Brief History of the Department of Agriculture (Zira-at).*

1. Established in 1322 F. (1913).
2. Heads of the Department and the period of their tenure:—

Directors.

1. Mr. John Kenny .. 1-2-1322 to 14-3-1328 F.
2. Mr. Mazhar Hussain,
 M.A., B.Sc., .. 15-3-1328 to 22-4-1339 F.
3. Dr. Harold H. Mann,
 D.Sc., .. 23-4-1339 to 11-6-1339 F.
4. Mr. Nizamuddin Hyder 12-6-1339 (continuing).

3. *History.*—The Agricultural Department was established in 1322 Fasli with the main object of saving the indigenous long staple Gaorani cotton from deterioration, and displacement by the imported short staple “Bharat” cotton. Arrangements were made for supply of pure seed to the cultivators. During the period from 1322 to 1339 Fasli, the work of the Agricultural Department extended with the establishment of experimental farms at Alir, Kamareddi, Sangareddi, Mahbubnagar, Parbhani and two farms at Himayatsagar one for agriculture in general and one for cattle breeding and dairying. An Engineering section was also opened, during the same period, for the introduction of improved agricultural implements and for assisting the public in boring of tube-wells and installation of oil Engines and pumps. An oil Engine class was opened to train Engine Driver. A thorough reorganisation was effected in 1337 Fasli with full equipment of the experimental farms, since then the activities of the department have extended, more so in all directions. A further reorganisation was effected in 1341 Fasli. The Engineering Section was Subdivided into two section—boring and Machinery—subsequently.

The Department at present has four Main Experimental Farms at Himayatsagar, Parbhani, Warangal and Raichur and the following other farms:—

Experimental Farm, Sangareddy, Medak.

Experimental Farm, Rudrur, Nizamabad.

Poultry Farm, Himayatsagar.

Experimental Farm, Mahbub Bag, Parbhani.

Cotton Variety—Testing Station, Mudhol, Nander.

Cotton Variety—Testing Station, Latur, Osmanabad.

All the three last-named farms are temporary and are meant for Cotton Research work. The farms at Latur and Mudhol are subsidized by the Indian Central Cotton Committee, Bombay.

For Research work the Department at present has sections of Botany, Chemistry, Entomology and Poultry Breeding.

There is also a separate Horticultural Section under a Horticulturist. This section has its gardens at the Departmental Farms and Depots for the supply of stock in some of the districts.

The Department had an agricultural association and a monthly agricultural magazine first under the name of "Rahbari-mazareen" and then as "Hyderabad Farmer", which is still issued quartely.

4. *Chief Functions.*—The functions of the department are (a) Research and Experiment for the improvement of agriculture in all its branches, and (b) Demonstration and Propaganda for introducing the improvements in the country. The research and experimental work is carried out at well-equipped experimental farms, which have been established at Himayatsagar (Hyderabad City) Sangareddy (District Medak), Rudrur (District Nizamabad), Parbhani, Warangal and Raichur

(a) On the Research side, the Botanical section is doing plant breeding on rice, castor, wheat and jawar. Cotton breeding work is being done by a special staff, which is paid by the Indian Central Cotton Committee. The Chemical section is mostly engaged with analytical work in connection with plant improvement and soil

management. The Entomological section is working on the control of the most important insect pests, such as Castor Semi-looper and Red Hairy Caterpillar. The Cattle Breeding Farm is working on the improvement of the Malvi and Krishna Valley breeds of cattle, and the Poultry Farm is engaged in experiments to find out the most suitable breeds of fowls. The Horticultural section is conducting experiments to find out the most suitable varieties of fruits and vegetables. Besides this, a large number of experiments are in progress at the above mentioned farms, which cover practically all aspects of agriculture, for instance, varieties of crops rotations, manuring, methods of cultivation, etc.

(b) The demonstration and propaganda work is being done by the special staff posted in the districts. Grant-in-aid farms have been established on cultivators' lands, where simple experiments and demonstrations are carried out. A large number of demonstration plots are arranged in the villages every year, for demonstrating the improvements to be introduced. Shows and demonstrations are held at the departmental farms, fairs and other public gatherings, where lectures are given accompanied with magic lantern shows. Practical training is given to farmers' sons at departmental farm and gardens, in improved methods of farming and gardening and in running of power pumping plants. The Rural Development Centre at Pattancheru is working on the improvement of the rural life in general, and it gives training to other rural workers.

5. *Achievements.*—The department has been successful in the introduction of improved sugarcane, groundnut and the improvement of rice and cotton crops. A large sugar factory has been put up in the Nizamabad district for manufacture of white sugar. The area under groundnut in the Telingana Division was negligible. Through the efforts of the Department it has expanded very considerably and rapidly in recent years, the area under the new varieties alone amounted to more than a lakh acres in 1346 F. The work on the improvement of cotton has also given very valuable results, the area under the new varieties alone amounted to about a lakh of acres in 1346 Fasli. Great success has been achieved in the eradication of the prickly-pear bushes by

the introduction of the Cochineal insect. The bush has disappeared almost completely from the State, leaving some good land for cultivation and other developmental purposes.

6. *Control*.—The Department has a Director assisted by four Deputy Directors, an Economic Botanist with his assistants, an Agricultural Chemist with his assistants, a Cotton Research Botanist with his assistants, a Horticulturist with his assistants, a Machinery Superintendent, and a set of Farm Superintendents, Agricultural Inspectors and subordinate agricultural officers.

SECTION XXIII.—Agriculture

(b) Crop Forecasts.

1346 F. (1936-37).

*No. 1.—Cotton forecast of area and outturn
(1937-38) 1346-47 F.*

(On an average of five years ending 1935-36, the area under cotton crop in these Dominions represents 14.90 per cent. of the total in India).

This is the fifth or final forecast which gives the estimated area under cotton, kharif and rabi, and also its probable outturn harvested or expected to be harvested.

The area is estimated at 3,563,018 acres, as compared with 3,080,007 acres during the corresponding period last year, showing an increase of 483,011 acres or 15.68 per cent.

The outturn in terms of bales is estimated at 570,262 bales as against 499,258 bales of last year, showing an increase of 71,004 bales or 14.22 per cent.

The final picking was completed in most parts under favourable weather conditions.

The statements showing district details and classified figures are appended.

No. 1.—THE FIFTH OR FINAL FORECAST OF COTTON CROP
IN H.E.II THE NIZAM'S DOMINIONS FOR THE YEAR

*No. 2.—Wheat forecast of area and outturn
1346-47 F. (1937-38).*

(On an average of five years ending 1935-36, the area under wheat cultivation in these Dominions has represented 3.7 per cent. of total area under wheat in India).

This is the fifth or final forecast and deals with the area under wheat and its estimated outturn.

The area is estimated at 1,355,444 acres, as compared with 1,307,796 acres during the same period last year, an increase of 47,648 acres or 3.64 per cent.

The outturn is estimated at 200,125 tons as against 199,572 tons during the corresponding period last year, an increase of 553 tons or 0.28 per cent.

The very small increase in outturn is due, as already stated in the previous forecast, to the unfavourable seasonal conditions during the development stage of the crop particularly in the chief wheat-growing districts of Parbhani, Gulbarga and Osmanabad.

The usual statement showing details by districts is appended.

*No. 3.—Rice forecast of area and outturn
1346-47 F. (1937-38).*

(On an average of five years ending 1935-36, the area under rice in these Dominions represents 1.60 per cent. of the total area in India).

This is the final forecast and deals with the area sown under rice and the quantitative outturn, harvested or expected to be harvested.

The area is estimated at 962,400 acres, as against 1,134,825 acres in the same period last year, showing a decrease of 172,425 acres or 15.22 per cent.

The outturn is estimated at 367,978 tons as compared with 418,318 tons during the corresponding period of last year, showing a decrease of 50,340 tons or 12.13 per cent.

The decrease in area and outturn is due to unfavourable seasonal conditions. The crop suffered from plant disease in few parts of the Nizamabad district and failed in a small area of the districts of Karimnagar, Medak and Nizamabad for lack of water.

The usual statement showing details by districts is appended.

*No. 4.—Jawar forecast of area and outturn
1346-47 F. (1937-38).*

(On an average of five years ending 1934-35, the area under jawar in these Dominions represents 27.06 per cent. of the total area under jawar in India).

This is the final forecast which deals with the area under jawar crop and its estimated outturn, harvested or expected to be harvested.

The total area is estimated at 8,479,975 acres, as against 9,249,520 acres during the corresponding period last year, showing a decrease of 769,545 acres or 8.32 per cent.

The outturn is estimated at 1,308,328 tons, as compared with 1,571,285 tons in the same period last year, showing a decrease of 262,957 tons or 16.74 per cent.

The crop was affected slightly by rains at maturing stage in a few parts and by lack of moisture in a few others.

The usual statement showing details by districts is appended.

*No. 5.—Sesamum forecast of area and outturn
1346-47 F. (1937-38).*

(On an average of five years ending 1934-35, the area under sesamum crop in these Dominions represents 9.61 per cent. of the total area in India).

This forecast deals with the area under sesamum and the quantitative outturn harvested or expected to be harvested.

The area is estimated at 548,401 acres, as against 546,817 acres during the corresponding period last year, showing an increase of 1,584 acres or 0.29 per cent. And compared with the second, the increase works out at 33.55 per cent., mostly in Telingana, due partly to complete returns of Kharif and partly to further returns of Rabi. In the Marathwara tract, Rabi returns have been received from the Nander district only.

The outturn is estimated at 40,399 tons, as against 40,684 tons during the same period last year, showing a decrease of 285 tons or 0.70 per cent. The decrease is due to insufficient moisture in some of the sesamum producing tracts during the development stage of the crop and consequently less anna estimation.

The usual statement showing details by districts is appended.

XXIII.—(b) AGRICULTURE.

No. 6.—Linseed and Mustard Crop forecast of area and outturn 1346-47 F. (1937-38).

(On an average of five years ending 1935-36, the area under linseed and mustard crops in these Dominions represents about 9.4 and 0.02 per cent. respectively of the total area under these crops in India).

The final forecast deals not only with the area of linseed and mustard crops but also with the quantitative outturn, harvested or expected to be harvested.

The area and yield under the above crops as compared with the last year are as follows:—

Crops	Acreage		P. C. of variation	Outturn		P. C. of variation
	Current year	Previous year		Current year	Previous year	
Linseed	471,167	467,512	+ 0.78	41,193	43,567	— 5.45
Mustard	9,813	11,185	—16.36	559	710	—21.27
Total ..	480,480	478,647		41,752	44,277	..

The total area is estimated at 480,480 acres as against 478,647 acres in the same period last year, showing an increase of 2,433 acres or 0.51 per cent.

The outturn is estimated at 41,752 tons, as compared with 44,277 tons in the corresponding period last year, showing a decrease of 2,525 or 5.70 per cent. The decrease in outturn is due to unfavourable seasonal conditions, especially in the Marathwara districts of Gulbarga and Osmanabad, which are among the linseed growing districts.

The usual statements showing details by districts are appended.

XXIII.—(b) AGRICULTURE.

No. 8—*Castor and Miscellaneous Oil-seeds forecast of area and outturn 1346-47 F. (1937-38).*

(On an average of five years ending 1934-35, the area under castor crop in these Dominions represents 51.9 per cent. of the total area under this crop in India).

This final forecast deals with the area occupied by the castor and miscellaneous oilseed crops and the quantitative outturn, harvested or expected to be harvested.

The area and out turn under different oilseeds as compared with those in the previous years are as follows:—

Crops	AREA IN ACRES			OUTTURN IN TONS		
			P.C. of variation			P.C. of variation
	Current	Previous year		Current year	Previous year	
Castor	520, 41	781,365	—33.13	40,372	65,905	—38.74
Misc. crops (karar, karila & ambala)	595,810	577,020	+15.21	24,180	18,229	+32.65
	1,115,957	1,298,385	..	64,552	84,134	..

The total area is estimated at 1,115,957 acres, as compared with 1,298,385 acres during the same period last year, showing a decrease of 182,428 acres or 14.05 per cent. The decrease in castor acreage against last year is due to insufficiency of rainfall in the main castor-growing districts of Mahbubnagar and Nalgonda as already stated in the previous forecast.

The outturn is estimated at 64,552 tons as against 84,134 tons during the corresponding period last year, showing a decrease of 19,582 tons or 23.27 per cent.

The usual statements showing details by districts are appended.

XXIII.—(b) AGRICULTURE.

No. 9.—*Sugarcane forecast of area and outturn* 1346-47 F. (1937-38).

(On an average of five years ending 1935-36, the area under sugarcane crop in these Dominions represents 1.2 per cent. of the total area in India).

This is the third or final forecast and deals with the area under sugarcane crop and its estimated outturn harvested or expected to be harvested.

The area is estimated at 30,446 acres, as against 57,951 acres during the corresponding period last year, showing a decrease of 27,505 acres or about 45.04 per cent.

The outturn in terms of gur is estimated at 60,271 tons, as compared with 123,503 tons of last year, showing a decrease of 63,232 tons or about 51.20 per cent.

The decrease in area is due in part to inadequate rainfall at the sowing time but mainly to the heavy slump in the price of gur. The decrease in outturn is due to unfavourable seasonal conditions during the development stage of the crop. The crop is now being cut in the districts of Nizamabad and Adilabad.

The statement showing details by districts is appended.

*No. 10.—Tobacco forecast of area and outturn
1346-47 F. (1937-38).*

(On an average of five years ending 1936-37, the area under tobacco in these Dominions represents 5.57 per cent. of the total area in India).

This forecast deals with the area under tobacco and gives the outturn harvested or expected to be harvested.

The area is estimated at 62,860 acres, as against 64,994 acres of last year, a decrease of 2,134 or 3.2 per cent.

The outturn is estimated at 16,603 tons, as compared with 16,954 tons during the corresponding period last year, a decrease of 351 tons or 2.07 per cent.

The usual statement showing the details by districts is appended.

SECTION XXIII

Agriculture

(c) Crop Reports 1347 F.

GENERAL.

Crop Improvement Work in 1937-38 (1346-47 Fasli).

Rice.—The Hyderabad State had nearly a million acres under rice (962,400 acres in 1937-38) but produced about 367,978 tons of rice. Plant breeding work had given two early types, Himayatsagar Nos. 263 and 504, the former coarse and the latter fine. The area under them in 1937-38 was 2,622 acres. Other more promising types were under test.

Manurial experiments have shown that Nitrogen is the chief requirement of the Hyderabad rice soils, and Nicifos and castor cake have given satisfactory results. The best Nitrogen; phosphoric Acid ratio was found to be 1:1.

A large number of Rabi crops were being tried in place of the Tabi rice, for the areas where two crops of rice were grown in the same year of which the second suffers from water scarcity in certain districts. Onion and garlic have proved profitable substitutes.

Tobacco.—The area of tobacco in the State was 62,860 acres. The cigarette factories of Hyderabad import most of the leaf for their requirements from Madras Presidency. Experiments with different varieties of tobacco and with imported types for production of leaf for cigarette of superior kind have been in progress under a scheme of the Imperial Council of Agricultural Research. The Virginian variety, Harrison's Special, has given encouraging results.

Cotton.—The area of cotton in the State was 3,563,018 acres. The improvement of the accuracy of the official cotton forecasts in India has been receiving the close attention of the Indian Central Cotton Committee, through its Cotton Forecast Improvement Sub-Committee specially constituted for the purpose.

A practical step in this direction was taken by the Committee in 1934 with the financing of a scheme for the improvement of cotton forecasts of the Bombay Presidency and Sind (including Indian States) for five years. The investigation has already resulted in the discovery of several sources of errors in the different factors involved in the compilation of cotton forecasts and the necessary remedial measures have been adopted.

The work of improvement of the Gaorani cotton under the Botanical Research Scheme financed by the Indian Central Cotton Committee has produced an improved strain, Gaorani 6, which gives higher yield and ginning outturn and has a staple possessing better spinning qualities than the ordinary Gaorani. It was grown by cultivators on an area of 27,000 acres in 1937-38. Plant breeding work for the improvement of the Kumpta cotton of the Karnatik Division has been started under a scheme of the Indian Central Committee. Two improved varieties of cotton of the Bombay Presidency, Jayawant and Cadag No. 1, have been introduced in the Raichur district, under a scheme of the Indian Central Cotton Committee. The seeds of the same were distributed for an area of 21,092 acres in 1937-38. The experiments carried out at the Government farms have shown that it is possible to produce a satisfactory crop of cotton on deeper types of Chalks soil of Telingana without irrigation in the Kharif season.

As a result of the Cotton Boll-worm Investigation, which has been in progress under a scheme of the Indian Central Cotton Committee, it has been found that by preventing the carry-over of the insect from one season of cotton to the following season, the loss to the crop can be reduced very considerably. With a special grant sanctioned by the Committee, the methods of control of the insect are being tried on large scale. It was done in 230 villages of the Nander district in 1937-38.

Castor.—More than half of the area under castor in India was concentrated in the Hyderabad State (520,141 in 1937-38). The work on the improvement of this crop was subsidized by the Imperial Council of Agricultural Research. Some promising strains have been evolved which give higher yield of seed containing larger

quantity of oil than the ordinary variety. These new strains were being tested on field scale.

The Castor-Semi-looper insect attacks the castor crop in very large numbers and eats up all leaf and shoots of the plants in a very short time. Spraying the plants with a poison to kill the insect was successfully demonstrated in 1937-38 on an area of 1,909 acres in Mahbubnagar and Nalgonda districts.

Jawar.—Hyderabad has nearly nine million acres (8,479,975) under Jawar, representing over 27.06 per cent. of the total area under the crop in India. During 1937-38 the area decreased by nearly eight lakhs of acres. The estimated yield for the year was 1,308,328 tons. As a result of plant breeding work in progress, with both Kharif and Rabi Jawars, two strains have been evolved which have shown definite promise of giving higher yields than the ordinary variety.

Wheat.—The area of wheat in the State was 1,355,444 acres. As a result of plant breeding work in progress on the crop, six new strains have been evolved which have given promise to be definitely superior to the ordinary variety.

Sugarcane.—The area of sugarcane in the State was 30,446 acres. A large number of varieties of sugarcane have been under trial at the various Government farms. Those which have already proved successful were Coimbatore Nos. 213 and 290 and P.O.J. 2878. The area under them in 1937-38 was 5,435 acres. The introduction of these new varieties has made manufacture of sugar on commercial scale possible in the Nizamabad canal area. A large factory has been put up, which has commenced working.

The experiment to find out the optimum planting time sugarcane has shown that November to January is the best time for obtaining good outturns.

Groundnut.—The area of groundnut in the State was 1,437,509 acres. As a result of the experiments with a number of different varieties it has been found that two varieties Spanish Peanut and Kankee No. 17 were more profitable than the ordinary variety. The area under them in 1937-38 amounted to 174,419 acres.

The Seed Rate Experiment with groundnut has shown that 60 to 80 lbs. of seed should be sown per acre to obtain a full crop.

An experiment was in progress to see whether it is possible to produce a satisfactory crop of groundnut in the Rabi season under irrigation. The results so far obtained were encouraging.

Other Crops.—Experiments were also in progress at Government farms with different varieties of Bajra, gram, linseed and Tur, with the object to find out the most profitable types in them. Of the promising varieties so found out, the Cawnpore Awned variety of Bajra has definitely shown its superiority over the ordinary variety. The area under it in 1937-38 amounted to 1,805 acres. It became very popular in the Eastern districts of the State.

Fruits.—Experiments have been in progress at Government farms with different varieties of different kinds of fruits with a view to find out the most successful ones for growing on large scale. Basrai, Red and Soni varieties of Banana; Maisaram variety of fig; Bhokri variety of grape; Californian variety of grape-fruit; Allahabad Safaidda variety of guava; Gujrat and Hwaiian varieties of papaya; Singapore Queen variety of pineapple and Oval and Round varieties of Sapodilla have been found satisfactory. The Lucknow Dasavari variety of Betel-vine has also proved successful. The area under fruits in the State has increased by about two lakhs of acres in recent years.

Dry Farming.—Research in Dry Farming was done at the Raichur Farm, under a scheme of the Imperial Council of Agricultural Research. A large portion of Karnatik is subject to periodic famines, on account of uncertainty of rains. The object of this scheme is to find out such methods of crop growing and varieties of crops as would give satisfactory outturns even under uncertain and severe conditions. Some promising and encouraging results have been obtained from varietal experiments with Setaria, Rabi Jawar and Cotton, spacing experiments with Jawar and some cultural experiments. Chemical, physical and meteorological studies were also

made. Very useful data were collected, which is expected to give results of great practical value in course of time.

Aided farms and demonstration plots were laid out in many villages. Demonstration and propaganda work controlled by District Agricultural Officers is at present being done in 14 out of 16 districts of the State. There are nearly 2,967 demonstration plots in the State.

In Hyderabad, three embankment schemes were prepared during the year under report for three different places in Raichur district.

In Hyderabad, the department supplied 754 implements and 1,304 spare parts during the year. Improved iron ploughs were getting popular in Godawari and Karnatak divisions where the cultivators have realised that they are much more efficient in removing deep rooted weeds. The greatest success has been achieved in the introduction of machines and appliances in connection with sugarcane cultivation. There were 55,509 iron ploughs used at present in the districts. Some manufacturers of agricultural implements have opened agencies in the districts.

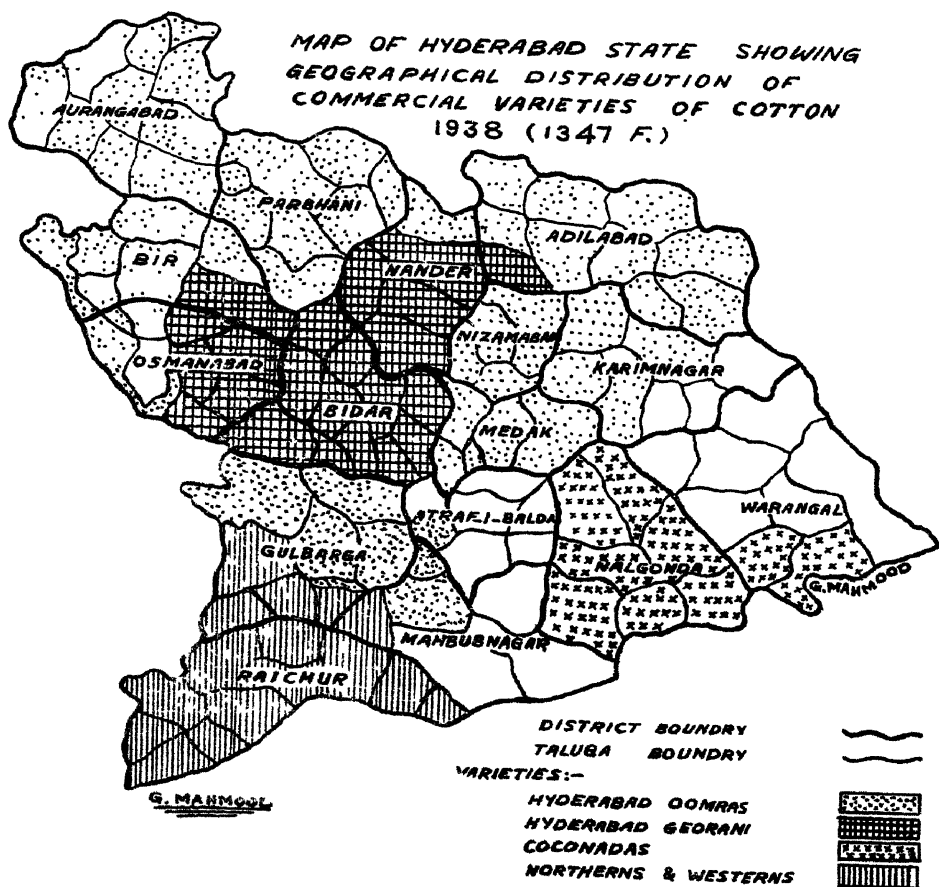

In Hyderabad, castor and groundnut cakes, being available locally, were pushed by the department and their use was increasing gradually. Ammonium sulphate was recommended to sugarcane growers. Nicifos was recommended for manuring paddy in addition to some farmyard manure and castor cake. Its use was found extending gradually. Artificial fertilisers and manures were sold for an area of 1,469 acres through the departmental agency of the Imperial Chemical Industries. This does not include the quantity sold by the firm direct to the cultivators. Demonstration of compost was continued in aided farms and on other lands in villages.

The two night schools at Patancheru and Teegalnagram villages continued to function, twenty-five villagers were taught during the year under report.

At Patancheru, the Rural Development Centre was serving as an institution for training rural development workers for the Dominions. Training in all the aspects of rural improvement was given to thirty-five teachers of the village primary schools in 1937-38. The

workers trained there were doing development work in their villages. The class for oil engine drivers was continued under the supervision of the Machinery Superintendent. Two classes, each of three months duration were held during the year. Nineteen students attended the class in 1937-38 of which fourteen passed successfully. This class has turned out 146 engine and pump drivers since its inception. The two-years gardeners' class was continued under the supervision of the horticulturist. Practical training was given in all operations connected with growing of fruits, vegetables and flowers. There were nine students on the rolls in 1937-38. In the two-year farmers' classes at Himayatsagar and Parbhani out of twenty-three and eighteen students on the rolls respectively, eleven passed from the former while ten from the latter.

NO: 17. (XXIII (C) - 1)

Cotton Crop Report.

1346-1347 F. (1937-1938).

The Dominions of H.E.H. the Nizam constitute an important cotton-growing centre of India. The annual acreage under this crop represents roughly 15 per cent. of the area commanded by India and the produce about 25 per cent. of the total Indian yield. Thus the Dominions rank third as regards acreage and fourth as regards yield in the Indian Empire.

Cotton cultivation is generally rotated with jawar and in some places with wheat, gram and linseed.

Trade Classification.—Four well-recognised trade varieties are grown in this territory, viz., Gaorani (or Bani), Oomras (Havri), westerns and northern (Kumptas) and Cocanadas. The first and third are the famous fine, soft silky, long staple cottons of Hyderabad and the second and fourth are short staple strains. The areas occupied by them are shown in the subjoined map.

Government realising the importance of Gaorani and northern and westerns, declared the tracts wholly devoted to these crops as protected by the Cotton Cultivation and Transport Act of 1929. The Act prohibits the entry into the protected areas of seeds and cotton of other description.

Gaorani embraces the whole of Nander and Bidar districts and the talukas of Nirmal (Adilabad district), Latur (Osmanabad district) and Mominabad (Bir district). This cotton is creamy white, medium to long staple, fine cotton and is noted for the strength and silkiness of its staple. It is suitable for 24-30's warp counts.

Oomras occupies Aurangabad, Parbhani, Nizamabad, Karimnagar, Medak and Mahbubnagar districts and the parts of Adilabad, Osmanabad and Bir districts not covered by gaorani; Gulbarga and parts of Raichur not falling within the area of westerns and northern (Kumptas) are also devoted to Oomras. This cotton is white to dull white in colour, short staple and coarse, suitable for 9-12's warp counts. Mungari (early sown)

crop in Gulbarga and Raichur districts is included in Oomras.

Westerns and Northern (Kumptas) is creamy white, medium staple, fairly fine cotton, suitable for 20.24's counts. It is grown in the protected areas or Raichur and parts of Gulbarga. The Hingari (late sown) cotton comes under the category of Kumpta.

Cocanadas is cultivated in Nalgonda district and the southern part of the Warangal district. Some parts of Karimnagar, Mahbubnagar and Atrai-i-Balda districts also grow this variety. It is brown in colour, medium staple and fairly fine and is used for spinning, 16.20's warp counts.

Seasonal Conditions.—The south-west monsoon being capricious the cotton crop of the year suffered. Sowing was delayed as the monsoon appeared late and at the close of June (Amardad) cotton sprouts in Aurangabad and Gulbarga became stunted for lack of soil moisture and sowing had to be suspended for the same reason in Gulbarga, Osmanabad and Raichur. There was no improvement in the first half of July (Shahrewar) the monsoon was weak and in parts sowing was in arrears. Towards the end of the month, it rained heavily in Nizamabad, Karimnagar, Adilabad, Medak, Nander, Parbhani and Bidar, whereas in Mahbubnagar more rain was desired. In August (Mehir) crops in parts stood in need of soil moisture. Under such adverse seasonal conditions the crop grew and picking commenced in September (Aban). In October (Azar) rabi cotton sowing began. The rains in this month in some places of Aurangabad and Parbhani interfered with the picking operations.

November (Dai) was dry and picking proceeded uninterrupted; but in parts of Mahbubnagar, Nalgonda, Gulbarga, Raichur and Bidar, moisture need was aggravated.

Hail-storm in December (Bahman) damaged the cotton in the northern area, Parbhani suffering 20 per cent. loss on the yield. Rabi also was affected by hails and a cold wave.

Rabi in January (Isfandar) stood in need of moisture in Telingana and in Gulbarga, Osmanabad and Raichur. Hail-storm in Raichur in February (Farwardi) injured crop. Picking of rabi cotton was done between March and April (Ardibehisht and Khurdad).

The rainfall for the season was 26.53" as against a normal or 30.07".

Area.—The area under cotton in the year under review was 3,563,018 acres as compared with 3,435,165 the quinquennial average—4 per cent. rise. The classification of acres under trade varieties is as below:—

Cotton	1347 F.	5 years average 1342-46	P. C. of Variatoin
Gaorani	959,259	909,806	+ 5
Oomras .. .	2,071,178	2,044,802	+ 1
Westerns and Northerns ..	518,068	454,013	+ 14
Cocanadas	14,513	26,545	— 45
Total ..	3,563,018	3,435,165	+ 4

Although cocanada acreage shrank by 45 per cent., there was a rise of 4 per cent. on the aggregate.

Outturn.—The estimated yield in the year was 570,262 bales as compared with 521,791 quinquennial average—9 per cent. increase. The outturn was better than was anticipated. Gaorani and Oomras had each 7 per cent. rise, while the westerns and northerns had 29 per cent. more. Cocanadas' yield was only 7 per cent. less while the area was 45 per cent. down.

Ginning and Pressing.—Cotton is largely machine-ginned and baled before being marketed. The number of ginning and pressing factories in 1346 F. was 238. The ginning percentage of gaorani is 25.28, Oomras 32.34, westerns and northerns (kumptas) 25.27 and that of

Cocoanadas 23.25. The rules framed under the Hyderabad Factories Act prohibit all malpractices of the factories such as watering of cotton, mixing of different varieties and false packing.

Export.—Only 69 per cent. of the yield was exported during the year, the actual number of bales being 394,285 (459,937 bales) in 1346-47 F., of which 31 per cent. went by cart track. The details are given below:—

	Road	Rail	Total
1346-1347 F. ..	123,234	273,051	394,285
1345-1346 F. ..	95,988	363,949	459,937
1344-1345 F. ..	88,271	285,537	373,808
1343-1344 F. ..	61,031	208,171	289,201
1342-1343 F. ..	73,394	292,613	366,007
1341-1342 F. ..	67,028	278,531	345,559

The monthly export is illustrated in the annexed chart.

Market Rates.—Since the enforcement of a Agricultural Markets Act of 1338 F. (1929 A.D.), the disabilities under which the producer laboured in the disposal of his goods diminished. Regulated markets are 15 in number in the following centres:—Nander, Umri, Sailu, Jalna, Latur, Hingoli, Warangal, Raichur, Aurangabad, Adilabad, Partur, Badepalli, Khammam, Bhaisna and Nizamabad. The principal markets of Jalna and Nander were weak, the demand for cotton being poor. In Jalna kapas per palla of 140 seers opened at Rs. 16-12-0 in November (Dai) and closed at Rs. 15-0-0 in June (Amardad). Lint cotton's opening and closing prices for the season being Rs. 45-8-0 and Rs. 41-12-0 respectively. The Nander market for Bani Kapas was at par with that of Havri, both beginning at Rs. 18-11-0 per palla in November (Dai). Bani closed at Rs. 19-9-0 and Havri Kapas at Rs. 18-11-0 in March (Ardibehisht). Cotton lint in the same market declined from Rs. 63 in April (Khurdad) to Rs. 53-8-0 in September (Aban) per palla.

The trend of these principal markets is shown in the following chart:—

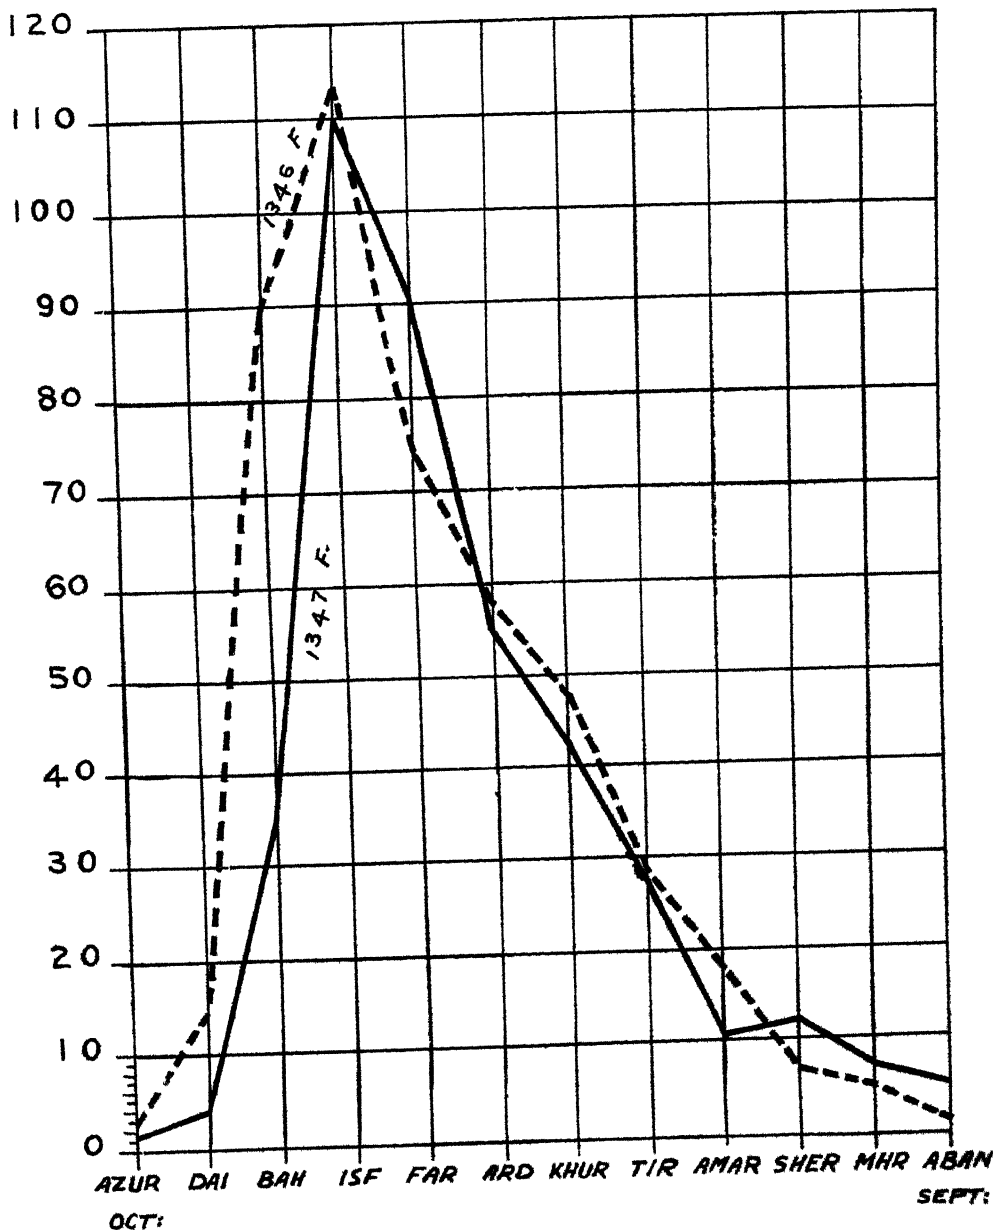

Mill Consumption.—The six weaving mills in the Dominions used 63,705 bales of raw cotton as compared

NO: 18 (~~XXIII~~ (C) - 1)

COTTON (IN BALES) EXPORTED

1347 F. (1937-38)

IN THOUSANDS

with 51,276 bales in the previous year. Their monthly consumption are set forth below:—

	1347 F. (1937-38)	1346 F. (1936-37)
October (Azur) ..	5,170	3,658
November (Dai) ..	4,910	3,951
December (Bahman) ..	5,322	3,855
January (Isfandar) ..	5,614	4,148
February (Farwardi) ..	5,058	3,901
March (Ardibehisht) ..	4,979	4,206
April (Khurdad) ..	5,150	4,215
May (Thir) ..	5,297	4,770
June (Amardad) ..	5,148	4,433
July (Shahrewar) ..	5,655	4,307
August (Mehir) ..	5,782	4,829
September (Aban) ..	5,816	5,003
	<hr/> 63,901 <hr/>	<hr/> 51,276 <hr/>

Stock Census.—A census of stock of cotton in all forms was taken on 31st August 1938 showed that there remained in godowns and warehouse 105,114 bales of ginned cotton, 15,364,717 lbs. of ginned but unpressed cotton and 21,580, 918 lbs. of kapas or a total of 161,510 bales in terms of lint cotton.

GROUNDNUT CROP REPORT

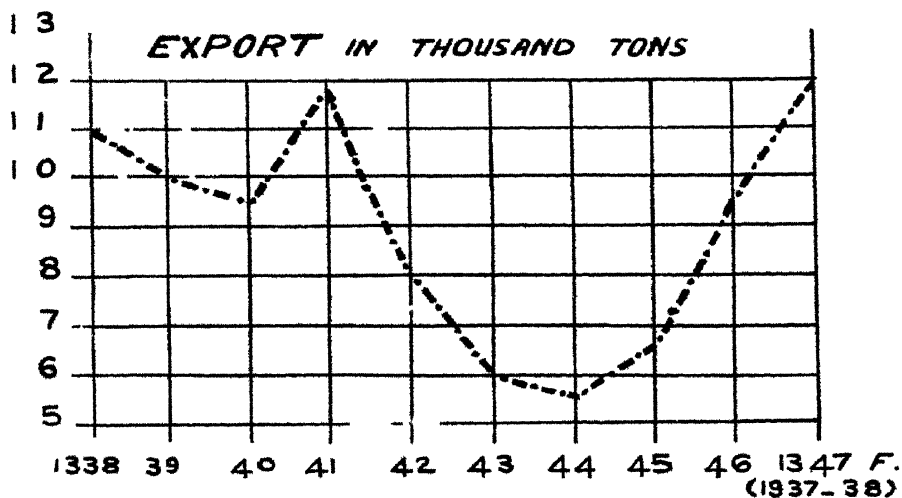

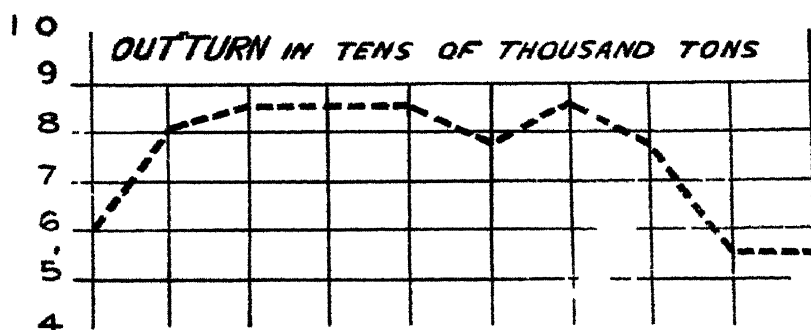

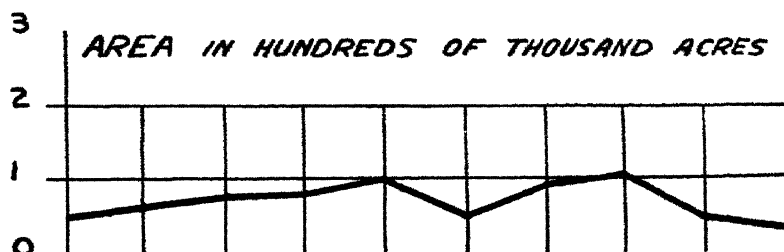

(*Arachis Hypogæa*).

No other crop has assumed such a degree of importance in the economy of agriculture during the last fifteen years as groundnut. Since 1924 (1333 F.) the acreage under the crop has advanced so much that the percentage increase in 1938 (1347 F.) was well over 500 per cent. Is its expansion at the expense of any other crop and what are the factors which influenced it? An analysis of the agriculture returns shows that since 1922 (1331 F.), the jawar areas has shrunk by well over a million acres and that of castor by half a million acres. Jawar, as money crop is relatively unimportant. Castor, owing to foreign competition, has steadily lost its position in the world market, the output of the seed from India has of late diminished. Thus both the crops which grow on light soil appear to have yielded ground to groundnut. Consequently, the area under groundnut in Hyderabad, which fifteen years ago represented only 5 per cent. of India's acreage, is now 17 per cent. and occupies third place among the groundnut yielding Provinces of India, Madras and Bombay leading with 48 and 26 per cent. respectively. Another factor which helped the expansion of groundnut cultivation is the increasing demand for this raw material from countries which had been rearming and consuming food supplies during the past five years. From groundnut is manufactured vegetable ghee, a good vegetable substitute for butter. For this reason, not only Hyderabad but also some other parts of India attached more importance to groundnut production. The percentage increase of Madras area under this crop in the year under review was 54.2 on the average of the preceding five years; that of Bombay 41.3; Hyderabad 35.7 and Central Provinces and Berar 30.3. There has likewise been a rise in the output in all these areas, the percentage increase in 1938 (1347 F.) over the average of preceding five years being 67.6 in Hyderabad, 38.6 in Madras, 34.1 in Central Provinces and Berar and 21.5 in Bombay.

NO: 19 (XXIII (C)-2)

AREA , OUTTURN & EXPORT OF CASTOR

1338 TO 1347 F (1928-29 TO 1937-38)

The following chart illustrates the advancement of groundnut cultivation during the past ten years.

Groundnut is both a kharif and rabi crop. It is rotated with castor and jawar in the dry regions and it can be rotated with rice in the irrigated tracts. Until recently Telingana paid little attention to groundnut. As late as 1335 F. (1925-26) the total area under groundnut was not more than 3,000 acres. The principle centres were Adilabad, Medak, Nizamabad and Mahbubnagar. Subsequen'tly, not only did these districts rapidly extend the area but the other districts also took to groundnut cultivation. Thus in 1938 (1347 F.) the area in Telingana districts was 627,538 acres or 43.6 per cent. of the total area. Warangal had 202.6 thousand, Mahbubnagar 201.7 thousand and Nalgonda 164.4 thousand acres. In Marahittwara the chief centres of cultivation are Osmanabad, Gulbarga, Raichur and Bidar, their respective acreage in 1938 (1347 F.), being 203 thousand 190.9 thousand, 130 thousand and 119.9 thousand respectively. The subjoined map shows the density of the crop.

From the above it is evident that Hyderabad commanded in 1938 (1347 F.), 1,437,509 acres as compared with 1,736,000 acres in U.S.A. and 1,730,000 acres in Fresh West Africa (Senegal). Hyderabad's area represented 8 per cent. and that of India 40 per cent. of the total world groundnut area.

Yield.—Up to 1930 (1339 F.) the crop yield had been considerably underestimated. In that year, for instance, Nander reported a harvest of 29 lbs., per acre whereas the seed rate alone is 60 lbs. per acre. In 1931 (1340 F.) the method of calculation was put on a rational basis. The normal yield is now reckoned to be not less than 1,000 lbs. per acre. In Mahbubnagar and Nalgonda, however, 1,100 lbs. have been fixed. But neither in these nor in other parts has the yield approached at any time the normal. The actual outturn in 1938 (1347 F.) was only 55 per cent. of normal in Telingana and 53 per cent. in

Marathwara. Expressed in lbs. the Dominions' average yield during the past few years is as follows:—

Years			Acreage	Yield in tons	lbs. per acre
1930	(1339 F.)	..	618,737	144,720	520
1931	(1340 ,,)	..	691,375	164,840	535
1932	(1341 ,,)	..	772,796	213,239	606
1933	(1342 ,,)	..	1,118,089	315,949	641
1934	(1343 ,,)	..	1,384,422	373,603	605
1935	(1344 ,,)	..	961,537	224,432	522
1936	(1345 ,,)	..	1,059,445	286,901	608
1937	(1346 ,,)	..	953,575	316,473	743
1938	(1347 ,,)	..	1,437,509	476,471	742

The yield of Hyderabad in 1938 (1347 F.) is comparable with 580 thousand tons in the U.S.A. and 461 thousand tons in Senegal (French West Africa) and represents 6 per cent. of the world's harvest.

Varieties.—Cultivators have no choice of any particular variety. That which is grown in the neighbourhood is considered to be suitable. The principal types of seeds are Bombay bold, Khandesh Ranchi and Big Japan. They are largely of a trailing variety suited to the soil and weather conditions. During the past few years, however, the Department of Agriculture has introduced Spanish peanut and kankee No. 17, which yield in bunches and are easier to harvest than the indigenous kinds. The area under these new varieties is about 150 thousand acres.

The oil content percentage of the different types of groundnut grown in these Dominions ranges between 45.70 in Spanish No. 3 and 50.16 in small Spanish, Bombay bold, grown in Parbhani, Nander, Osmanabad and Gulbarga is known to contain from 45.29 to 50.6 per cent.; coromandel (Mozambique) in Raichur from 45.78 to 49.91; Big Japan in Himayatsagar Farm 47.84. The

percentage of oil contents of groundnut grown in West Africa, East Africa and China are said to be 47.96, 45.88 and 44.54 respectively.

Export.—Out of the yield, 10 per cent. is reserved for sowing and 10 per cent. for eating. The oil mills furnish returns account for 2½ per cent. of yield for crushing. Another 2½ per cent. may be added for consumption by the screw presses. Thus about 5 per cent. of yield is consumed by mills. The rest is exported. The export figures for the last few years are:—

Years	With Shell	Without Shell	Pod nuts with Shell in thousand tons	Pct. of yield
1935 (1344 F.)	547	2 199	124	51
1936 (1345 F.)	709	2,773	160	56
1937 (1346 F.)	4,035	3,109	292	92
1938 (1347 F.)	1,273	5,328	300	63

Proportion of pod to kernel is taken as 25 : 75. The cause of such heavy export as 92 per cent. of yield in 1937 (1346 F.) was the fall in prices and the anxiety of the producer to sell away as much as he could.

Market Rates.—The price of groundnut in the districts markets are not recorded but that for the City of Hyderabad shows that since 1930 the rate steadily appreciated from Rs. 10 in October 1930 (Azar 1340 F.) for a palla of 120 seers to Rs. 15 in March 1933 (Ardibehisht 1342 F.). Thereafter, it began to depreciate to Rs. 7-14 in March 1934 (Ardibehisht 1343 F.). The tone of the market began to improve and the price touched Rs. 20 in January 1935 (Isfandar 1344 F.). After that date there were constant fluctuations to varying degrees until the rate receded to Rs. 9-8-0 in September 1938 (Aban 1347 F.).

Oil Pressing.—Decorticating and oil pressing industry is still undeveloped. There are altogether 165

decorticators and 106 oil mills in the State. These factories do not exist exclusively for groundnut industry. They also take in other oil seeds. Raichur has 34 decorticators and 17 oil mills, Gulbarga 33 and 20; Warangal 32 and 16 and Mahbubnagar 20 and 16 respectively. A large number of screw presses run by bullock power also work. During 1937-38 (1347 F.), 11.15 tons of seeds or 2.3 per cent. of the year's produce were pressed for oil as compared with 7,875 tons or 2.5 per cent. of the yield in 1936-37 (1346 F.)

Bye-Products.—Oil and cake are the bye-products; of late, the demand for groundnut oil has increased. The oil is hydrogenated and mixed with ghee. Several small scale factories are at work in Nalgonda, Warangal and Secunderabad for the manufacture of ghee of this quality. As many as seven brands of adulterated vegetable ghee are found in the market. In 1938 (1347 Fash), 4,886,370 seers or 4,363 tons of oil were pressed as compared with 2,811 tons in 1937 (1346 F.). Of the former 4,026 tons and of the latter 2,630 tons were exported from these Dominions to other parts of India. The local industry absorbed the rest.

Cake is largely exported. This is not separately entered in the trade returns. But of the cakes (other than castor cake) exported, groundnut cake no doubt forms a large bulk. The following figures for 'other' oil cakes are of importance:—

Years		In thousand maunds	Value in thousand
1347 F. (1938)	..	1,727	35,98
1346 F. (1937)	..	1,190	22,91
1345 F. (1936)	..	928	19,34
1344 F. (1935)	..	943	19,64

SECTION XXIV

Live-Stock

SECTION XXIV.

LIVE-STOCK.

The fourth quinquennial census of live-stock was taken in 1344 F., (1935) and the total number of cattle was found to have increased by 2 per cent. on the preceding quinquennium from 12,756,165 to 13,008,282. The average number of cattle per 100 of human population was 90.9. The density of cattle per square mile was 157 (168 in Telingana and 146 in Marathwara), and that per 100 acres of agricultural land being 23 (26 in the former and 25 in the latter division). The average number of animals per cultivation was 2.4 (2.3 in Telingana and 2.5 in Marathwara). The proportion of bulls to cows was 1:40 and that of working bullocks in pair to cultivated land in acres was 1:18.

Among the cattle as many as 6,375,850 or 9.6 per cent. were unserviceable (oxen 9.59 per cent. and buffaloes 8.66 per cent.). Young stock below 3 years of age numbered 2,931,334, of which 46 per cent. were under one year.

Buffaloes were 538,412 males, 1,315,185 females and 1,236,214 young stock. Of the males 13.2 per cent. were breeding bulls, 76 per cent. working animals and 10.8 per cent. unserviceable. Of the cows 83 per cent. were fit for breeding, 10 per cent. working animals and 7 per cent., useless. Young stock of the buffalo tribe numbered 1,236,214.

Sheep and goats numbered 5,936,400; horses and ponies 170,327; and their young stock 31,311; mules 1,578; donkeys 86,883 and camels 1,459; ploughs 1,390,054; tractors 286; carts 645,112; oil engines and pumps 416 and sugarcane crushers 8,173.

57,460 persons were engaged in cattle breeding and 330,949 in sheep farming.

On an average there were available in the Dominions 35 acres of grazing land for every 100 acres of net area sown. The percentage of grazing area to total acreage was 5.5 (6.7 in Telingana and 4.4 in Marathwara).

No. 10.—*Brief History of the Veterinary Department.*
(Ilaj-i Haiwanath)

1. Established on 24-4-1321 F. 1912 A.D.)
2. Heads of the Department and period of their tenure:—

Superintendent:—

1. Mr. Ali Bin Abdullah, 11 - 4-1341 F.

Directors.

2. Mr. Hugh Gough, .. 24 - 4-1321 to 10-11-1327 F.
3. Capt. Nawab Rais
Jung Bdr. .. 17-12-1327 to 29- 6-1342 F.
4. Dr. B. K. Badami,
G.B.V.C. .. 29- 6-1342 F. (Continuing).

3. *History.*—With the object of breeding horses in the country and to provide remounts for the State the Stud Department was established.

The Stud Department had a Superintendent until (1902) 1311 F., when after the death of Mr. Ali Bin Abdullah 11-4-1311 F., and until (1912) 1321 F., the Department was placed directly under the Finance Department. At the time there used to be one qualified Veterinary Surgeon in charge of the stallion depot at Sangaredy where a few brood mares were also maintained. There were salutreries one for each district for veterinary work and these were maintained from Local Funds. During this period stallions for district breeding posted in different taluqas were under the supervision of the Police Department, and then transferred to the Revenue Department under the supervision of Tahsildars.

A qualified veterinary surgeon was employed to attend to the diseases among cattle in Raichur district

when there was famine. In the year 1909 (1318 F.) 4 qualified veterinary surgeons were engaged for the four Revenue Divisions of the State.

Till 1318 F. Sangareddy was the only place where a Stud had been maintained but in the year 1318 F., experimentally a few mares were sent to Hingoli and after a few years this place became the chief centre for horse and cattle breeding.

A Director of the Department was appointed in 1321 F. (1912 A.D.) tentatively for 3 years.

In 1324 F., (1915) the Veterinary and Stud Department was made permanent.

To encourage horse breeding, in the year 1322 F. and 1323 F., 1,025 mares were purchased and given on takavi system to ryots.

The Sangareddy Stud Farm was found unsuitable and abolished in 1326 F. In addition to itinerant veterinary hospitals, 4 new stationary hospitals have been added to 14 stationary veterinary hospitals established at district headquarters and in the City of Hyderabad, thus providing a stationary veterinary hospital in each of the districts. Six of them are housed in Government buildings and a grant has been now made for building veterinary hospitals in all districts. The Cattle Breeding and Dairy Farm Himayatsagar was transferred from Agricultural Department to the Veterinary Department in the year 1347 F.

4. *Chief Functions.*—Chief functions of the Department are (1) the treatment of animals, and the prevention of contagious diseases. Infectious diseases carry away large number of live-stock, specially agricultural cattle, and effect of this on agriculture and rural economy and the revenue of the State is a very serious matter. (2) Stallions are posted in different tahsils of the horse breeding areas with a view to breed horses in the districts from private breeders' mares. At the Stud Farm Hingoli a number of brood mares and thorough bred and Arab stallions are maintained. The Hingoli Stud Farm experiments breeding remounts of the modern type for the army. Cattle breeding and distribution of Stud bulls of

the Deoni (Dongri) breed is also carried on at the Hingoli Stud Farm. For the present Krishna Valley and Malvi Breeds are maintained at the Himayatsagar Cattle Breeding Farm, Hyderabad, which also supplies pastuerised milk to the City of Hyderabad. Breeding bulls are posted in a number of places and this is receiving increasing attention. (3) To encourage horse and cattle breeding, shows are held and valuable prices are awarded for good exhibits. (4) Sheep breeding is also receiving attention. A flock of Bikaner sheep is maintained at Hingoli. (5) Post-Graduate Training is given to the Officials of the Department to maintain professional efficiency.

5. *Achievements.*—In the year 1343 F. cattle mortality registers were introduced in the villages with the co-operation of the Police Department and a regular agency for reporting mortality of cattle and outbreaks of contagious diseases was started.

Virus required for serum-simultaneous-inoculation and Goat-virus-alone-vaccination against Rinderpest is now prepared at the temporary virus station, at the Head Office. A Veterinary Investigation Officer has been appointed, financed by the Imperial Council of Agricultural Research, for the investigation of live-stock diseases in these Dominions. With a view to control contagious diseases a survey has been made of important cattle routes. The parasitic infestation of live-stock is also being mapped out. Exchange of direct reports of outbreaks of contagious diseases between the Dominion officials and those in British India has been arranged. The Director, Veterinary Department, represents H.E.H.'s Government in Animal Husbandry matters in the Imperial Council of Agricultural Research.

6. *Control.*—The Department is under a Director assisted by 5 Deputy Superintendents, 16 Veterinary Inspectors, 40 Assistant Veterinary Surgeons, 38 Veterinary Assistants, 17 Salotary Jamadars and 16 Salotries.

SECTION XXV.
Co-operative Societies.

SECTION XXV.

CO-OPERATIVE CREDIT SOCIETIES.

In this section are found statistics of the agricultural and non-agricultural co-operative credit societies and of banks working in these Dominions.

In 1347 F. there were 2,684 agricultural societies with a membership of 56,434. The largest number of societies (290) was in Gulbarga and the smallest (10) in Atrafi-Balda. The average membership strength of the society was only 21. The total working capital was Rs. 83.2 lakhs, composed of loans and deposits from banks and societies (Rs. 42.7 lakhs), share capital (Rs. 16.5 lakhs), deposits by members Rs. 2 lakhs, loans and deposits held by Government 0.3 lakhs and reserve (Rs. 21.7 lakhs).

The amount of loans issued to members and societies was Rs. 8.1 lakhs. Thus the loans received by members and societies exceeded the amount of their deposits by Rs. 6 lakhs.

Non-agricultural societies in 1347 F. numbered 638 with 55,825 members, the average strength being 88. Their working capital amounted to Rs. 69.5 lakhs composed of loans and deposits from banks and societies (Rs. 6.3 lakhs), share capital (Rs. 28.4 lakhs), deposit by members (Rs. 24 lakhs), Government loans Rs. (1.3 lakhs) and reserve (Rs. 9.6 lakhs). The amount of loans advanced to the members and their societies in 1347 F. was Rs. 47.2 lakhs against a share capital of Rs. 28.4 lakhs.

There were 39 banks in the Dominions to finance the above agricultural and non-agricultural societies. Their assets amounted to Rs. 115.1 lakhs in 1347 F. while their liabilities were Rs. 113.7 lakhs. The banks advanced Rs. 65.7 lakhs in the year to the co-operative societies and Rs. 9.4 lakhs to members—a total of Rs. 75 lakhs.

The administration of the Co-operative Credit Societies Department cost Rs. 4 lakhs as compared with Rs. 3.8 lakhs in 1346 Fasli.

Registrar, Co-operative Societies.

1. Mr. John Kenney . . . 20 - 6-1322 to 15 - 3-1324 F.
2. Mr. Vijaya Raghavachari 16- 3-1324 to 29- 5-1325 F.
3. Mr. Shanker Pershad. . . 7 - 8-1325 to 29-10-1325 F.
4. Mr. Khan Abdul Majid 30-10-1325 to 20 - 3-1331 F.
5. Mr. Abdul Basith Khan 29 - 3-1331 to 31 - 9-1337 F.
6. Nawab Mehdi Nawaz
Jung Bahadur (Permanent Registrar).
7. Mr. Syed Fazlullah, H.C.S. 1-10-1337 (Continuing).

3. *History.*—Mr. John Kenney the Director of Agriculture was the first Registrar. Then this post was separated and a whole-time officer was appointed. In 1914 (1323 F.) the Hyderabad Co-operative Credit Societies Act was passed which provided facilities for the promotion of credit societies, to render valuable help to the ryots and persons of limited means. Since the number of societies, both agricultural and non-agricultural, have grown considerably and the movement spread all over the Dominions, a number of rural banks on co-operative basis were opened with a Central Dominions Bank in the City of Hyderabad to assist the district banks and societies.

Loans are also given to the societies for the purchase of cattle, fodder, food supply, seeds, etc. Special measures are also undertaken by this Department to assist the indigenous industrialists.

4. *Chief Functions*.—The object of the movement is to relieve the cultivators and villagers from the pressure of heavy interest and debt, to prevent the members (of the agricultural and non-agricultural Societies) from falling a prey to the sowcars and money-lenders and to show them the way to self-help.

5. *Achievements*.—The number of societies, the number of members and the share amount invested in this movement give ample proof of the achievements of this Department.

6. *Control*.—The Department is under a Registrar Assisted by 7 Assistants and 6 Deputy Assistants.

SECTION—XXVI.

XXVI.—MUNICIPALITIES AND LOCAL BOARDS.

No. 13.—Brief History of Hyderabad Municipal Corporation.

1. Established on 2-12-1279 Fasli.
2. Heads of Department and period of their tenure:—

President, Municipal Committce.

1. Hakim Syed Ali Saheb, 2-12-1279 F.
2. Mir Baqi Ali Saheb, 1280 F.
3. Md. Abbas Ali Saheb, 1287 F.
4. Mr. Palonji, acting Superintendent, 1304 F.
5. Mr. Mir Kazim Ali Saheb, 1316 F.

Municipal Commissioners.

6. Mr. Stevens.
7. Mr. Warner.
8. Dr. Md. Abdul Ghani 1329-30.
9. Nawab Abid Nawaz Jung Bahadur 1331-1334 F.
10. Dr. S. Hamid Ali, 1334-1341 F.
11. Dr. Nawab Ashraf Nawaz Jung Bahadur 1341 F.
12. Mr. Mehir Ali Fazil, 1342-1343 F.

Nazims, City Municipal Corporation.

13. Nawab Zain Yar Jung Bahadur 1344-1345 F.
 14. Nawab Mehdi Nawaz Jung Bahadur 1347 F.
- (Continuing).

3. *History.*—During the time of Nawab Sir Salar Jung Mukhtar-ul-Mulk Bahadur, the Prime Minister, the work of 'Maintenance of City Roads' was removed from the City Police Commissioner, Nawab Zorawar Jung Bahadur and put under a separate unit on 2nd Aban 1279 F. This arrangement was found expedient in view of the expansion of the City and the Department was called 'Municipality and Road Maintenance.' Hakim Syed Ali Khan Saheb was appointed Superintendent of Roads and Maintenance and President of the Committee which consisted of six gentlemen:—

XXVI.—MUNICIPALITIES AND LOCAL BOARDS.

1. Mir Fail Ali Khan Saheb on behalf of Nawab Amir-i-Kabir Bahadur.
2. Mir Sardar Sultan Saheb on behalf of Nawab Vikar-ul-Umra Bahadur.
3. Md. Karimuddin Saheb, on behalf of Raja Narendra Bahadur, Peshkar.
4. Habib Abdulla Saheb, Jamedar of Arabs.
5. Hari Gopal Das Saheb, Shaukar.
6. Musa Khan Saheb, on behalf of Nawab Sir Mukhtar-ul-Mulk Bahadur.

Nine Amirs (5 for the City *anderoon* and 4 for Chadarghat) were appointed. A small clerical establishment was also added. The cost of the Department was fixed at Rs. 2½ lakhs a year in addition to Rs. 2½ lakhs from Customs octroi duty. Any income realised by the department was deposited in the Government Treasury as Government amount. Daily one hundred convicts from the jail were employed in the drainage and sanitary works of the city. Disputes about sanitation and municipality were settled by honorary persons nominated for every mohalla from amongst the mansabdars and other respectable inhabitants. These persons were also vested with powers of small causes court to dispose of money suits to the value of Rs. 15 to 20. Appeals lay in the Diwani Court. All municipal papers were sent direct to Government for orders.

In 1279 F. the Municipal administration was divided into two parts, one for the city proper and the other for Chadarghat (*beroon Balda*). A Municipal Code was passed in 1304 F. and two Municipal Committees came into existence each consisting of 21 members. A house tax of Rs. 3 per cent. was imposed in 1304 Fasli.

In 1316 Fasli the two committees were amalgamated and the municipal administration was placed under one body with 26 members and the house tax was raised to 5 per cent.

In 1343 F. by a Firman of His Exalted Highness the Nizam, the Municipality was raised to the status of a

XXVI.—MUNICIPALITIES AND LOCAL BOARDS.

Corporation, consisting of 36 members with a Secretary. The house tax was raised to Rs. 7-8-0 per cent. Citizens were given elective franchise, the qualification of a voter being a tax payer of Rs. 20 per annum. The first election was held in 1344 Fasli.

4. *Chief Functions*.—(1) Sanitation in respect to the public drains, latrines, urinals and unhealthy localities.

- (2) Water supply.
- (3) Storage or dust bins and the clearance of city refuse.
- (4) Proper arrangements of the grave-yards and burning grounds.
- (5) Birth, death and marriage registration.
- (6) Measures for the prevention of epidemic by inoculation, vaccination, disinfection, etc.
- (7) Proper arrangements about the markets and slaughter-houses.
- (8) Regulations in respect of the harmful and unhealthy professions.
- (9) Demolition and clearance of dilapidated buildings and removal of obstacles from the public roads.
- (10) Construction and maintenance of roads and drains.
- (11) City lighting, street watering and road cleaning.
- (12) Establishment of parks, playgrounds, garden plots and avenues.
- (13) Regulations about amusement areas, hotels, restaurants, tea shops, liquor shops, etc.
- (14) Municipal surveys,
- (15) Helping and encouraging the welfare institutions and organisations such as establishment of public libraries, museums, exhibitions, public parks, census operations, etc.

5. *Achievement*.—Two third of the persons eligible to vote have taken part in the election of the members.

XXVI.—MUNICIPALITIES AND LOCAL BOARDS.

No. 14.—*Brief History of the Local Fund Department.*

1. Established in 1303 F. (1894).
2. Heads of Department and period of their tenure:—
 1. Revenue Secretaries 1303 to 1325 F.
 2. The Director-General of Commerce and Industries Department 1325 to 1326 F.
 3. Mr. Khan Md. Yussof, Inspecting Engineer, 1326 to 1327 F.
 4. Mr. Willmat, Inspecting Engineer 1328 to 1330 F.
 5. Mr. Khalid Bennerjee, Inspecting Engineer, 1331 to 1341 F.
 6. The Director-General of Revenue 1341 to 1346 F.
 7. Mr. Md. Ahmed Mirza, C.E., Superintending Engineer, Local Fund Department, 1346 to 1347 F.
 8. Mr. C. C. Paul, Ml. C.E., O.B.E., Special Engineer, Local Fund Department 1347 F. (continuing).

3. *History.*—The department was created in 1303 F. to give the public bodies some opportunity of associating themselves with administration of local affairs as far as the elementary education, medical relief, conservancy, local communication, water supply, lighting and sanitation.

In the headquarter of each district, a District Local Fund Committee was formed composed of nominated official and non-official members with Talukdar (Collector) of the District as Chairman. In Taluqua Headquarters, Local Committees on same lines were established with the Tahsildar or the Assistant Collector as Chairman.

XXVI.—MUNICIPALITIES AND LOCAL BOARDS.

Expenditure was first passed by the Local Committees and then by the District Committee, limited to the amount provided in the Budget under different heads which was sanctioned annually by the Government.

The source of income was cess collected through the local village Revenue Officials, who received a small percentage as remuneration for collection. Besides this source of Revenue the towns about 65 in number, were allowed to levy local taxation in form of Barbardari Patti, Roshnai Patti, Sowri Patti and Rakhwal Patti.

Since 1345 F., 7 Municipalities have been functioning in large towns with non-official majority. The department maintains Ferries in important river crossings but their numbers was found decreasing every year due to construction of new bridges.

Up to 1339 F., the Local Fund Superintendents (Engineers attached to every district headquarter) were the Chief Executive Officers of the Department, who under the Chairman were responsible for executive work of the Local Fund Department, (excepting education medical and veterinary) but including collection of local taxes sanitation and conservancy. Since 1340 F. Sanitary Inspectors have been appointed in every important towns and to meet this expense the Government make an annual grant of Rs. 50,000. These officers worked direct under the Chairman and were employed on collection of local taxes, sanitation and conservancy, and the Local Fund Superintendent were held responsible for Engineering works only.

Up to 1338 F., the construction of District Water Works were carried out by the Local Fund Department under the Inspecting Engineer but on sanction of $\frac{3}{4}$ of the total expenditure for these works from the Dewani a Engineer was appointed to carry out these works.

4. *Chief Functions.*—To collect Local Fund Cess and Local Taxes, provide elementary education, medical relief, maintained veterinary hospitals, construct and maintain village communications, water supply, collection of house and street refuse, removal of night soil from towns. Construction and maintenance of chowries, travellers bungalows, markets, slaughter-houses.

XXVI.—MUNICIPALITIES AND LOCAL BOARDS.

5. *Achievements*.—A notable achievement has been the construction of Water Works and Drainage in almost all large towns, laying out of new areas in and around existing towns, widening roads by Town Improvement Schemes, and provision of Electric Light and Powers in many District Towns, Village Development by widening and improving village roads and construction of new wells in the villages and improvement of village communication and reconstructing the important villages.

6. *Control*.—The department is under a Special Engineer assisted by an Architect, four divisional Engineers and a Boring Superintendent.

SECTION XXVII.

Public Works

XXVII.—PUBLIC WORKS

Roads.

Of late much headway has been made in improving the means of communication both by the P.W.D., and the local bodies, such as municipalities, districts and local boards.

In 1347 F. the total length of roads was 5,206 miles of which 3,302 miles or 63 per cent. were metalled. Of the metalled length 3,115 miles or 94 per cent. were maintained by the P.W.D. Of the unmetalled portion (1,964 miles) 85 per cent. was under the Public Works Department. In addition to the mileage shown in the statement against 'Hyderabad City' 31 miles treated with cement concrete and 12 miles with asphalt are found in the City.

The capital expenditure on construction of buildings, roads, bridges and irrigation works and purchase of plant amounted to Rs. 243.9 lakhs. The department is in charge of 91 officers. While the receipts amounted to Rs. 3.3 lakhs the total expenditure was Rs. 28.5 lakhs.

Water-works.

For the supply of potable water to the town population Government have constructed reservoirs and laid distributary mains in Hyderabad, Aurangabad and Gulbarga cities, and Jalna, Nander, Seram, Latur and Raichur towns, the total capital cost of all such works being Rs. 250.7 lakhs. The reservoirs have a storage capacity of 48,409 million gallons and the mains are 311 miles long. Annually 7,088 million gallons of water are consumed by the population. The income derived by the department from consumers amounted to Rs. 6.7 lakhs in 1347 F. and the expenditure was Rs. 4.5 lakhs excluding overhead charges of the Engineering establishment.

Sewerage.

In Hyderabad City 142.3 miles of sewers with 3,099 connections and 5,310 man-holes were maintained in 1347 Fasli. For the convenience of the public and slum dwellers 8 public baths, 70 flush latrines, 50 flush urinals were provided. There were also 68 dumping pits. The capital cost of the project amounted to Rs. 108.8 lakhs, the annual maintenance cost being Rs. 1.6 lakhs in 1347 Fasli.

Drainage Department.

The cost of the City Drainage Department in 1347 F. was Rs. 39,538 chargeable to the general revenue and Rs. 3,45,399 chargeable to the Drainage Works Maintenance Head; a total of Rs. 3.8 lakhs.

No. 5.—*Brief History of the Hyderabad City Division of P.W.D. (4th Circle) (Tamirath Balda).*

1. Established in—1342 Fasli, (1933).
2. Heads of the Department and the period of their tenure:—

Superintending Engineer.

1. Mr. Syed Arifuddin, B.Sc. (Hons.), from 8-2-1339 F. to 10-8-1346 F.
2. Mr. Syed Ali Raza, B.A., B.Sc. (Hons.), from 11-8-1346 F. to 18-10-1346 F.
3. Mr. G. M. Khan, M.A., B.Sc. (In-charge), from 19-10-1346 F. to 20-12-1346 F.
4. Mr. Mohd. Anwarulla, B.Sc., C.E., from 20-12-1346 F. (Continuing).

3. *History.*

A circle, by name the Special Buildings Circle was formed in 1339 F., to administer the Hyderabad Division, the Hyderabad Water Works Division and also the following works:—

- (1) Palace Division.
- (2) Delhi Palace Works.
- (3) Napiion House Property at Bombay.
- (4) Ceder Building at Ooty.
- (5) Pre-survey of O. U. Buildings.

In 1342 Fasli the Palace Works and the Osmania University were separated from this Circle and it was given the name of the Fourth Circle. Thus the Fourth Circle continued to administer the Headquarter Divisions, the Hyderabad Water Works, Municipal Survey with the addition of the Nizamabad division which prior to this was under the Capital Works Circle.

Subsequently, the Nizamabad Division was again separated from the Headquarters works and incorporated in Aurangabad Circle at the end of 1346 Fasli. The Hyderabad Division and the Hyderabad Water Works Division and Municipal Surveys were then combined with the Osmania University Project and New Circle, as it now exists was designated "The Osmania University Buildings Circle."

4. *Chief Functions of the Department.*

The Osmania University Buildings Project Circle is responsible beside the O. U. Project, for the construction and maintenance of all Government buildings in Hyderabad City of all the departments in the State including Bella Vista under the occupation of H.H. the Prince of Berar Walashan Nawab Azam Jah Bahadur and Hill Fort under the occupation of Prince Walashan Col. Nawab Moazzam Jah Bahadur and the Bolarum Residency.

5. *Extraordinary Achievement.*

The following are the principal schemes constructed by the 4th Circle prior to and since its merging with the O. U. B. Circle:—

Military Building Schemes.

	Rs.
(i) First Lancers ..	18,12,063
(ii) Second Lancers	11,76,147
(iii) Second Infantry Chandrayangutta	6,00,600
(iv) Second Battalion do ..	2,15,931
(v) Cavalry Training Squadron at Mallapally	2,30,571
Total ..	<u>40,35,312</u>

Water Works.

1. Remodelling Hyderabad Water Works costing	15,50,000
---	-----------

Agriculture.

1. Dairy Farm and other agriculture buildings at Himayatsagar cost- ing	2,26,060
---	----------

Police Schemes.

1. City Police Barracks at Petla Burj costing	10,30,000
2. District Police Barracks at Amberpet	5,00,000

6. *Control.*

It is under a Superintending Engineer.

XXVII.—PUBLIC WORKS.

No. 8.—*Brief History of the District Water Works Department.*

1. Established in 1338 F. (1928 A.D.)
2. Heads of the Department and the period of their tenure.

Special Engineers.

1. Mr. Mohamed Ahmed
Mirza . . . 1 - 6-1338 to 3 - 7-1346 F.
- 2 Mr. Samiullah Shah . 30-1-1347 F. (continuing).

(During the intervening period, i.e., from 3-7-1346 to 30-1-1347 F. Mr. Mohamed Ahmed Mirza alone was looking after the Department even after taking charge as Chief Engineer, P.W.D. on 3-7-1346 F.)

3. *History.*—The Water Board was formed for the purpose of providing sanitary water works to all the district towns. Hon'ble the Revenue Member being the President and the Revenue Secretary, the Secretary of the Board. The other two members of the Board being the Hon'ble Members of Finance and Public Works Departments. Government provides annually a sum of Rs. 5,00,000. In addition to this, loans are given to the Municipalities to an extent of 25 per cent. of the cost of schemes repayable at 4 per cent. interest in 28 instalments. Thus for the construction of sanitary works of every town 75 per cent. of the cost is contributed by Government and the remaining 25 per cent. is given as a loan.

4. *Chief Functions.*—The department designs, constructs and maintains protected water-supply and drainage schemes for such towns as are provided with funds as stated above. Other improvements to towns such as improving existing roads, providing dust-proof

roads where water works are constructed, are also undertaken by this department if funds are provided by the Municipalities. Town improvement of Matwada and construction of dust-proof roads at Latur, etc., come under the category of these works.

5. *Achievements*.—Till the end of 1347 F. the following towns had been provided with water-supply and drainage schemes at the costs given against the name of each town.

		Rs.	
1.	Jalna	.. 10,85,000	
2.	Aurangabad	.. 5,51,277	
3.	Raichur	.. 13,29,085	
4.	Latur	.. 8,81,900	
5.	Nander	.. 7,22,500	Completion figures have not yet been arrived at.
6.	Seram	.. 37,000	do
7.	Manvi	.. 10,000	
Works of towns shown below are practically completed and water-supply to the towns are started.			
8.	Warangal	.. 16,90,000	Completion figures have not yet been arrived at.
9.	Osmanabad	.. 1,00,000	do

For towns No. 6, 7 and 9 no drainage schemes have been provided.

The water-works of the following towns are under progress. The sanctioned amounts for the works are given against the name of each town:—

1.	Gulbarga	.. 6,01,000	The works are expected to be completed within a year or so.
----	----------	-------------	---

- | | | | | |
|----|-----------|-----|----------|--------------------------|
| 2. | Nizamabad | Rs. | 6,30,000 | Work started at present. |
| 3. | Tuljapur | .. | 3,68,000 | do |

At Tuljapur not only water works and drainage schemes are constructed but also Electrification scheme is taken up by this department.

Thus 9 towns have been provided with protected water-supply schemes and the towns are enjoying the benefits. The work in 3 towns is under progress.

6. *Control.*—The Special Engineer is the chief Executive Officer of the Department who controls and administers the Department.

* Due to adjustment of salary paid in previous year to the establishment of the Drainage works.

N.B.—The year 1847=Oct. 1937 to Sept. 1938.

XXVII.—PUBLIC WORKS.

No. 13.—*Brief History of the Department of Hyderabad City Drainage.*

1. Established in 1335 Fasli (1926 A.D.).

2. Heads of the Department and the period of their tenure:—

Chief Engineer and Secretary to Government.

1. Nawab Karamat Jung Bahadur, B.A., F.C.H., M.I.E.,
5-1-1335 F. to 10-5-1341 Fasli.

2. Nawab Ahsan Yar Jung Bahadur, C.E., (Cooper's Hill) M.I.E., (Ind.) 11-5-1341 F. (continuing).

Note.—The post of the Superintending Engineer has since been abolished in this department.

3. *History.*—In the year 1318 F. the possibility of equipping the City with an efficient water carriage system was first examined by Sir M. Vishvesvarayya and a partial scheme was drawn up by him estimated to cost Rs. 52 lakhs omitting certain portions of the City where there was insufficient water-supply. In the year 1330 F. Mr. A. W. Stonebridge, the then Sanitary Engineer to Government, prepared a complete project for the whole City with plans and estimates amounting to Rs. 163 lakhs providing for disposal of both Sewage and Storm Water.

In 1331 F. Sir M. Vishvesvarayya after careful examination of the Scheme, reduced the estimated cost to Rs. 100 lakhs excluding Storm Water Drains and recommended that the Drainage Scheme should be started with as little delay as possible. In 1344 F. Mr. M. A. Zeman (Nawab Ahsan Yar Jung Bahadur) was posted by Government to take charge of the project. He reviewed the Scheme in accordance with the recommendations of the expert and drew up a programme of works to be executed. In 1335 F. the Drainage Department was formed with Late Nawab Karamat Jung Bahadur as Chief Engineer and Secretary and Mr. M. A. Zeman

is Superintending Engineer (now Chief Engineer and Secretary) of the Department. The actual work on the Scheme was started in the year 1336 F. with an initial grant of 15 lakhs a year sanctioned by Government.

In the year 1338 F. the opinion of this department was invited with regard to the best methods of constructing the City Roads and rendering them dustless. The recommendation of this Department for constructing the Roads with Cement Concrete was approved by Government and the project entrusted to this department for execution.

Again in the year 1340 F. proposals were submitted for improving the sanitary condition of the River Musi by forming a Serpentine Lake and remodelling and constructing Storm Water Drains in the City. These proposals were approved by Government and their execution was also entrusted to this Department.

4. *Chief Functions.*—Improvements of the City of Hyderabad by means of up-to-date methods of underground drainage for Sewerage, Drains for Storm Water and construction of Dustless Roads.

5. *Achievements:*—

(a) *Drainage (Sewers).*—The Branches and lateral Sewers in the City, the Main Sewers and Disposal Works have been completed at a cost of Rs. 99.34 lakhs. The construction of sub-branch Sewers whenever required are being taken up as applications are received from house-owners for connection to the Drainage System. In addition to this, the works completed are being maintained to ensure efficient working.

The Sewage received at the Disposal Works is partially purified. The effluent is mixed with fresh water and given out for the cultivation of 1,100 acres of wet land. Proposals are before Government to extend the area of cultivation to 3,000 acres.

(b) *Cement Concrete Roads.*—The total length of roads constructed with Cement Concrete by this Department is 27.60 miles at a cost of 28.33 lakhs. The Roads completed are now being maintained by merely filling the joints and repairing the Morum berms wherever necessary.

In addition to the above 5.13 miles of City Roads were also constructed with Cement Concrete by this Department on behalf of the Municipality.

(c) *Improvement of the River Musi.*—A scheme costing Rs. 16.78 lakhs has been submitted to Government and is awaiting to be taken up with proposals for the construction of Central Secretariat Buildings on the banks of the River Musi.

(d) *Construction of Storm Water Drains.*—Main Storm Drains in important localities were constructed at a cost of Rs. 8.44 lakhs. The Drains so far completed are maintained in working order.

Hyderabad is the fourth largest City in India. It has the longest mileage in roads constructed with Cement Concrete on modern lines. The construction of the Roads have not only increased the beauty and grandeur of the City but has also helped considerably to minimise the diseases chiefly caused by dust.

6. *Control.*—The Department is under a Executive Engineer, three Assistant Engineers, a Sub-Engineer and a Chemist.

XXVII.—PUBLIC WORKS.

No. 15.—*Brief History of the Osmania University Building project (P. W. D.).*

1. Established in 1341 Fasli (1931 A.D.)
2. Heads of the Department and the period of their tenure.
 - (1) Nawab Zain Yar Jung Bahadur Chief Architect (Designs from -6-1341 F. to
 - (2) Mr. Syed Ali Raza, B.A., B.Sc. (Hons.) (Manchester) Superintending Engineer from -6-41 F. to 20-10-46 F. (Construction).
 - (3) Mr. G. M. Younus Officer-in-charge from 21-10-1346 F. to 19-12-1346 F.
 - (4) Mr. Mohamed Anwarulla, B.Sc. (Durham) Superintending Engineer 20-12-1346 F. to date (continuing).

3. *History*:—A brief account narrating the need of a Residential University in a suburb, a little away from the harmful influences of a city life as also that of the deputation of two of the Engineer Officers, *viz.*, Nawab Zain Yar Jung Bahadur and Mr. Syed Ali Raza on a world tour the appointment of Mons. E. Jaspas of Belgium as a consultant Architect, the selection of a suitable site at Adikmet and finally the evolving out of a scheme for presenting the public of Hyderabad with a set of buildings for all the faculties to be grouped together in one place, has already been published in the third issue of the Statistical year book for 1346 F. A little description of the activities of the O.U.B. Project in the partial materialization of the scheme is therefore recorded below:—

- (a) Two Hostels for 300 boys, with kitchens and Dining Halls, constructed at a cost of Rs. 9.86 lakhs, have been in use since 1344 Fasli.

- (b) The Pro-Vice-Chancellor Lodge built up in Saracenic style of architecture has also been completed at a cost of Rs. 00.69 lakhs and has been in use since 1344 F.
- (c) A complete set of temporary colleges comprising of 23 buildings was constructed at a cost of Rs. 10.50 lakhs and has been in use since 1344 Fasli.

The activities of the project were centralised during the year towards the construction of the massive Arts College with all its exterior in dressed granite. The foundation stone of this monumental granite stone structure was laid by our gracious Sovereign on the 30th day of Amarded 1345 Fasli. This has been designed in a purely Osmania style of architecture blending the old Hindu architecture of Ellora and Ajunta with the elegant Saracenic architecture, creating simplicity and dignity. The estimated cost of this piece of construction would be as much as 30.45 lakhs of rupees. It is now nearing completion.

Other schemes now on hand comprise of the following:—

	Estimated cost.
(a) Roads with avenue trees ..	5.75 lakhs
(b) Water-supply ..	4.79 „
(c) Drainage ..	1.50 „
(d) Electricity ..	1.61 „
Total ..	<u>13.65 lakhs.</u>

4. *Chief Functions:*—

- (a) The laying out of a scheme on the principle of a Campus of American Residential Universities for 1,200 boarders, 1,300 day-scholars.
- (b) Extension of the scheme laid out, comprising of:—

Estimates so far revised.

- (i) Colleges, Senate Hall and Hostels with Kitchen and Dining Halls .. 1.23 crores.

XXVII.—PUBLIC WORKS.

(ii) Residential buildings, parks and play-grounds ..	0.36 crores.
(iii) Communications and supplies. such as water-supply, electricity etc. ..	0.14 crores.
(iv) Compensation of acquired lands and buildings ..	0.11 crores.
(v) Establishment Tools & Plant etc. ..	0.49 crores.
Total ..	<u>2.33 crores.</u>

5. *Achievements:—*

- (a) Two blocks of Hostels with their kitchens and Dining House.
- (b) The Pro-Vice-Chancellor's Lodge.
- (c) Temporary Colleges comprising of 23 blocks.
- (d) The monumental Arts College all in granite stone with the exterior in dressed granite just nearing completion.

6. *Control:—*The Project is under a Superintending Engineer assisted by one Divisional Engineer and three Assistant Engineers.

The Special Engineer is the Chief Executive Officer of the Department who controls and administers the Department.

SECTION XXVIII

Irrigation.

SECTION XXVIII.—IRRIGATION.

For the irrigation of crops there were in 1347 F., in the Domnions 20,773 serviceable and 3,622 unserviceable tanks and 468.25 miles of serviceable and 56.2 miles of unserviceable canals with 462 miles of distributaries. Besides, there were 170,626 serviceable wells and 27,571 unserviceable wells. The total number of other irrigational sources was 5,824.

Telingana commanded 92 per cent., of the total number of tanks, 96 per cent., of miles of canals, 50 per cent., of wells and 60 per cent., of other sources of irrigation.

The total area under irrigation from all sources was 1,592,972 acres of which 52.3 per cent., represented the kharif and abi area and 29 per cent., that of rabi and tabi and the rest that of *dofasla* and Baghat.

SECTION.—XXIX.

Railways

The Government of H.E.H. the Nizam owns and maintains 1,347.8 miles of railway (Board Gauge 688.11 and Meter Gauge 659.79 miles). The capital outlay amounted to Rs. 14,91.9 lakhs.

There were in 1937-38, 174 locomotives, 356 passenger and other vehicles. The passenger trains ran during the year 19,50,000 miles and carried 86,51,200 passengers, of whom 1,00,000 travelled first class, 70,800 second and the rest forming 99 per cent., by third. The average rate charged for a mile of travel for a passenger was 3.33 pies and the total earnings from passenger traffic amounted to Rs. 61.8 lakhs.

For the transport of goods traffic the Railway maintained 3,699 wagons and trucks. The goods trains ran 1,204,000 miles, carried 3,022,000 tons of goods and earned Rs. 154.7 lakhs.

In addition to passenger and goods trains, some mixed trains were run on 503,000 miles.

The amount of gross earnings in the year was Rs. 245.1 lakhs, of which 65 per cent. was on the Board gauge system. The working expenses amounted to Rs. 115.9 lakhs, the percentage expenditure on gross earnings was 47.27.

The number of accidents on the railway was 39 killed and 101 injured as compared with 63 killed and 125 injured in 1936-37. Of the total casualties railway servants accounted for, 1 killed and 77 injured.

The personnel of the railway administration consisted of 68 Europeans, 315 Anglo-Indians and 14,084 Indians, a total of 14,467.

XXIX.—RAILWAYS.

No. 16.—*Brief History of the Nizam's State Railway.*

1. Established in 1339 F. (1930).
2. Heads of the Department and period of their tenure:—

Agent

Major E. W. Slaughter, M.B.E. 1339 F. (continuing).

3. *History.*—The question of providing Hyderabad with railway facilities was first considered when the alignment of the Bombay-Madras route was decided and in October 1874 the railway line from Wadi to Secunderabad was opened for public traffic. The line was worked by the G.I.P. Railway until the end of the 1878, by the State Railway Agency for the next six years and by the Nizam's Guaranteed State Railway Company (Incorporated in England) from January 1885 to the end of March 1930. On 1st of April 1930 the Railway was purchased by H.E.H. the Nizam's Government and the said company's connection ceased with it. Thus the Government became the owner of the whole railway system excluding the Bezwada Extension and British Frontier to Dronachellam Sections of the Government of India and the title was changed to 'H.E.H. the Nizam's State Railway.'

The system now comprises 1,348 miles of open line, 688 of which are broad guage and 660 metre gauge. 58 miles of lines lie outside the State and is owned by the Government of India but is worked by this railway, viz., Bezwada Extension and British Frontier to Dronachellam section. The railway connects at three points with the G.I.P. Railway, viz., Wadi, Manmad and Balharshah and also has to exchange points with the M. & S.M. Railway at Bezwada and Dronachellam.

The extension of the railway from Kazipet to Balharshah has provided a new direct route between Madras, Delhi and the North.

The question of providing feeder and branch lines to existing main lines with a view to developing the country has been receiving the constant attention of the Administration. In pursuance of this policy of progressive development Purli-Aurangabad and Nander-Adilabad Lines have been surveyed. A branch line about 12 miles in length from Jankampet to Bodhan has recently been constructed and will be shortly opened for traffic.

An outstanding event in the history of the railway was its acquisition on 1st April 1930 by Government from H.E.H. the Nizam's Guaranteed State Railway Company. The net revenue from the Railway which formerly used to be distributed to the shareholders of the Company now accrues entirely to the State.

4. *Chief functions.*—To provide full transport and traffic facilities in the Dominions.

5. *Achievements.*—The Engineering Department has endeavoured to keep abreast of the times. Amongst the most important works completed during recent years are remodelling of Hyderabad B.G. station and the building of an up-to-date and modern Hotel at Aurangabad.

In conformity with the policy adopted on other railways, commercial side of the Traffic Department was constituted as a separate department so that commercial problems may receive more attention. The Road Transport was also constituted as a separate department and is responsible for operating road services.

6. *Control.*—The management of the Railway is vested in a Board of experienced officers in London who are appointed by His Exalted Highness the Nizam. His Excellency the President of the Executive Council is the President of the Board as well as Railway Member of H.E.H.'s Executive Council. The Board is responsible to the Executive Council for the management of the undertaking and for the control of all railway funds. The members of the present Board are:—

The Rt. Hon'ble Sir Akbar Hydari,
(Nawab Hyder Nawaz Jung
Bahadur, Kt., P.C., LL.D.)

Sir James B. Brunyate, K.C.S.I., C.I.E.

President.
Chairman.

C. W. Lloyd Jones, Esq., C.I.E.	<i>Managing Director.</i>
Sir Ernest Jackson, <i>Kt.</i> , C.I.E., A.C.A.	<i>Director.</i>
Sir Frank Noyce, M.A., K.C.S.I., C.I.E.	<i>Director.</i>
F. Adams, Esq.	<i>Secretary.</i>

The headquarters of the Railway are at Secunderabad. The Chief Executive Officer in India is the General Manager, Major E. W. Slaughter, M.B.E. and the heads of the several departments are:—

Engineering Dept.	Chief Engineer, Open Line, J. N. Nanda, Esq.
Transportation Dept.	Chief Trans. Supdt., A. W. Watts, Esq.
Commercial Dept.	Chief Commercial Manager A. J. Pragnell, Esq. (Offg.)
Audit Dept.	Chief Accountant and Auditor, R. H. Nailer, Esq.
Locomotive Dept.	Loco and Carriage Supdt., F. E. Hough, Esq.
Stores Dept.	Controller of Stores, F. Blair, Esq.
Medical Dept.	Chief Medical Officer, Dr. S. P. Taylor.
Road Transport Dept.	Road Transport Supdt., Major T. A. H. Bampton, M.B.E.

Government control over the finances of the railway is exercised by a Government Auditor who is vested with full powers of audit.

SECTION.—XXX.

Motor Transport.

ROAD SERVICE.

In these Dominions as many as 7,664 registered motor vehicles were on the road; of these 5,648 were private motor-cars. Motor-cycles numbered 728 of which 596 were in Hyderabad, Secunderabad and Atraf-i-Balda. Other vehicles licensed for use were 8,392.

Registration fee amounted to Rs. 3.2 lakhs and licensing and other charges to Rs. 37,980, a total of Rs. 3.6 lakhs as compared with Rs. 3.2 lakhs in 1346 Fasli.

Railway Bus Service.

The Railway Department put on the road in 1937-38 (1347 F.) 293 passenger buses and 41 goods lorries on route mileage of 4,107. The passenger bus had seating accommodation for 6,933 and carried 11,645,557 passengers, the total amount of earnings being Rs. 29.6 lakhs, as against total working expenses of Rs. 28 lakhs.

MOTOR TRANSPORT.

No. 7.—*Brief History of the Road Mechanical Transport Service Department, H.E.H. the Nizam's State Railway.*

1. Established in Amardad 1341 F. (June 1932).
2. Heads of the Department and the period of their tenure:—

Road Transport Superintendent.

Major J. A. H. Bampton, M.B.E., 1346 F. (Continuing).

3. *History.*—Until the year 1341 F. (1932) road transport by motor vehicles was carried on by private individuals and small private business concerns. The Hyderabad Deccan Motor Services had a monopoly of a wide area and their services extended to many districts of the Dominions. In the City of Hyderabad, individuals and companies operated. The services rendered by the private agencies were neither regular nor punctual and the inconvenience caused to the public by dislocation of traffic due to unhealthy competitions, was great. Besides, the rates of fares charged were arbitrary and the kind of vehicles run unsatisfactory. Therefore the Government took over the road monopoly of certain select trunk roads in the City and Suburbs as well as the districts and entrusted the Railway Department with a regular bus service from June 1932 (1341 F.) The service has now passed the experimental stage. The Railway Department is pursuing a policy of expansion. The Financial results are encouraging and the public are satisfied with regular and prompt services at cheap standard fares.

There are now 368 vehicles including goods and parcel lorries operating on most of the important roads of the Dominions, the route mileage being 4,069.

As a measure of co-ordinated railway road service, out-agencies linking important trade centres have been opened. Collection and delivery of goods between Hyderabad, Secunderabad and Warangal is well established.

4. *Chief functions*.—Affording cheap and regular motor transport by road for passenger and goods throughout the Dominions.

5. *Achievements*.—Transport service on 4,069 route miles of road within a short period of four years of its operation and serving important Railway Stations, populous villages and towns in the district headquarters, market and pilgrimage centre.

6. *Control*.—The Department is under the Railway Board, general supervision being exercised by the General Manager with an executive Officer as Road Transport Superintendent with five assistants.

Electricity.

XXXII.—ELECTRICITY.

In Hyderabad, Warangal, Aurangabad and Gulbarga cities; Nizamabad, Nander and Raichur Towns electricity is generated and supplied for street and house lighting. Many industrial concerns also take a supply for running their machinery, the total capital outlay being Rs. 101.3 lakhs.

The total overhead transmission line was 129 miles in 1347 F. and the consumers numbered 10,603, of whom 8,158 were in the City of Hyderabad, which represents only 2 per cent. of the population. Out of 207 lakhs of units generated, 9 per cent. was consumed by the Power Houses, 12 per cent. went to waste and 79 per cent. was sold to consumers at the rate of $3\frac{1}{2}$ annas a unit, realising therefrom a total of Rs. 21.57 lakhs of which Rs. 18.2 lakhs came from Hyderabad City Consumers. The expenditure of the Electricity Department amounted to Rs. 10.2 lakhs as against a total revenue of Rs. 11.9 lakhs.

The amount of deposits held for the consumers was Rs. 3.8 lakhs which yielded an interest of Rs. 8,399 in 1347 Fasli.

ELECTRICITY.

1. C. C.—*Brief History of the Hyderabad City Electricity Department (Bargi).*

1. Established in 1319 F. (1910).
2. Heads of the Department and the period of their tenure.

Directors:—

1. Mr. R. L. Gamlen, M.I.E.E., O.B.E.
16-12-1319 to 11-7-1344 F.
2. H. C. H. Arniscad, B.Sc., A.C.G.I., M.I.E.E.,
M.I.E.E., A.M.I.C.E. 12-7-44 F. (contg.).
3. *History.*—In 1319 Fasli the Electricity Department was founded by Mr. Gamlen who was then the Mint Master.

In 1912 (1321 F.) Eleven Lakhs of rupees were sanctioned (a) for the erection of a regular power house as an addition to the old Mint Engine Rooms (b) the extension of the distribution and transmission systems and (c) the construction of a Railway siding for bringing the coal to the site of the Power House. The first generator was a 1½ K.W. reciprocating D.C. machine, which was used to supply only a few buildings in the vicinity of the Mint, but gradually the demand grew and the plant was increased step by step. The first Central Power House was built in 1321 Fasli and the plant capacity of this ultimately became 4,000 K.W. The demand, however, soon outgrew the size of this plant and the New Power House on the Southern flank of Hussain Sagar tank was finally erected in 1334 Fasli. The old and new Power Houses worked together for some years, but eventually the more modern plant in the latter entirely superseded that of the old Power House which ceased to generate power, except during emergencies, after the year

1335 Fasli. There are now three turbo generators in the new Power House, having a total capacity of 10,000 K.W. Eight boilers are installed, four of which are fed by pulverised coal, and the other four are fired by means of modern mechanical stokers. Singareni coal is used entirely.

During the year 1347 F. no less than 18,202,000 units were generated. The highest load yet experienced was during the Silver Jubilee of His Exalted Highness, when the lavish illuminations together with the normal requirements made a total demand of 5750 K.W. To the end of 1347 Fasli there were 3,150 consumers in Hyderabad, 2,807 in Secunderabad, and 30 in Lalagula, the making up a total of 11,445 consumers who were being fed with electrical energy from Hussain Sagar Power House.

The average price received per unit is about H.S. 1.6 annas, thus showing that the rates charged are very moderate. With a view to stimulating the demand for electricity a Publicity Section was started three or four years ago, with a showroom known as "Bijli Mahal" where the public may receive information as to the uses of electricity, and where they may witness demonstrations of a large variety of electrical appliances.

4. *Chief Functions.*—The generation of electrical energy from coal, the distribution of such energy throughout Hyderabad; and the supply of such energy in bulk to Secunderabad and to the Nizam's State Railway.

5. *Achievements.*—On account of the cheap power supply many industrial works are started round about the city. The citizens have all the amenities of life usually present in a modern city due to the use of electric energy, and the highways and byways of the city and suburbs are extensively illuminated.

6. *Control.*—The department is under a Director assisted by a Deputy, a Mechanical Engineer, and Electrical Engineer, two Superintendents for the Mains, two Engineers for Street Lights and Consumers, a Lady Superintendent with a Demonstrator for the Publicity and a Registrar for the Office.

No. 7.—Brief History of the Department of District Power Schemes.

1. Established in 1336 Fasli (1927 A.D.).
2. Head of the Department and period of his tenure.
 - (1) Mr. Khatib Mahmood Hussain, M.A., Mech.Sc (Trips.) I.M.I.E.E. 2-2-1336 F. (Continuing).

3. *History.*—In the beginning of 1336 Fasli, Government sanctioned the scheme for the electrification of Aurangabad city. The construction was completed and the power house declared open in 1337 Fasli. To meet the increased demand as a temporary measure, a 90 K.W. set discharged from Nizamsagar Project was put up during 1340 F.

Nizamabad and Raichur Schemes were sanctioned in 1342 F. The former was declared open by Walashan Prince Moazzam Jah Bahadur on 11th Dai 1344 F. At Raichur, three 300 B.H.P. sets were installed by the end of Khurdad 1345 F. due to the increased demand for power for industrial purposes.

In 1345 F. Government sanctioned the electrification of Nander town and Warangal city by taking electricity in bulk from the Osmanshahi and Azamjahi Mills.

In 1346 F. electrification of Gulbarga city was sanctioned and the work is in progress.

The electrification of Narayanpet and Yadgir towns was sanctioned in 1347 F. as extensions of Raichur Schemes. Out of the total of Rs. 7,64,000 estimated for the extension sets to be installed at Raichur and also for laying the H.T. transmission line to connect up these two places to the central generating station at Raichur, a sum of Rs. 1,84,800 was sanctioned to start provisional supply. These two works are also in progress.

Thus the total capital expenditure incurred up to the end of 1347 F. amounts to Rs. 25,40,745. The detail of this amount is as under:—

Aurangabad	5,91,727
Nizamabad	3,10,509
Raichur	6,57,651
Nander	2,33,648
Warangal	3,82,984
Gulbarga	3,64,226

4. *Chief Functions.*—Investigation and survey of electricity both Hydro and Thermal Schemes in the State. Construction, Administration and Organisation of electricity undertakings in districts.

5. *Achievements.*—Six towns and cities were electrified within a decade. The work of two more is on hand. New line after meeting all working expenses and the full depreciation on the different fixed assets at the scheduled rates, Aurangabad concern at the end of its ninth year of working yielded a net return of 3.5 per cent. and Raichur at the end of its third year working gave a net return of 0.78 per cent.

6. *Control.*—The department is controlled by a Special Engineer assisted by an assistant and four powerhouse Superintendents.

SECTION XXXIII.

Telephone

XXXIII.—TELEPHONE.

Telephone service is established in Hyderabad and Aurangabad cities and also in Jalna and Raichur towns. Through communication is also provided between Hyderabad and Warangal and between Aurangabad and Jalna. The total mileage of line was 785, *i.e.*, 48 more than in 1347 Fasli.

The telephone system had 8 exchanges and 1,094 subscribers.

The total revenue derived from all sources was Rs. 2.7 lakhs and working expenses exceeded it by Rs. 2,147.

(9) Mr. Bala Pershad	..	1326 to 6-10-45 F.
(10) Mr. Mustafa Beg.		7-10- 1346 F. (cont.)

3. *History:*—Telephone service was introduced into Hyderabad (City) in 1294 F. under the commands of the late H. H. the Nizam. The work of installation was entrusted to the Bombay Telephone Co., and on its completion the concern was taken over and managed by the Government.

To construct Telephone lines previous approval of the Government of India was necessary till about 1910 (1320 F.), when the procedure was amended and the Indian states were permitted to construct Telephone lines.

To start with there was only one Telephone Exchange with 16 lines at Baradari (City). To facilitate speedy communication, the service which was intended purely for Government use opened to the public as well and to cope with the demand for Telephone connections two more Exchanges one at Narayanguda in 1300 F. and another at Secunderabad in 1322 F. were opened.

The system of service first introduced was Magneto system with single line earth return circuit with Battery at each subscriber's Station. On the recommendation of Mr. Robinson of the Bombay Telephone Co., the entire system was reconstructed. In place of Overhead lines, Cables were laid Undergrounds. One Central Exchange was established at Gowliguda with one common Battery at the Exchange and all the lines connected to the three different Exchanges were brought on to the C. B. Switch Board at the Central Exchange and this system was brought into operation in 1333 F.

To make use of the Magneto Telephones and other materials dismantled at Hyderabad City, schemes were formulated to install them at Districts and in obedience to Firman-i-Mubarak dated 20-6-1342 H. Telephones were installed at Aurangabad, Jalna and Raichur in 1335 F., and at Warangal and Sub-Stations at Bhongir, Alir, Jangoan and Ghanapur in 1336 F.

H.E.H. in Firman-i-Mubarak dated 7th Rajab 1357 H., sanctioned the introduction of Automatic system in place of C. B. System. In obedience to this order for an Automatic Switch Board having a capacity of 2,500 lines was placed in 1347 F. Under this system there would be three Sub-Exchanges, one at Secunderabad, another at Golconda and the third at Osmania University. The Secunderabad Sub-Exchange will be equipped for 500 lines and the other two Sub-Exchanges will be for 50 lines each. The entire work is expected to be completed before the close of 1348 F.

Trunk lines were installed connecting (1) Aurangabad with Jalna in 1335 F. and (2) Hyderabad with Warangal in 1336 F. With a view to improve the conditions of the District Telephone concerns the Department has taken up the scheme of connecting all the important towns like District Headquarters with Hyderabad City by means of Trunk lines. It is confidentially expected that the work will be started in the very near future.

H.E.H. has commanded the installation of Trunk lines connecting Hyderabad with Sholapur and thereby to the All India Trunks. The Matter is under correspondence with the Government of India and it is hoped that the Trunk service will be available to the public at the earliest opportunity.

4. *Chief Functions*:—To render Telephone service to the public and Government Offices at Hyderabad, Secunderabad and Bolarum and at Districts; Aurangabad, Jalna, Raichur, Warangal and Sub-Stations.

5. *Achievements*:—The system of service installed in 1294 F. was Magneto. In 1333 F. C. B. system was introduced.

6. *Control*:—The Department is under the control of the Chief Engineer and Secretary, P.W.D. from 1294 F. But for two years 1326 and 1327 F. the Department was under the control of the Finance Department.

SECTION—XXXIV.

Trade

XXXIV.—TRADE.

Summary of Trade:—During the year the total declared value of goods carried by road and rail amounted to Rs. 29,62 lakhs (Rs. 31,87 lakhs in 1346 F.) a decrease of a little above Rs. 2 crores but both the export and important trade diminished.

Exports:—Exports falling in three groups, 'dutiabale,' 'duty-free,' and 'exempted' were valued at Rs. 14,65 lakhs, a decrease of over Rs. 210 lakhs. The first two classes of goods accounted for the fall, while the third, 'duty-exempted' goods, showed a rise.

On an average, dutiable goods represent 87 per cent. of the total exports. To encourage local industry Government allows exports, free of duty, of cotton piece-goods, fish, hides and skins, tanned or dressed, including cuttings, leather manufacture, certain classes of building material, cows with calves and kids with goats. But as compared with 1346 F. the total value of cotton and other textile goods exported from Hyderabad fell by Rs. 2½ crores in value, of vegetable oils by Rs. 12 lakhs, of leather by Rs. 8½ lakhs, of building materials by Rs. 6 lakhs, and of animals by Rs. 5 lakhs. The drop in the aggregate value of numerous unclassified items was about Rs. 2½ crores. On the other side, goods which showed an increase were oil-seeds, Rs. 63 lakhs, spices Rs. 12 lakhs, oil-cakes Rs. 11 lakhs, coal and coke Rs. 10½ lakhs, grains and pulses Rs. 2½ lakhs and wood and timber Rs. 1½ lakhs.

Imports:—The total value of imports fell by Rs. 8.3 lakhs.

The average value of dutiable merchandise during the past 8 years is 82.3 per cent. of the total. Duty-free merchandise during the same period averaged 9.6 per cent. of total imports. Goods imported for use in Government Departments of His Exalted Highness the Nizam, the Railway, the Residency, the Garrison and the Singareni Colliery averaged 8.1 per cent. of total imports since 1340 F. In all the years except 1344 F., the average has been exceeded.

The increase in value of imports was mainly under sugar (Rs. 21 lakhs), oils (Rs. 15 lakhs), metals and ores (Rs. 12½ lakhs), cinema films (Rs. 5 lakhs), paper and goods for the Garrison (Rs. 4 lakhs each) and consignments for the Singareni Collieries (Rs. 3 lakhs).

These increases were more than offset by decreases under textile piece-goods by Rs. 17 lakhs, railway rolling stock and plant Rs. 11½, salt Rs. 10½ lakhs, grains and pulses Rs. 9 lakhs, precious metals Rs. 8 lakhs and animals and fruits and vegetables Rs. 3 lakhs each.

BALANCE OF TRADE.

Taking the figures as they stand for exports and imports, this year there was an adverse balance of Rs. 32 lakhs.

INTER-PROVINCIAL TRADE.

On the import side, however, goods noted against Bombay and Madras ports are considered to have come from countries overseas. Similarly, on the export side these ports indicate the direction of outflow of goods. Of the imports from foreign countries may be mentioned yarn, piece-goods, canned fruits, iron and steel sheets and girders, kerosene oil and sugar. Bombay is the chief port through which most of these consignments come. Among the Hyderabad agricultural produce and other raw materials which find oversea markets are bones, cement, coal, gram, grain, hides and skins, oil-cake, vegetable oils, castor, cotton seed, groundnut, linseed, rape, mustard, sesamum and raw wool. Much of the export overseas of some oilseeds passes through Madras. Almost all the consignments of bones, hides and skins, a tenth of the cement exports, a ninth of the coal exports, half of the castor and sesamum exports, one-fourth of the groundnut exports, and some of the raw wool exports passed through Madras, and the rest through Bombay.

XXXV.—JOINT-STOCK COMPANY.

No. 9. Brief history of the registration of Joint-stock Companies.

1. Established in 1-7-1321 Fasli (1912 A.D.).
2. Heads of the Department and the period of their tenure:—

Inspector-General of Registration and Registrar of Joint-stock Companies.

1. Dr. George Nandy . . 1321 F. to 1328 F.
2. Mr. Mir Fazlurrahman . . 1328 F. to 1335 F.
3. Mr. Mohd. Yousuf (officiated during the year) . . 1335 F. to 1336 F.
4. Nawab Bashir Yar Jung Bahadur . . 1336 F. to 1337 F.

Director, C. & I. and Registrar, Join-stock Companies.

5. Mr. G. A. Mahmadi . . 1337 to 1344 F.
6. Dr. Khwaja Habib Hasan . . 1344 to 1345 F.
7. Mr. G. A. Mohamadi B.A., F.C.S., 1345 to 1347 F.

3. *History:*—The Hyderabad Companies Act No. IV of 1320 Fasli came into force on the 1st of Khurdad 1321 F. This is the first law promulgated in the Dominions in regard to Joint-stock Companies and is intended to afford the people of Hyderabad the privilege and conveniences of carrying on business under the limited liability system and provide the necessary safeguard against malpractices. This Act was administered by the Inspector-General of Registration as an Ex-Officio Registrar of Companies from the year 1321 F. to 1337 F. during which period 29 Companies were incorporated.

The Department of Registration of Joint-stock Companies was transferred to the Director, Industries and

Commerce in 1337 F. Since 1337 F. to 1347 F., 75 Companies were incorporated under this Act. It is also to be noted that in the year 1342 F. the Government of India was pleased to appoint the Registrar of Companies of Hyderabad as the Ex-Officio Registrar of the British Administered areas of H.E.H. the Nizam's Dominions.

Amendments to the Companies Act have been submitted to Government with a view to bringing the Hyderabad Act to the level of the amended Act of British India.

4. *Chief Functions*.—Registration and administration of Joint-stock Companies under the Hyderabad Companies Act No. IV of 1320 Fasli.

5. *Achievements*.—The Department prepared the Hyderabad Insurance Bill, the Hyderabad Companies Bill, and the Hyderabad arbitration Bill on the lines of corresponding acts of British India. The latter two bills are receiving the Government's consideration.

6. *Control*.—The Department is under the Director of Commerce and Industries who acts as a Registrar Joint-stock Companies.

No. 5.—Brief History of the Hyderabad State Life Insurance (Bima) Fund.

(Accountant-General's Office).

1. Established in 1322 Fasli (1913).
2. Heads of the Department and period of their tenure:—

Officer-in-charge.

1.

2. Mr. Dilsukh Ram, B.A., LL.B., Chartered Accountant, 1-3-43 F. (Continuing).

3. *Brief History.*—Prior to the establishment of the State Insurance Fund Department, there existed a branch in the Accountant-General's Office named the "Family Pension Fund." In this the benefits offered were meagre and inadequate. Though scores of insurance companies of British India and foreign countries were doing business in the State, they could not touch any appreciable degree of population for various reasons. Thus the lot of Government pensioners and the surviving members of a deceased servant was pitiable. In 1322 F. (1913) Government went a long way to alleviate the distress of such forlorn spendthrifts and their unhappy survivors. The benefits of the Life Insurance have been brought within easy reach of all government servants by compulsory contribution to purchase of policies with provision to increase the assured amount according to the desire of the policy holder to a certain extent. The rules governing profits, renewals, payments after maturity of a policy to the policy holder or in case of death to the rightful survivors are all such as found in any other Life Insurance Company.

4. *Chief Function of the Department.*—Developing ‘insurance mind’ in all the servants of the Government by way of providing insurance funds.

5. *Achievements.*—The immense popularity gained by the department in such a short time will be gauged by the continuous increase in its capital which rose to Rs. 1,02,50,695 in 1346 F. and the income from premiums for Life Assurance and Annuities was Rs. 7,05,364 in 1346 Fasli. The amount claimed and paid was Rs. 3,25,404 (both claims by death and by survivance). The first valuation made till 1344 F. enabled the Government to declare a bonus of 2 per cent. per year.

6. *Control.*—The general control is vested in the Managing Committee of the Famine Department under the supervision of the Accountant-General who is assisted by an Officer in charge for this particular work.

SECTION XXXVIII.

Prices and Exchange.

XXXVIII.—PRICES & EXCHANGE.

GOLD AND SILVER.

The average price of a tola of gold was Rs. 40-14-1 and that of silver Re. 0-11-8. The highest quotation of gold was Rs. 42-3-0 in September 1938 (Aban 1347 F.) and for silver Re. 0-11-11 in July 1938 (Shahrewar 1347 F.).

COTTON.

The price of cotton constantly fluctuated in the different markets. For instance, in Nander Banikapas was between Rs. 107 per palla of 142 seers on the second Tuesday of Dai and Rs. 123 on the third Tuesday of Isfandar, the closing rate being Rs. 112, Havri Kapas had likewise an erratic course and was nearly in level with Bani Kapas, the initial and final rates for the season being Rs. 107; the peak rate was Rs. 121-8 on the second Tuesday of Isfandar.

Lint cotton in the same market opened at Rs. 66-4 in Farwardi and closed at Rs. 55-4-0 in Aban.

OTHER COMMODITIES.

The average quantity in seers and chataks of rice, wheat and jawar was 7-1, 6-11, 14-4 respectively per O.S. Rupee. The rates of other staple foodgrains were Bajra 12 seers and 12 chataks, Ragi 13 seers and 14 chataks; and maize 12 seers and 14 chataks. Gram averaged at 8 seers, tuar 9 seers and 10 chataks and salt 8 seers and 12 chataks.

The wholesale prices of rice, wheat and jawar for a palla of 120 seers were Rs. 16-12, Rs. 17-8 and Rs. 8-11 respectively, those of Bajra, Ragi and Maize being Rs. 9-3, Rs. 7-4 and Rs. 8-11. Gram and Tuar averaged at Rs. 14-14 and Rs. 12-9 per palla of 120 seers.

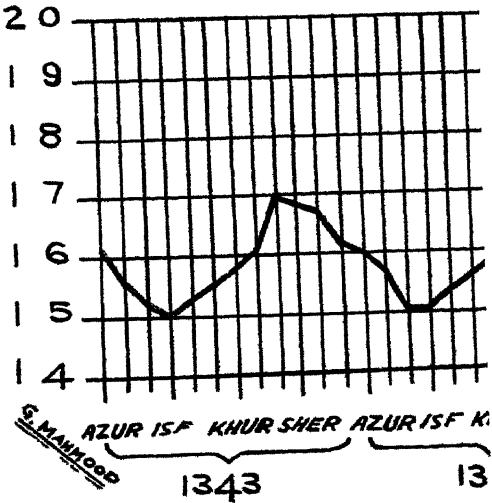

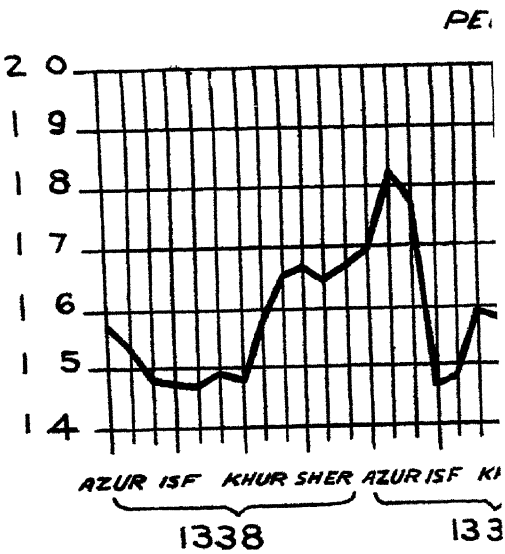

The average prices of Linseed and Castor were Rs. 4-14 and Rs. 4-3 per maund of 40 seers respectively.

O.S.—B.G. EXCHANGE RATES IN 1347 F. (1937-38).

Two permanent factors which influence the exchange rate in Hyderabad are (a) Agriculture and Trade to a greater extent and (b) monthly salaries to a smaller extent. They are both cyclical.

As regards agriculture, with the harvest of crops and the marketing of produce, there is a demand for O.S. Thus the Kharif crops are harvested from September to January and the Rabi from March to April. So the B.G. rate falls from September to January. Then it rises slightly in February and falls again in March and April. The B.G. rate rises the greatest from May to August.

As regards trade it may be pointed out that the chief articles of export are cotton, groundnut, castor-seed, linseed, coal and cement. The up-country purchasers pay through the Bank hundies in B.G. for the commodities and the Bank settles bills in O.S. This mode of payment provides an opportunity to the Banker to allow a margin for his services.

Likewise, the first fortnight of every month, being the salary period, sees some fluctuation in the rate of exchange. Salary earners in the British Administered areas convert their B.G. cash into O.S. currency for local use and the State employees exchange O.S. for B.G. for remittances to up-country. Thus during the first week of the English month O.S. is in large demand and in the next week B.G.

N.B.—O.S.—Osmania Sicca.

B.G.—British Government.

Employment and Unemployment

Not available.

SECTION—XLII.

Industries

XLII.—INDUSTRIES.

There were in 1347 F. in these Dominions, 786 large industrial establishments, *i.e.*, those which employed on an average not less than 10 persons a day. This number included 77 educational institutions which have arrangements for teaching industrial occupations; 10 factories managed by Government Agency, 11 textile (cotton and silk) mills, 53 engineering, coach-building and car repairing works, 14 mineral and metal factories, 5 food and drink concerns, 4 breweries, 14 aerated water and ice factories, 45 tobacco—cigarette and beedi—factories, 47 rice mills, 1 chemical industry, 2 bone-crushers, 10 match industries, 4 oil mills, 5 soap manufacturers, 28 printing presses, 9 process concerns, 11 carpentry and cabinet making, 5 tanneries, 223 ginning and pressing mills and 208 miscellaneous establishments.

The average number of persons employed daily was 35,423.

Of the total number of factories 577 were subject to Hyderabad Factories Act with a daily average complement of 35,279 workers.

160 accidents to workers were reported in 1347 F. of which 38 were serious and 3 fatal.

In the cotton press factories, 371,258 bales were pressed as compared with 312,368 quinquennial average.

The weaving mills consumed 63,706 bales as compared with 48,379 average for the five years. The mills also spun 19,582,708 lbs. of yarn of different counts in 1347 Fasli and wove 11,193,592 lbs. (42,405,437 yards) of cloth valued at Rs. 6.9 lakhs.

XLII.—INDUSTRIES.

No. 20.—*Brief History of the Department of Commerce and Industries (Santh-o-Hirfat).*

1. Established in 29-3-1327 F. (1918 A.D.).
2. Heads of the department and the period of their tenure:—

Directors.

- (i) Mr. C. R. Palairat 1327 to 1329 F.
- (ii) Mr. Ghulam Ali Mahmadi, B.A., F.C.S. 1336 to 1347 F.

3. *History.*—Till 1326 F., the Revenue Department was dealing with the matters concerned with Commerce and Industry. In that year an advisory of nine members (four officials and five non-officials) was constituted to advise Government on all matters relating to the industrial development of the State. With the growing importance the Government established a separate Department on 1st January 1918 (1327 F.), with a Director assisted by two assistants.

In 1330 F. (1921), however, as the result of the establishment of the Development Department the Commerce and Industries Department was abolished and its activities were associated with the Commerce and Industries Secretariat. The then officer in charge of the Department was made Deputy Secretary, Commerce and Industries. The Department was reorganised in 1336 F. (1927) by the appointment of Mr. B. A. Collins, C.I.E., I.C.S. as its Director-General and Mr. G. A. Mohamadi as its Director. After the retirement of Mr. Collins in the year 1342 F. (1933) the post of Director-General was abolished.

4. *Chief Functions.*—The work of the Department is divided in 4 main heads, namely (a) Industrial Laboratory (b) Industrial Engineering (c) Textiles and (d) Registration of Joint Stock Companies.

(a) *Industrial Laboratory.*—The main work of the Laboratory consists of (i) Analysis of samples of various articles (ii) Industrial investigation (iii) Researches and (iv) Training of students.

(b) *Industrial Engineering Section.*—The work of the section is as follows:—

(i) To give advise to the factory owners in connection with the erection of factories, installation of machinery &c.

(ii) Preparation of plans for various new factories.

(iii) Investigation of cases who apply for loans to small scale industries.

(iv) Investigation of applications for Patents.

(c) *Textile.*—Training is given in the following industries at the Cottage Industries Institute:—

(1) Weaving (2) Dyeing and Printing (3) Knitting (4) Durrie and Carpet Weaving, (5) Woollen spinning and Blanket Weaving (6) Embroidery (7) Ratan and Basket Weaving (8) Toy making and Lacquer work and (9) Namda making. Besides the above there are District Demonstration centres. These parties demonstrate the superiority of fly shuttle sleys and dobbies over old pit loom with throw shuttles by statistics and study the textile conditions of the various centres.

There is a Cottage Industries Sales Depot where all Mulki products are stocked for sale. Gold thread, Cholkhans, Poona Pattern sarees and Tusser-s'ik coatings, &c., are manufactured at Government Weaving Institute, Paithan and the students also are trained there on the above lines. High class carpets are manufactured at Experimental Carpet Factory, Warangal.

(b) *Joint-Stock Companies Section.*—Registration of Limited Companies is done by the Director in the capacity of the Registrar.

5. *Achievements*.—The Cottage Industries that were dying out were subsidized and encouraged with financial and technical help.

6. *Control*.—The department is under a Director assisted by a Personal Assistant, Industrial Engineer, a Textile Expert, a Superintendent for District Demonstration Parties, a Dyeing Expert and a Superintendent for Cottage Industries Institute, The Industrial Laboratory has six Chemists and a Paper Expert.

XLII.—INDUSTRIES.

No. 21.—Brief History of the Factories and Boilers Inspection Department.

1. Established on 20-5-1321 F. (1912).
2. Heads of the Department and the period of their tenure:—

Chief Inspectors.

- (1) Mr. D. F. Lanten 20-5-1321 to 1-7-1332 F.
- (2) Mr. A. M. Abid Evans 2-7-1332 to 2-4-1339 F.
- (3) Mr. R. S. Farnie, 9-8-1339 to 6-6-1342 F.
- (4) Mr. Harold Green 7-6-1342 to (continuing.)

3. *History.*—About the beginning of 1321 Fasli, the Hyderabad Boiler and Machinery Inspection Act was enforced in the State and a Boiler Inspector was appointed to administer the Act.

In 1339 F. the Hyderabad Factories Act modelled on the Government of India Factories Act then in force, was enforced throughout the State. This Department was consequently reorganised and enlarged. Two Inspectors in addition to a Chief Inspector were appointed.

About the beginning of 1344 Fasli, the Hyderabad State Boiler and Machinery Act modelled on the Government of India Boilers Act then in force was enacted and enforced throughout the State.

1321 to 1347 Fasli has been a period of very marked industrial activity and progress in the State. The total number of factories increased from 150 to 577. The number of boilers on the register has risen from 96 to 538. The average daily number of operatives working

in factories rose to 35,423. Various new industries such as power pressing oil mills, cement factory, match factories, cigarette factories, tile and earthenware pipe factories, spinning and weaving mills with modern machinery and button manufacturing factories and power printing presses have been started. Electric power supply has been introduced in the city as well as in several district towns.

With a view to ameliorate the condition of factory labour, the Government propose to introduce the Workmen's Compensation Act, the Maternity Benefit Act, and the Payment of Wages Act. Of these, the first has been under consideration of the Government for some time and is expected to be introduced shortly.

4. *Chief Functions.*—Inspection of factories and boilers within the Hyderabad Dominions. The Chief Inspector had been notified as the Inspector of Factories in the Railway Lands in the Administered Areas. Therefore the Railway Workshops which are large establishments, giving employment to more than 3,000 persons, are also inspected.

5. *Achievements.*—Legislative measures enforced.

6. *Control.*—The department is under a Chief Inspector assisted by two Inspectors one for Boilers and one for Factories.

SECTION—XLIII.
Scarcity and Famine Relief

SECTION XLIII.

SCARCITY AND FAMINE RELIEF MEASURES..

Government have created a fund for the relief of scarcity in these Dominions. In 1347 F. parts of five districts, Medak, Mahbubnagar, Nalgonda, Gulbarga and Raichur were given help to the extent of Rs. 11.8 lakhs, of which Rs. 8.7 lakhs was devoted to the extension of communications and Rs. 2 lakhs were in the form of taccavi. For famine prevention measures such as construction of wells and purchase of tools and plants, Government spent Rs. 66,000.

Taccavi loans were given to peasants in parts of 14 districts; the total being Rs. 1.3 lakhs.

Well-sinking.

The Well-sinking Department continued to function, the number of wells sunk in 1347 F., being 346 in Gulbarga district at an average cost of Rs. 1,210 a well. The department's cost in 1347 F. was Rs. 85,000.

No. 4.—*Brief History of the Well Sinking Department.*
(*Kandidagi Bawliht*).

1. Established in Thir 1337 F. (1928).
2. Heads of the Department and the period of their tenure:—

Superintending Engineer.

1. Capt. Leonard Munn, O.B.E. 1337 F. to 15-1-45 F.
2. Mr. D. V. Rao, B.Sc. 16-1-45 F.
3. Mr. Md. Ahmed Mirza, C.E. (contg.).

3. *History.*

The Well Sinking Department, is a unique experiment and first of its kind in India, intended to provide in every village, unfailing supply of pure drinking water. It was inaugurated with the gracious commands of His Exalted Highness the Nizam, in Thir 1337 F. The work was started in the Raichur district, where owing to absence of an adequate supply of pure drinking water evacuation of entire villages was in progress. The Department with Lingsugur as centre, completed 1527 wells in the Raichur district by the end of 1345 F. In all 1858 wells have been provided in 1167 villages by the end of 1347 F.

Having completed all that was necessary on that side of the Krishna in the Raichur district, the activities of the Department were shifted in Isfandar 1345 F. to the 3 Sarf-i-Khas taluqs of the Gulbarga district.

1130 works have been proposed for the 3 Sarf-i-Khas taluqs of Shahpur, Sorapur and Andola. The programme is expected to cost Rs. 14 lakhs. 794 wells including the 2 wells of Yadgir taluc were completed from Isfandar 1345 F. to the end of 1347 Fasli.

The policy of the Department from its inception was to provide separate wells for castes and non-caste in view of the religious and social susceptibilities. Wells provided for the non-castes are not used by a section of the non-castes, who arrogate to themselves a position of superiority over their brethren. The Department sought to face this situation in the Raichur District, by giving combined wells, with a partition wall, which sealed off the water into two halves, each half being allotted to each sub-caste. But this did not prove a success. Therefore, in the Gulbarga District, the construction of combined wells has been discontinued and only one well is being provided for the non-castes, with permission to other sections of the non-castes to use the well.

4. *Chief functions.*—New wells are sunk where there are none existing. Where it is practicable and economical, the old step-wells are converted into standardised draw-wells.

Such of the old step-wells, which cannot be economically converted into standardised draw-wells, but are the source of Guinea-worm infection and the cause of other water-borne diseases, are sterilised or blocked or filled up which ever is suitable and economical.

5. *Achievements.*—As a result of providing pure drinking water-supply so extensively (a) the migration of the State subjects of the Raichur and Gulbarga Districts, to the bordering villages of the British territory, in search of water, has stopped and (b) the guinea-worm infection has been completely eradicated, and (c) Cholera and other water-borne diseases have been brought under control.

6. *Control.*—The Department is under the control of a Superintending Engineer assisted by a Special Officer.

SCARCITY AND FAMINE RELIEF.

No. 5.—*Brief History of Famine and Scarcity in H.E.H. the Nizam's Dominions.*

History.—The Western portion of the Dominions comprising Raichur, Gulbarga and parts of Bir, Osmanabad and Aurangabad are more susceptible to crop failure than other parts of the Dominions and have been recognised as a 'Famine Zone.'

Reports of famines and scarcities exist from 1629. Many of these famines were the result of drought; many were brought about by wars and political disturbances. There was a great famine in 1630 A.D. which devastated Daulatabad and the surrounding country. 20 years later, another famine occurred which was caused both by wars and by drought. In 1659 there was a famine throughout India and the territory now comprising the Nizam's Dominions had to bear its full share in the calamity. Again in 1681 the central portion of the country was affected by famine due both to the state of war, then existing, and to a season of drought, both of which accompanied the downfall of the Kutub Shahi dynasty. 1685 and 1713 were also famine years. In 1730 the first recorded famine, since the Asafia dynasty came into power, occurred and there was great distress throughout the Deccan. The year 1747 was a famine year. Again in 1749 a serious famine occurred in Aurangabad and its adjoining districts. The same parts were affected again in 1787. In 1792-93 distress prevailed in the Telingana districts owing to a severe famine which affected also the city of Hyderabad and its suburbs. This famine extended as far as the Raichur district. It was known as the *Doi Barra* or the skull famine owing to the appalling number of human beings that perished.

The following table shows dates of subsequent famines, the areas affected, the approximate amount of money spent by Government for the relief of distress and the names of Famine Commissioners, etc.

A.D. Fasli year	Areas affected	Price of Staple food (seers for a Rupee)	No. of persons affected	Govern- ment Expen- diture	Famine Commissioners
1	2	3	4	5	6
1804 (1213 F.)	Lingsugur, Raichur Nagarkurnool, Aurangabad, Hyderabad City, Bir, Bidar and Parbhani districts.	Ragi 2½ Jawar ½ in Aurangabad (due to war & plunder) and 2 in Bir.	Thousands Perished in Raichur, Bir & Parbhani ..	No record of famine relief measures	
1813 (1222 F.)	Bir, Bidar, Parbhani & Shorapur.	Jawar 6 in Shorapur, 3 in Gulbarga, 5 in Bir and 3 in Parbhani	do do

1927 (1336 F.)	Lingsugur, Sindhnur, Nalgonda	Mr. Md. Rahmatullah (Director of Statistics).
1934 1935 (1343-44)	Parts of Raichur, Gulbar- ga and Karimnagar	17 lakhs	Director General Revenue

† Rs. 2,22,000 subscribed for by Public was also spent.

* Rs. 56,233 " " " " "

Achievements.—During the last 100 years the sense of obligation on the part of Government to give relief has developed and has been more and fully acted on. The policy to save every life remains, but Government recognised that a nonetheless essential object of State intervention is to prevent physical deterioration and dissipatedness among the people and so to place them in a position easier to resume their ordinary pursuits on the advent of better times.

There can be no doubt that conditions in the Dominions have greatly changed in the last forty years since the last great famine period of 1305 F., and that there is now less risk of serious distress which then occurred and in the still earlier famine periods. Communications have greatly improved; labour is more mobile; industrial employment is now available on a larger scale and capable of being further stimulated in times of scarcity. The great development in irrigation has resulted in protecting some crops over large areas even in years of very scanty rainfall; the people lastly have now greater resources and are more self reliant. It is, of course, still possible that the recurrence of a series of bad seasons might lead to a state of widespread distress and to the establishment over a large area; of severe famine conditions.

A Famine Board consisting of the following was created in 1927 and is now functioning:—

The Revenue Minister (Chairman)
 The Famine Minister
 The P.W.D. Minister

Government started a Famine Reserve Fund in 1332 F. with a contribution of Rs. 15 lakhs every year.

SECTION—XLIV.

XLIV.—MISCELLANEOUS.

No. 3.—*Brief History of the Ecclesiastical Department.*

(*Umoor-Mazhabi*).

1. Established in the year 1294 F. (1885).
2. Heads of the Department with period of their tenure:—

Sadi-us-Sudur.

1. Nawab Rasool Yar Khan 1294 F. to 1304 F.
2. Nawab Izzat Yar Khan Mohiud-Dowla Bahadur 1305 F. to 1324 F.
3. Nawab Fazilat Jung Bahadur 1321 F. to 1324 F.
4. Nawab Ikramulla Khan 1324 F. to 1326 F.
5. Nawab Akhtar Yar Jung Bahadur 1326 F. to 1344 F.

Nazim.

6. Mr. Aliuddin Ahmed 1-1-1345 F. (continuing).

3. *History.*—H.E.H. the Nizam's Government have a special and permanent department which was established in 1161 Hijri, *i.e.*, about two hundred years ago. This department was originally given the name of Sadaratul Aliya and it dealt with all the religious matters such as distribution of Yomias, control of expenditure from religious grants, construction of places of worship, arrangements for sending pilgrims, etc., under an Officer called Sadrus Sudur. This Officer had the power of appointing and dismissing the subordinates, to carry out the religious functions and of checking the weights and measures. The Sadrus Sudur was also called 'Nirkhi.' This designation was based on the fact that he had to fix the rates of provisions. The powers of Sadrus Sudur could be imagined from the fact that judicial matters (before the creation of the Judicial Department) and judgments passed by the Qazi and Kotwal were executed through the Sadrus Sudur.

The year 1294 F. is an important year in the history of the Sadaratul Aliya Office. In this year, during the incumbency of Nawab Imadus Saltanat, in consequence of the revision of the different functions of Sadaratul Aliya, it was split into two separate and permanent offices. The first office retained and still retains its old name and prestige while the newly established one was given the name of Ecclesiastical Department.

The Office of the Director, Ecclesiastical Department was separated from the control of the Sadrus Sudur and all the Government orders and correspondence that were carried on under the name of Sadrus Sudur were conducted under the name of Director, Ecclesiastical Department and later on this designation, Director, was changed to that of the Secretary, Ecclesiastical Department. In 1304 Fasli when the Qanunacha Mubarak was enforced the post of the Secretary was abolished and the department was amalgamated with the Judicial and General Secretariat. When Hurmuz Jung became the Secretary of Judicial, etc., the Ecclesiastical Branch of the Secretariat was again separated but in 1310 F. it was attached to the Judicial and General Secretariat for the second time.

It was in 1329 F. during the Directorship of Nawab Akhtar Yar Jung Bahadur that the Secretariat was again amalgamated with the Director's Office and the said Nawab continued to discharge the combined functions of a Secretary as well as of a Director of the department till the end of 1344 F.

When Mr. Aliuddin Ahmad, on the retirement of Nawab Akhtar Yar Jung Bahadur, took over charge of the Office in 1345 F. the Ecclesiastical Secretariat was once again merged in the Judicial Secretariat.

4. *Chief Functions.*—1. General control and supervision of mosques, temples, churches and other religious buildings.

2. Supervision and protection of the properties endowed for religious purposes.

3. Arrangements and supervision of the cash and landed properties granted for religious services.

4. Supervision of the work of persons appointed for religious duties.

5. Necessary arrangements for the religious functions.

6. Construction and repairs of religious buildings.

7. Supervision and maintenance of religious schools and libraries.

8. Arrangements necessary for pilgrims.

9. The distribution of fixed and sanctioned Mamuls, Yomias and Saliyanas.

10. Entry of endowed properties in the Register of Endowments.

11. Adjustment of religious differences and creation of amicable relations among the subjects of H.E.H. the Nizam's Government professing different religions.

5. *Achievements*.—Properties endowed for charities and other public purposes by philanthropists are investigated, registered and put into proper use.

6. *Control*.—The department is under a Director aided by two Assistants and a Superintendent.

N B —The year 1347 F =Oct 1937 to Sept 1938

XLIV.—MISCELLANEOUS.

No. 5.—*Brief History of the Statistics Department.* (*Adad-o-Shumar*).

1. Established on 19th Khurdad 1328 F.
2. Heads of the Department and the period of their tenure:—

Directors.

1. Mr. Mohammed Rahamatullah
(Nawab Rahmat Yar Jung Bdr.) 19-7-1328 to
30-4-1338 Fasli.
2. Mr. Abu Muhammad, (In charge) 1-5-1338 to
6-3-1339 Fasli.
3. Mr. Ghulam Ahmed Khan 7-3-1339 to 31-6-1342 Fasli.
4. Mr. Mazhar Husain M.A., B.Sc., 1-7-1342 Fasli (con-
tinuing).

3. *History.*—The Department of Statistics was created by a Firman dated 22nd Rajab 1337 Hijri (19th Khurdad 1328 F. or (24th April 1919), eight years after His Exalted Highness' accession. Its creation was received with satisfaction by the Government of India, and made the subject of commendation by the Viceroy, H. E. Lord Chelmsford, in the sessions of the Chamber of Princes.

Previously the only evidence of a definitely statistical character was the decennial population census, beginning with 1290 F. (1881). The different departments of Government also collected such statistics as were of immediate concern to them for administrative purposes and much of them lay buried in the Yellow Books. Statistics of socio-economic importance had been left untouched or treated inadequately. Consequently, the range of economic activities and the material development of the State could not be properly gauged from the information obtainable from the department administra-

tion reports. Gradually statistical consciousness emerged as the need for quantitative data grew, and this department came into existence. The scope and function of the department are almost similar to those of like departments of the Government of India and of the Dominions of Australia, Canada and New Zealand.

Within this short life the department progressed so rapidly and gained such importance that it is now considered *sine qua non* for State administration.

R. A. Fisher Esq., Sc.D., D.Sc., F.R., Galton Professor of Eugenics, London University, who visited Hyderabad, inspected the office in 1347 F. (1938). Besides paying a warm tribute to the functions of the Statistics Department he emphasized the need of developing at a very early date the commercial intelligence side and the establishment of a Research Department (a) as training ground for responsible posts later. (b) To allow special enquiries to be carried out independently of the routine work of collection and tabulation.

4. *Chief Functions.*—This can be classified into two groups, *viz.*, (1) routine and periodical collection and publication of various statistical matters and (2) Remarks and review on the material thus gathered.

The following are the main heads of statistical subjects for which regular statements are compiled and supplied to Government Departments, Government of India, and Local press and also published in the Jarida.

- (1) *Issued every week.*—Season and Crop Reports and Cotton Bales Pressed in Factories.
- (2) *Issued every fortnight.*—Retail and Wholesale Prices of Commodities, and Linseed Stock.
- (3) *Issued every month.*—Special Reports on Season, Agriculture and Economic Conditions during monsoon periods, Export Trade and Market Prices of Cotton, quantity of yarn Spun and Cotton Goods Woven in Factories and their value,

Consumption of Cotton in Mills, Returns of Selected Industries, *e.g.*, Matches, Cement, Glass, Distillery Produce and Tanneries, Cigarettes, Vegetable Oil Production, Imports of Foodgrains and Joint-stock Companies and Wholesale Prices.

- (4) *Issued every year.*—Trade Statistics and Review of Trade Statistics of Cotton Mills, Ginning and Pressing Factories, Trade, Joint-stock Companies, Large Industrial Establishments, Cotton Stock, Cattle Mortality and Statistics of various departments for the Statistical Year Book. It has as many as 380 statements accompanied by numerous charts, diagrams and other statistical devices, showing the activities in the State of various Government Departments and Private organizations.

- (5) *Issued periodically during the year.*—Forecasts for 19 principal crops, Railway Statistics, Motor Transport, Post-mortem Examination of Cotton Crop.

(b) The other works of periodical nature include the following:—

1. Population Census (every 10 years).
2. Live-stock Census (every 5 years).
3. Urban and Rural wages Census (every 5 years).
4. District Gazetteers (both tables and descriptive Volumes) (every 5 years).
5. Census of Cotton Stock (every year).
6. Village Lists (every 10 years).
7. Prices Statistics (every 10 years).
8. Cotton Manual (every 10 years).
9. Agricultural Statistics (every 5 years).

5. *Achievements.*—The department conducted and published reports of two previous population census (1921 and 1931) four live-stock censuses (1920, 1925, 1930 and 1935) wages and labour census for 1935 and

issued a score of useful series of statistical publications relating to trade, agriculture, economics, census, labour, etc. The department keenly participated in the All-India Economic Conference held in 1937 at Hyderabad and is an active member of the All-India Cotton Committee at Bombay.

Both Government and public including statisticians and students of Indian Universities and overseas seek the assistance of this department for various statistical facts and figures.

6. *Control*.—The department is under a Director assisted by a Deputy and two Assistants.

XLIV.—MISCELLANEOUS.

No. 7.—*Brief History of the Department of Archaeology.* (*Asar-e-Qadima*).

1. Established in 1323 Fasli (1914).
2. Heads of the Department and the period of their tenure:—

Mr. Ghulam Yazdani, M.A., F.R.A.S.B., O.B.E.,
Director, 21-7-1323 Fasli (Cont.)

3. *History*.—The department was established with the twofold object of preserving the ancient monumental works of Ajanta and Ellora. A Director was appointed in 1914. In 1325 F. (1916 A.D.) an artist was appointed at Ajanta as Curator for preventing the removal of fresco pieces from the walls and the disfigurement of the paintings and sculptures of the world-famous architectural glory of the Ajanta and Ellora.

4. *Chief Functions*.—(a) to preserve and study authentic specimens of the monumental antiquities of the Dominions. (b) To excavate and survey such sites as are likely to throw light on the past history of the country. (c) To arrange for the systematic collection and location of movable antiquities such as, sculptures, inscriptions, manuscripts, paintings, coins, arms, fabrics, ceramics, etc.

5. *Achievements*.—The departments since its inauguration has successfully preserved all the principal monuments of the Dominions and made excavations at several pre-historic and proto-historic sites and established a Museum in Hyderabad for the location and exhibition of genuine specimens of the arts and crafts of the Dominions. This has also published a vast literature in the form of monographs, guide-books and illustrated articles. Successful preservation of the world-famous Ajanta frescoes and the publication of a colossal mono-

graph, *Ajanta* are the noteworthy achievements. The Museum, located in the Public Gardens of the City of Hyderabad, contains many rich collections of rare coins and antiquities. It is under a Superintendent and is open to the public free of charge. There are Curators at Ajanta, Ellora and Bidar whose duties are to carry out the instruction number of the Director regarding the preservation and upkeep of monuments and to offer facilities to visitors and students in seeing and studying the monuments.

6. *Control*.—The department is under a Director with an assistant for office work, a Superintendent for the Museum and three Curators for the conservation and exploration of monument.

N.B.—The year 1847 F — Oct 1937 to Sept 1938.

XLIV.—MISCELLANEOUS.

No. 9.—*Brief History of the Information Bureau.* (*Malumat-e-Ama*).

1. Established on 1-10-1340 F. (1931 A.D.).
2. Heads of the Department and the period of their tenure:—

Directors.

1. Mr. Marmaduke Pickthall 1-10-1340 to 16 - 8-1341 F.
2. Mr. Qadir Hussain Khan,
M.A., Bar.-at-Law ..17 - 8-1341 to 13-12 1343 F.
3. Mr. Mirza Ali Yar Khan,
B.A. (Oxon) ..14-12-1343 to 12 - 3-1346 F.
(Nawab Ali Yavar Jung Bdr.)
4. Mr. Syed Mobarak, B.A...13 - 3-1346 to 12 - 9-1346 F.
5. Mr. Habib-ur-Rahman,
M.A., LL.B., B.Sc. Hons.
(London) ..13 - 3-1346 F. (Continuing).

3. *History.*—The Bureau was started with the primary object of acting as a “liaison” department between the Government and the Press; its aim is, on one hand, to keep His Exalted Highness’ Government informed of all the important views expressed in newspapers, journals and on the other, to keep the Press informed of Government opinion.

4. *Chief Functions.*—The duties of the Bureau include the issue of Communiques, Press Notes and Notifications on important political, economic and administrative matters, and the contradiction, correction or amplification of unfounded or ill-informed statements appearing in the newspapers from time to time. It supplies information on specific and general matters to authors, journalists, merchants and others, besides

preparing and publishing General Administration Reports and brochures compiled by other departments of His Exalted Highness' Government to the Press and to various institutions and to eminent personalities both in India and abroad.

Besides its activities connected with the Press publicity the department also purchases and distributes various newspapers to offices of the State and educational institutions, prepares monthly news summaries, supply newspaper cuttings to various departments concerned and prepares talks for the Broadcasting Station.

5. *Achievements*.—The Bureau has compiled a comprehensive report of the progress of the State in all directions during the period 1320 Fasli, corresponding to 1911 to 1935 A.D.

The Bureau brought out in 1346 F. a film of modern Hyderabad known as "Mumalakath-e-Asafia" in collaboration with the State Railway authorities.

6. *Control*.—The department is under a Director assisted by the Assistant Press Commissioner and three assistants. The department works under the Secretariat of Constitutional Affairs and Hon'ble the Political Member having its portfolio.

No 10 —STRENGTH AND EXPENDITURE OF WIRELESS DEPARTMENT

1344 F	1	1	4	4	5,700	4,168	96		157	13,416	23,537	..

Note—(1) As the Broadcasting is still going on an experimental basis and no license fee is levied on public, the Department is having no income. The License Fee Act has been approved by H E H and will be put into force shortly.

(2) The Department was established on 1st Farwardi 1344 F hence the expenditure for 1344 F. is for 8 months only

The year 1347 F. = Oct. 1937 to Sept. 1938.

XLIV.—MISCELLANEOUS.

No. 11.—*Brief History of the Wireless Department.* (*La-silki*).

1. Established in 1344 F. (1935 A.D.).
2. Heads of the Department and the period of their tenure:—

(1) Mr. Mahboob Ali,
Director 1-5-1344 to 31-6-1348 Fasli.

(2) Mr. Fazlu Rahman,
Deputy Controller 1-7-1348 Fasli (Cont.)

3. *History.*—The transmitter, originally built by the former Director, was bought over and his Experimental Broadcasting Station declared as the Government Broadcasting Station from 1st Farwardi 1344 Fasli, which marks the beginning of the Government Broadcasting Service. The Wireless Department was formerly controlled by a Board but its powers have now been vested in the Hon'ble Army Member, H.E.H. the Nizam's Executive Council.

A further change that was effected was the abolition of the post of the Director of Wireless and the appointment on the Broadcasting and Programmes side a Deputy Controller who has received training in programme planning and administration at the British Broadcasting Corporation in London and in Egypt and for the technical side, pending the return of an Engineer of the District Electricity Department after a course of training in Marconi's College of Wireless Communication at Chelmsford, a Wireless Expert from Marconi's has been temporarily engaged as Wireless Adviser. The achievement of the Department so far is the establishment of a Transmitting Station at Saroornagar and as broadcasting in the State is to be eventually developed so as to cover large areas in the State, a regional station at Aurangabad

to be followed by similar stations at Gulbarga and Warangal is likely to be completed in the near future. Under the new scheme also contracts with various departments, particularly nation-building, and with the public in the matter of arranging programmes will be maintained through Programme Committees which will function subject to rules regarding Broadcasting. These Programme Committees will have a lady on its personnel in order that attention may be paid to the requirements of women and children.

4. *The Chief Functions* of this department are to broadcast programmes of educational and entertainment value. The programmes are divided into three main sections:—

1. Music.
2. Talks.
3. News.

This includes Vocal, Instrumental and Orchestral Music, while (2) and (3) cover Talks, Articles, Government Notifications, News, Dramas and Dialogues.

Important events or speeches outside the Broadcasting Station are also relayed, whenever possible and desirable.

Out of the total transmission hours roughly 75 per cent. was used in Vocal, Instrumental and Recorded Music and the rest for Talks and News.

5. *Achievements*.—A new Transmitting Station of a capacity of 5 K.W. medium band and most up-to-date apparatus has been constructed at Saroornagar and is due to start soon.

6. *Control*.—The department is under the Secretary to the Government for Constitutional Affairs assisted by the Wireless Adviser and the Deputy Controller.

XLIV.—MISCELLANEOUS.

No .13.—*Brief History of Nizamiah Observatory.* (*Rasadgah*) Nizamiah.

1. Established in 1317 F. (1908 A. D.).
2. Heads of the Department and the period of their tenure.

DIRECTORS.

- (1) Mr. A. B. Chatwood, B.Sc., F.R.A.S.
1317-1323 F.
- (2) Mr. R. J. Pocock, B.A., B.Sc., F.R.A.S.
1323-1328 F.
- (3) Mr. T. P. Bhaskaran, M.A., F.R.A.S., F.N.I.
1328 F. (cont.).

3. *History*:—The history of the Observatory dates from the time the late Nawab Zafar Jung Bahadur presented to the Government two fairly large telescopes, which he had purchased for his private use during his sojourn in Europe. When the matter of the bequest was before the Government, Mr. Akbar Hydari (Now Right Hon'ble Sir Akbar Hydari, Nawab Hydar Nawaz Jung Bahadur, P. C. Kt., L.L.D.), the then Financial Secretary referred to the importance of the gift and emphasised the unique opportunity that had been thus afforded for the establishment of an Observatory at Hyderabad. This suggestion was adopted, and it was decided to establish a fully equipped Observatory with the two telescopes as a nucleus. Mr. Chatwood was appointed Director in 1908 and soon after his arrival in Hyderabad, he selected a suitable site for the Observatory and promptly started the construction of the necessary buildings for the accommodation of the instruments and of a small workshop. The photographic equatorial was erected by the beginning of 1910 when the formal dedication of the Observatory took place. There was some delay in commencing regular work with this telescope as some of the parts had to be returned to England for necessary alter-

ations and a suitable following telescope had to be constructed afresh. Mr. Chatwood made a commencement with regular astronomical observations. Mr. Pocock succeeded and pushed on the astronomical work and two volumes of results were collected and published in 1918.

The whole work of the "*Carte due ciel*" Hyderabad section was completed under direction of his successor Mr. T. P. Bhaskaran who has published the remaining volumes of the astrographic catalogue and thus brought work to a successful conclusion.

In 1928 at the request of the International Astronomical Union, the section of the sky originally allotted to the Observatory at Potsdam in Germany, was undertaken by the Nizamiah Observatory; the work of measurement and reductions has been completed and two volumes of measures have been published. Material for two further volumes has been got ready for publication. The heavy expenses in connection with the printing of these four volumes are defrayed from a generous grant made by the International Astronomical Union.

In 1923, the equatorial telescope by Grubb (object glass 15 inches aperture) was erected and brought into working order for regular visual observations.

The same year, a seismograph-Milne Shaw pattern was installed for the study of earthquakes and a second machine was added in 1929. A special underground chamber was constructed in 1933 for accommodating these delicate instruments.

At the suggestion of the Government of India, a pilot balloon station for observing upper air conditions was attached to the Observatory in 1929 and since then, regular observations are being carried on, by means of pilot balloon flights in co-operation with Meteorological Department of the Government of India.

4. *Chief Functions*:—Astronomical observations, observations of surface weather and upper winds, maintenance of earthquake records by seismographs, control of the Dominion Rainfall organisation.

5. *Achievements*:—Publication of the Astrographic Catalogue Hyderabad section in 10 volumes in co-operation with the International Astronomical Union.

6. *Control*:—The Department is under a director.

XLIV.—MISCELLANEOUS.

No. 15.—*Brief History of the Daftar-i-Diwani mal-o-Mulki.*

1. Established in the reign of Nawab Asaf Jah Bahadur I.
2. Heads of the Department and period of their tenure:—

Nazim.—Syed Khurshid Ali 17-2-1325 F. (contg.)

3. *History*:—The Daftar-i-Diwani was established in the reign of the late Nawab Asaf Jah Bahadur. It has the documentary record of the Dominions including some about the Moghal Emperors and so the papers have an unbroken continuity from the time of Emperor Jehangir.

After the establishment of the Asafia dynasty, Nawab Asaf Jah Bhadur the First, started the office of the Diwani in the Deccan for administration purposes on the same lines as that of the Moghal Emperors. After some time the office was divided into 2 sections. The Provinces of Aurangabad, Berar, Bijapur and Burhanpur were connected with the Daftar-i-Diwani and those of Hyderabad and Bidar with the Daftar-i-Mal. The heads of these departments were called Sar-Daftar or Daftardar. To augment and complete the functions of these offices other sub-offices were established from time to time to deal with special cases, but all the civil and military affairs were settled by Daftar-i-Diwani. When during the regime of Sir Salar Jung Mukhtar-ul-Mulk Bahadur, the administration was laid on new foundations, the present Secretariat were constituted. After that the affairs of State administration ceased to concern the Daftar-i-Diwani and Mal.

The duties connected with Sanads, Diwani and Mal, etc., which had been exercised by the Daftardars were one by one taken under control of other Government Departments and the offices which were thus amalgamated into one unit are:—

1. Daftar-i-Diwani.
2. Mal.
3. Mulki.

1. Darul Insha.
5. Istifa.
6. Mansab and Kitabat.
7. Mawahir.
8. Salatin Moghlia.

4. *Chief Functions*:—(1) Verification of Sanads of all Jagirs, Inams, maashes in the State, enquiries in connection with maashes disputes among Jagirdars and settlement of Government accounts, furnishing details of old agreements.

(2) Record and verification of honorific titles granted to persons by the State.

(3) Granting of permission for the preparation and custody of all the seals and badges used in the State.

5. *Achievements*:—The Department being a repository of State records, historical old papers and documents of the Moghal Emperors and of Hyderabad State are recorded in this office and owing to the extraordinary importance of such records, the Department holds a distinction not only in Hyderabad but also in foreign countries.

The Indian Historical Record Commission has co-operated with this Department in certain matters. Distinguished men of India and Europe make use of the valuable historical records available here for their literary works.

6. *Control*:—The Department is under a Nazim (Director) who is helped by two Assistants and four Deputy Assistants.

XIV. MISCELLANEOUS.

3. *History.*

- 1261 F:—The Court of Wards was established as a section under the Judicial and Police Secretariat. The work was done nominally.
- 1292 F:—The Court of Wards Section was placed under the Revenue Secretariat. The work still continued to be nominal.
- 1293 F:—Home Department was formed, and the Court of Wards Section was placed under it. Notices were issued that anybody could inform Government if there was any minor whose property required Government supervision. No separate accounts of the estate funds were kept. They were included in the Government accounts. One could not say how much of the income of a certain estate was, or whether a certain estate had left any balances or had spent more than its income.
- 1298 F:—After realising the unsatisfactory state of affairs in estates under the management of the Court of Wards, the Sadar-ul-Moham ordered that a correct list of the estates under supervision be prepared. After this, many of the estates were released. In some of the cases, the managers of the estates were ordered to send annual reports to Government in a certain prescribed form. The Subedars and Talukdars were directed to have better supervision and pay more attention towards the estates under Court of Wards.
- 1299 F:—A Superintendent of the Court of Wards was appointed for all the estates under supervision and it was ordered that he could draw his salary from the 1½ anna cess collect-

ed for supervision, and a Dastur-ul-Amal was also issued in 1300 F.

1307 F:—Court of Wards Act No. V. was passed.

1311 F:—The Court of Wards was again placed under the Revenue Secretariat, where the powers of Superintendent of the Court of Wards were exercised by the Revenue Secretary. Joint Secretary did all the Court of Wards work, and forwarded important papers with his opinion to the Revenue Secretary. In the districts, the Court of Wards work was done by the Talukdars or by Special Managers appointed for individual estates. They worked under the supervision of the Subedars.

1313 F:—Later, a separate superintendent of the Court of Wards was again appointed in the Revenue Secretariat.

1318 F:—Powers of the Superintendent of the Court of Wards were defined and published.

1319 F:—The Court of Wards Act was revised

1325 F:—The Superintendent of the Court of Wards was designated 'Nazim,' Court of Wards, and the estate managers who had more than one estate under them were called 'Naib Nazims' or Divisional Officers. Two such managers who were working in Balda became Divisional Officers, of Telingana and Marathwara. Government Revenue Officers, *i.e.*, Talukdars and Subedars were relieved of the Court of Wards work.

1336 F:—The Director-General and Revenue Secretary was declared to be the Court of Wards.

1336 F:—A Special Commission under the presidency of Mr. T. J. Tasker, I.C.S., O.B.E., C.I.E., the then Court of Wards, was formed to consider and submit proposals to Government for the release of estates whose owners had attained majority.

1339 F:—Court of Wards Department was re-organised. The posts of Divisional Officers of Balda were abolished and the estates were placed under the District Talukdars with powers equal to those of the Nazim, Court of Wards. The post of the Nazim, Court of Wards was brought in the cadre of the 1st Talukdars.

1344 F:—Local Fund accounts were separated from the estate accounts.

1345 F:—The Court of Wards management fee has made the first change on the gross income of all the estates under supervision.

1347 F:—An amended Act of the Court of Wards was referred to a Select Committee of the Legislative Council.

4. *Chief Functions*:—The chief functions of the Department are:—

1. To educate wards and members of the wards' family.
2. To liquidate debts.
3. To make permanent improvements in villages.
4. To regularize estate accounts.
5. To improve the income of the estates.
6. To invest surplus cash balances.

5. *Achievements*:—These have been mentioned in the chronological history of the Department.

6. *Control*:—The Department is under a Nazim (Director) with two Assistants.

XLIV.—MISCELLANEOUS.

No. 18.—Brief History of the Constitutional Affairs Secretariat.

1. Established in Thir 1345 F. (1936).
2. Heads of the Department with the period of their tenure.

Secretary:—

- (1) Nawab Ali Yawar Jung Br., B.A., (Oxon.)
Thir 1345 F. (cont.)

*History:—*The origin of the Constitutional Affairs Department to the extent of External Affairs, may be traced to the State Delegation appointed by His Exalted Highness to participate, under special instructions from him, in the discussions at the First Round Table Conference held in London in 1930, in connection with the future constitution for India. After the first conference the need for the establishment of a regular committee to deal with and advise Government in matters relating to the formation of a federal policy for India, consisting British Indian Provinces and Indian States was realized and under orders of His Exalted Highness a committee known as the E. R. C. and having for its personnel Sir (now Rt. Hon'ble) Akbar Hydari as the President and Lt.-Col. Sir R. C. Trench and Nawab Mehdi Yar Jung Bahadur as Members, who had formed the State Delegation to the I. R. T. C., was appointed in Isfandar 1339 Fasli. The E. R. C. had originally Mr. M. S. A. Hydari of the Indian Civil Service for its Secretary and on his return to his duties in the Government of India the E. R. C.'s work was carried on by a Section of the Political Secretary's office and the then Deputy Political Secretary, Nawab Kaikobad Jung Bahadur acted as Secretary to the Committee. Later in 1934 Mr. Mirza Ali Yar Khan (now Nawab Ali Yavar Jung Bahadur) in addition to his duties as the Director of Information was

also entrusted with the Secretaryship of the Committee. The E. R. C. representing the State took part in the succeeding two R. T. C.s and worked in the light of instructions issued by His Exalted Highness. The President of the E. R. C. in addition to the leading part which he took in all the three Conferences served on almost all the Committees appointed in London to consider in detail and report on matters which demanded consideration in connection with the issue of an All-India Federation, and later, under his leadership the External Relations Committee had an occasion to participate in the discussions on White Paper proposals by the Joint Select Committee. Before the appearance of the Report of the Joint Select Committee, as a result of the Conference of Princes and Ministers held at Bombay in May 1934, a Committee of Ministers was appointed under the Chairmanship of the Rt. Hon'ble Sir Akbar Hydari with the object of ensuring active co-operation of Indian States between themselves and for that purpose to advise such schemes as may be considered desirable in order to improve the organization and working of the Chamber of Princes and to consider the Report when issued of the Joint Select Committee and formulate recommendations. The Report of the Joint Select Committee was published in November, 1934, and was followed by the Government of India Bill which appeared in January 1935 and was finally placed on the Statute Book in 1935. It was mainly the work of the External Relations Committee aided by State Council in London, first endorsed by the Committee of Ministers and subsequently at a representative meeting of Indian Princes and Ministers that amendments to a number of clauses of the Bill were suggested and the wording of Section 6 of the Act, as it now stands, relating to the transaction of Rulers of Indian States accession to Federation is the result of the combined effort by it.

4. *Chief Functions*:—As the work with which the External Relation Committee was originally entrusted had by far increased and the need for organizing a Secretariat separate from the Political Department for dealing with matters external as well as internal was then felt. His Exalted Highness was pleased at the instance of the Executive Council to sanction the establishment of the Secretariat to be called the Constitutional Affairs Secretariat

under the joint portfolio of the Members of the former External Relations Committee which was given the name of Constitutional Affairs Committee, while the Rt. Hon'ble Sir Akbar Hydari continued to be the President of the Committee as well as Member-in-charge of the Department and Nawab Ali Yavar Jung Bahadur was appointed as Secretary to Government in that Department. Soon after the constitution of the Department, meetings of Secretaries and Heads of Departments were convened under the aegis of the Constitutional Affairs Committee with the object of obtaining the views of Secretaries and Heads of Departments with regard to the limitations to be urged in relation to Entries in the Federal Legislative List. This proved of considerable value when His Excellency the Viceroy's special Representative visited Hyderabad for the purpose of elucidating points of difficulty and doubt arising from the Government of India Act and the Draft Instrument of Accession. Soon after the visit of the Representative the Secretary of the Department participated in the discussions of the Constitution Committee which was then convened at the instance of the then Chancellor of the Chamber of Princes to take account of the position as emerging from the discussions with the special Representative in Hyderabad as well as other Indian States. The meeting of the Constitution Committee was preceded by a meeting of the Informal Committee of Ministers which had before it a Memorandum representing the view of Hyderabad. This Memorandum was unanimously approved of by the Committee of Ministers and formed the basis of discussion at the meeting of the Constitution Committee. The Constitution Committee succeeded in establishing unanimity and in coming substantially to the same conclusions as those stated in the Hyderabad Memorandum in respect of matters touching all the Indian States alike and the task of effecting a close approximation of views the State's Representative, Secretary of the Constitutional Affairs Department, in the absence of the President owing to illness, played an effective and decisive part. Later the Members of the Constitutional Affairs Committee attended a Conference in Delhi of the representatives of the Government of India to discuss the question of retrocession of jurisdiction over Railway Areas in the Indian States. The revised draft Instrument of Accession was

received from His Excellency the Crown Representative confidentially in the month of January 1939, and was examined by the Constitutional Affairs Committee in the light of comments of State's Counsel in London. As similarly revised drafts had been circulated to the other Indian States also it was felt necessary that the draft in so far as it concerned Indian States generally should be scrutinized by the Committee of Ministers. A meeting of the Committee of Ministers was therefore convened in April, 1939, and the views of Hyderabad Council were made available to it. The Committee unanimously resolved that the terms of accession offered by His Excellency the Crown Representative in respect of certain vital matters were not acceptable.

5. *Achievements.*—Among the achievements of the E. R. C. as then known, may be mentioned the negotiations which it undertook in regard to the rendition of the Residency Bazars area and the Province of Berar. As the result of such negotiations in respect of the former the said area was formally made over to His Exalted Highness' Government and the negotiations in regard to Berar were successfully concluded in the beginning of the year 1346 Fasli, when the Agreement relating to Berar between His Majesty the King Emperor and His Exalted Highness was executed. The terms of the Agreement have already been published. As a further achievement of the Committee may be mentioned that the proposal of Government as formulated by it for the rendition of the Civil Area of the Secunderabad Cantonment has been accepted in principle by the Government of India and the Committee is now going ahead with the settlement of details in connection therewith.

On the side of internal Reforms which was also entrusted to the Constitutional Affairs Department when it was established it is to be recorded that on its recommendations a Reforms Committee was appointed by His Exalted Highness with the following terms of reference:—

“Keeping in view the conditions in and the requirements and circumstances of the State, to investigate and report on all suitable alternatives for the more

effective association of the different interests in the State with the Government, whereby the latter may be placed in continuous possession of their needs and desires."

The Committee has since reported and a Gazette Extraordinary containing the Arzdasht of the Constitutional Affairs Department on the Reforms Committee's Report and H's Exalted Highness' Firman thereon has recently been published.

Control:—The control of the Secretariat is under a Committee of the Executive Council, whose executive Officer is a Secretary who has under him Information Bureau and Wireless Department as well.

XLIV.—MISCELLANEOUS.

No. 23.—*Brief History of the Hyderabad City Improvement Board (Araish Balda).*

1. Established in 1321 Fasli (1912 A. D.).
2. Heads of the Department and the period of their tenure:—

(1) Mr. P. A. Bhavnani—Superintending Engineer, . . . 1321 to 1335 F.

(2) Mr. Meherali Fazil, L. C. E., Superintending Engineer . . . 1337 (cont.).

3. *History*:—The Board was inaugurated in 1321 F. for the sole purpose of suggesting and carrying out schemes for the improvement of not only the general appearance but also the sanitary condition of the City. The Musi river banks which were devastated by the floods in 1908 A. D. presented an ugly appearance to the City. The congested slum areas were the centres of diseases and pestilence. The Board consisting of eighteen members including Honorary Secretary and Joint Secretary worked throughout the year 1347 Fasli under the Presidentship of General Walashan Prince Nawab Muaz-zam Jah Bahadur.

4. *Chief Functions*:—Clearance of slums, providing model houses and other amenities to the city.

5. *Achievements*:—The first work undertaken was to make the banks of the Musi river useful and beautiful by constructing retaining walls on both sides from old Bridge to Chaderghat Bridge. The area thus reclaimed was laid out as a Park called Osmania Park and River garden). This work took nearly seven years with a cost of eight lakhs of rupees. The next and the most important work undertaken was that of slum clearance, fourteen localities have been improved at a cost of seventy lakhs of rupees covering an area of about 88

acres. For the dishoused 2,578 sanitary houses to suit the poorest class as well as the middle class have been built in 12 localities as model houses at a cost of Rs. 30,91,949 varying in rents from one rupee to Rs. 10-8-0 per mensem. The Board undertook the construction of new roads, the widening of the old ones throughout the city and beautifying of several principal thoroughfares by arcades, avenue trees, footpath and making them dust-proof.

Pathergatti, the trade centre of the city area has been reconstructed with dressed stone arcade and Asaf Jahi road has been widened and made dust-proof which has established a shopping centre of very great importance outside the city proper.

Muazzam Jahi market designed on modern lines has been constructed to meet the wants of the citizens. Grain markets are being improved. Infant Welfare centres, Children's parks and bathrooms for the women of the depressed classes have been put up in various localities.

Thus the Board since its inception has been doing not only the work of an architect beautifying the metropolis of the largest Indian State but also rendering a service to humanity by giving the poor healthy houses in healthy localities.

6. *Control*:—The Board is under a President assisted by a Superintending Engineer, two Assistant Engineers, two Sub-Engineers and a Government Pleader.

7. *Expenditure*:—The total expenditure from the inception of the Board up to the end of 1347 Fasli amounts to Rs. 2,02,24,466.

The expenditure during 1347 Fasli was Rs. 4,91,958.

SECTION XLV.

Appendices

APPENDIX I.

Customs Tariff (Import)—Articles which are free of Duty.

S.No.	Names of articles.
-------	--------------------

(1) *Grain, Pulse and Flour.*

1. Beaten rice (chudwa and murmura).
2. Grains and flour of all sorts including maize and ears of grains.

(2) *Provisions, Oilman's Stores and Groceries of all sorts.*

3. Eggs.
4. Fish or meat (fresh).
5. Pastry of all sorts and Indian sweetmeats for personal use up to 10 seers.

(3) *Spices and Condiments.*

6. Tamarind (fresh).

(4) *Salt.*

7. Lonar salt
8. Tanning salt. (chrome).

(5) *Dairy Produce.*

9. Milk and curds (fresh)

(6) *Fruits and Vegetables.*

10. Fruits (fresh) for private consumption.
11. Myrobalans.
12. Onions.
13. Tubers of all kinds not otherwise specified.
14. Vegetables (green) including cucumber.

(7) *Textile materials, Yarn and Fabrics.*

15. Cotton (raw, clean and waste).
16. Gunny bags, hessian cloth and tarpaulin, old.
17. Raw hemp, jute and wool.
18. Hand-made cloth of Madina Shariff.

*Customs Tariff (Import)—Articles which are
free of Duty—(contd.).*

S.No. Names of articles.

(8) *Apparel.*

19. Second-hand or used apparel for personal use.

(9) *Seeds.*

20. Ambada seed.

21. Hemp seed.

22. Vegetable, fruit and flower seeds and seeds and
bulbs for ornamental plants and trees.

(10) *Wax and Fat.*

23. Artificial wax or paraffin.

24. Tallow or fat.

(11) *Dyes, Colours and Tanning Substances.*

25. All kinds of vegetable and mineral (aniline and
alizarine) dyes, colours, barks, roots, etc., used
in dyeing cotton, silk, wool and similar articles,
including sappan wood, suranjiwood, indigo,
paints, varnish, distemper, turmeric, catachu
and red ochre (gairu).

26. Dyes, vegetable materials and chrome salt used in
dyeing and tanning hides and skins, including
harda chamri (galls), amaltas and turwar
bark.

27. Hirakush green and red (sulphate or iron).

(12) *Forest produce and Manufactures thereof.*

28. Baskets made of twigs and palm leaves.

29. Brooms and canes.

30. Gums and resins.

31. Leaf plates (patroli) and leaf cups (duppas).

32. Leaves and twigs on which duty has not been speci-
fically prescribed.

33. Seed lac, lac-stick.

34. Sieves and winnows made of bamboo.

Customs Tariff (Import)—Articles which are free of Duty—(contd.).

S.No.	Names of articles.
	(13) <i>Wood, Timber and other Manufactures.</i>
35.	Firewood.
36.	For match factories, matchwood.
37.	Wheels for country carts with or without tyres.
	(14) <i>Fodder.</i>
38.	Chuni and konda of all kinds.
39.	Grass, hay, straw and Kadbi (jawar, bajra and maize stalks).
	(15) <i>Building Materials.</i>
40.	Fire bricks and fire clay.
41.	Sand and earth.
42.	Stone, undressed.
	(16) <i>Animals and birds.</i>
43.	Country fowls.
44.	Kids with goats and calves with cows and buffaloes under three months and one year respectively.
	(17) <i>Coal, Coke and Plumbago.</i>
45.	Coke and Plumbago.
	(18) <i>Metals and their Manufactures.</i>
